and will of God thereby disclosing the purpose of God in man's creation. The book augments the biblical truths of the creation story with scientific truths applying mostly chemistry, biology, anatomy, and physiology principles to explain phenomena of the human body and showing that current applications of medical science, especially in the acid-base electrolyte knowledge, goes to prove that man's raw materials which form up his physical being indeed came from the earth. The role of nutrition serves the purpose of replenishing man's physical needs also extracted from the earth, but the spiritual requires God if to stay healthy it has and if man has to be guaranteed eternal life as God had originally intended. Student Dr. Charles Kapungwe is the author of must-read books *Soldiers Of The Cross* and its sequel *Ministry Of Deliverance*. **Beyond the Firmament**

Gordon J. Glover, 2007. As debates within the Church over the scientific details of creation become more frequent, the experts seem to grow more entrenched while the rest of us only become more confused. Somewhere between the endless arguments over distant starlight and Carbon-14 dating, calculating the mathematical improbabilities of things that already exist and parsing ancient Hebrew and Greek, somebody needs to ask the simple question: If 3,500 years of scientific progress can't help modern Christians figure out Genesis, then how could the ancient Israelites possibly have understood it so well? What secret did this newly liberated gaggle of Hebrew nomads take with them out of Egypt that holds the key to understanding God's telling of His own creation story? *Beyond the Firmament* challenges all creationist camps, whether Young Earth, Old Earth, or Theistic Evolutionist, to step outside of traditional paradigms and recognize how our modern Western post-Enlightenment scientific worldview actually blinds us from seeing the simple truth of Creation as it was originally intended and how our failure to grasp the theological significance of the Biblical creation model puts science and faith on a collision course.

Timeless Vision Jim Johnson, 2024-04-12. Faith and facts are reconciled in this revelatory examination of biblical and secular truths that follows the path to God through science, not around it. Always a man of science, Jim Johnson accepted Christ into his life shortly after his fiftieth birthday. This acceptance of God's unseeable power did not shake his belief in science; it strengthened it. Through years of research on the world's evolution, Johnson found that in studying every new hypothesis and theory, he believes even more in God's universal role. *Timeless Vision: Understanding God's Creation through the Lens of Science* bridges the gap between faith and science. Johnson examines the natural progression of Earth's creation alongside the seven biblical days, explains the conundrum of time, and expands upon the ever-evolving relationship humanity has with science and religion. Through analyzing scripture with detailed data and using science to bolster Christian beliefs, Johnson reveals just how rare and privileged Earth and human life truly are. It is through studying science and faith together, not apart, that we can see how God's plan was developed and why He did it. One is not complete without the other. Let Johnson lead you down the path less traveled, the one of science and faith, and show how God gave humanity these ways to discover Him more fully and completely. **In the Beginning: Did God Create Man Or Did Man Create God?** Thomas E. Baca, Dr. E. Ray Martin, 2015-02-09. Do you believe that science has all the answers to the mysteries of life and the origin of the

universe If you re convinced that life is an accident and occurred spontaneously and that evolution is the key to understanding the beginning of all living things this book will help you distinguish between opinion and fact The mysteries of the universe the solar system the earth and all living matter are made clear in either science or scripture When one removes the philosophies of men and accepts only what is proven or revealed through scripture the picture is as clear as the sun at noonday Events happen for a reason and nothing appears spontaneously without a cause The journey through time and space armed with revealed truths and true science reveals the eternal nature of matter and intelligence The universe is a magnificent display of engineering design laws and organization Science has proven that life comes from life and in no other way the anthropological record is a dismal failure in showing connectivity and succession between living organisms Other than showing that life is interrelated there is no transitional evidence that connects the various forms of life The DNA markers show no connection between the apes that walked upright and ma Adam Man is the crowning jewel of the creation displaying God like qualities in physical mental and spiritual attributes Then how did all that we observe today arise Did the universe expand from something smaller than an atom and grow into everything that we see Were Adam and Eve our first ancestors or did they evolve from lower life forms Was there a plan that was designed and executed by a Master Creator or is everything we see and experience the result of random chance The original spark of life that led to all life on planet Earth came from somewhere The evidence for why man exists is answered in the scriptures When opinions are set aside the facts speak for themselves Life could not have evolved the way Darwin hypothesized If man created God He is a mere idea and the winners in life are the philosophers If God made man his existence should be pursued with all the intensity of one s capability In the Beginning is an in depth exploration of these age old mysteries and questions and provides answers from logical reasoning and factual evidence

The Deliberate Design of Destiny Theodore A. Green,2009-05-06 Ps 71 1 In thee O LORD do I put my trust let me never be put to confusion The Deliberate Design of Destiny incorporates the great and courageous recent works of intelligent design scientists into a workable theory This book answer the Who What When Where Why and How of creation from the Intelligent Design perspective Understand the mystery kept secret since the world began Rom 16 25 The world blunders in confusion because largely the academic and industrial science institutions confuse the origins of human destiny and purpose Their aversion to faith and their exclusion of God confuses their efforts to understand this Mystery keep secret since the world began The Deliberate Design of Destiny explores the reason people society and nations do not comprehend creation s design and purpose and become doomed to confusion and chaos It explains how this ignorance allows the enemy of God to manipulate the world of men unto a destiny of destruction
