From Naked Ape To Superspecies:

From Naked Ape to Superspecies Holly Dressel, David Suzuki, 2004 In this revised and updated edition David Suzuki and Holly Dressel explore the ways in which human beings have evolved beyond their needs trampling other species believing that they can make the Earth work the way they want it to The book examines how human arrogance demonstrated by a disregard for the small and microscopic species that constitute the Earth's engine and the reckless use of technological inventions like powerful herbicides or genetically engineered crops is threatening the health of the populace and the safety of the food supply But this is not simply a doom and gloom scenario or alarmist creed The authors introduce readers to the people who are fighting back those who are resisting the inexorable advance of the global economy juggernaut From Naked Ape to Superspecies offers strategies for making the right turn at this crossroads and prospering by reshaping the place of humanity in nature

From Naked Ape to Superspecies David Suzuki, Holly Dressel, 2009-07-01 For millennia we lived in harmony with the Earth taking only what we required to survive But in just the past few centuries we have used our powers to satisfy our obsession with consumption and new technology without regard for the consequences And in doing so we have exploited our surroundings on an unprecedented scale In this revised and updated edition of From Naked Ape to Superspecies David Suzuki and Holly Dressel lucidly describe how we have evolved beyond our needs trampling other species believing that we can make the Earth work the way we want it to And they introduce us to the people who are fighting back those who are resisting the inexorable advance of the global economy juggernaut the people whose voices are difficult to hear over the din of corporate public relations machines We learn about how human arrogance demonstrated by our disregard for the small and microscopic species that constitute the Earth's engine and our reckless use of technological inventions like powerful herbicides or genetically engineered crops is threatening the health of our children and the safety of our food supply

From Naked Ape to Superspecies David Suzuki, University David T Suzuki, 2000-03 Human beings have acquired enormous technological muscle power and we are now having an impact on the planet that no other species has ever had We have to examine some of our most cherished notions like the ability of science to give us the power to manage nature the benefits and hazards of genetic engineering the real impact of information explosion and the need to keep the global economy growing forever Despite the sophistication of our technology we remain biological beings animals inextricably embedded in the natural world We must redefine progress and find ways to live in balance with each other and nature

Naked Ape to Superspecies David Suzuki, Holly Dressel, 1999 With breathtaking speed our species has undergone fundamental changes this century As we enter the new millennium David Suzuki takes stock of the impact of these changes on our environment

Bound and Free Douglas John Hall, In our largely secular postmodern environment theology perhaps appears quaint and archaic Yet Never has a thinking faith been more vital than today says Douglas John Hall when religious pluralism and fundamentalisms abound Precisely because we live in a post Christendom era he asserts

serious religious reflection on the meaning and import of Christian faith is indispensable to renewing a sidelined church a disoriented society and ourselves as people of faith Hall shows how in his fifty years of theological journeying he himself has come to see in theology a personal quest or even compulsion to dive deeply into life's deepest ambiguities to take on the perplexity and disorientation of one's age and to struggle to find meaning in the hiddenness of God Christians around North America have come to depend on Douglas John Hall's writings to keep their faith honest and relevant Now in *Bound and Free* they will find a brief but earnest apology for the theological vocation as well as a personal testimony to a life of grappling with God as glimpsed in doubt question and quest

Globalization and the Mission of the Church Neil J.

Ormerod, Shane Clifton, 2011-10-27 Various social political economic and cultural commentators are presently arguing that human history is reaching a decisive stage in its development a stage marked by increased interconnection between peoples the compression of space and time a sharing of ideas at unprecedented levels global trade and finance and so on The shorthand word used to encompass these phenomena is globalization Some embrace it others reject it while still others dispute its existence But with the abundance of literature and debate that it generates the topic cannot be ignored From its inception in the missionary mandate of Jesus Matthew 28 Christianity has had a global dimension to its mission Christianity is not a spectator to globalization but one of its agents one of the forces at work which have extended interconnection between peoples shared ideas and promoted social political and cultural links The purpose of the present work is not to provide a complete response to the question of the mission of the church in a globalizing world but to establish a framework within which answers may be sought Grounded in the writings of Bernard Lonergan and Robert Doran it develops a theology of history and addresses the church's response to the impact of globalization on vital social cultural personal and religious values The project brings together the perspectives of Catholicism and Pentecostalism the former providing a depth of wisdom and tradition the latter drawing on the insight of a newly emerging movement that has taken root in every continent with remarkable energy and enthusiasm

Beyond Environmentalism Jeffrey E. Foss, 2009-02-04

This one of a kind book provides thoughtful insight into the current relationship between humankind and the environment *Beyond Environmentalism* is the first book of its kind to present a timely and relevant analysis of environmentalism The author's decades of experience as a philosopher of science allow him to critically comprehend scientific issues and to develop and explain sound ethical policies in response to them The result is a volume that builds a philosophy of nature and helps the reader assess humankind's relationship with and impact on the world around us This innovative book discusses the inconsistencies both scientific and philosophical of popular environmentalism and sheds new perspectives on the issues causes and debates that embrace society today The goal is not to settle environmental issues once and for all but rather to provide the basis for more reasoned scientific and productive debates The need for a new philosophy of nature is explored through methodological discussion of several topics including The rise and fall of scientific proof Nature in religion romance and human values Humankind's

responsibility to the environment The value of freedom Kinship among species Numerous case studies throughout the book delve into global warming the sixth extinction the precautionary principle pollution and other popular issues within environmentalism Feature boxes guide the reader through complex topics such as eco sabotage the Gaia hypothesis and the urban heat island effect while vivid illustrations demonstrate scientific data theories and philosophical arguments in a reader friendly manner With its balanced approach to provocative issues Beyond Environmentalism serves as an excellent thought provoking supplement for courses on environmental studies at the undergraduate and graduate levels It is also an interesting and accessible read for anyone with a general interest in environmental issues *Encyclopedia of Television* Horace

Newcomb,2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclo pedia of Television 2nd edition website **Words for a Small Planet**

Nanette Norris,2013 Ecocriticism has matured beyond nature writing beyond writing about nature The essays in this volume look at the broader cultural historical sociological and psychological implications of ecology in written visual and sound culture In keeping with our sense of a global community these essays are representative of international scholarship on ecology and the environment and display the range of insight of which this criticism is capable Focusing on popular culture this volume is in the vanguard of our collective reflections on the directions in which our various societies are going

Landscape Architecture Theory Michael Murphy,2016-12-13 For decades landscape architecture was driven solely by artistic sensibilities But in these times of global change the opportunity to reshape the world comes with a responsibility to consider how it can be resilient fostering health and vitality for humans and nature Landscape Architecture Theory re examines the fundamentals of the field offering a new approach to landscape design Drawing on his extensive career in teaching and practice Michael Murphy begins with an examination of influences on landscape architecture social context contemporary values and the practicalities of working as a professional landscape architect He then delves into systems and procedural theory while making connections to ecosystem factors human factors utility aesthetics and the design process He concludes by showing how a strong theoretical understanding can be applied to practical every day decision making and design work to create more holistic sustainable and creative landscapes Students will take away a foundational understanding of the underpinnings of landscape architecture theory as well as how it can be applied to real world designs working professionals will find stimulating insights to infuse their projects with a greater sense of purpose The

Passionate Earth John H. Del Signore,2023-03-16 About the Book The Passionate Earth is an eco psychology treatise that portrays the relationship the human species has maintained with planet Earth It begins with the great transition from hunter gatherer to agricultural living and follows societal development up to our present disposition of disconnection discord exploitation and our possible extinction in the near future An interdisciplinary understanding of the events and changes that

have shaped our relationship with the Earth are presented in detail and how they have led to our present ecological crisis. The book brings up the urgency of living in a sustainable manner and how we can change our lifestyles to create a state of harmony and connectedness with the biosphere. *The Passionate Earth* is an urgent wake up call intended to promote concerted action to save our environment by all people. As a species we are in danger of extinction in the next ten years due to our current unsustainable thinking, behavior, and lifestyles. The presentation of the researched materials draws from a wide variety of interdisciplinary sources, both interesting and relevant. It is the intention of *The Passionate Earth* to encourage readers to take our environmental crisis seriously and become good environmental stewards.

About the Author: John H. Del Signore has been involved in environmentally related volunteer activities since his college years, as well as political and social issues, as an activist. His environmental interests have been self-driven after becoming aware of the environmental crisis while in college. He studied psychology and counseling psychology in grad school. He self-educated himself regarding environmental issues. His hobbies include landscape and nature photography, reading scientific books, singing, playing various musical instruments, especially guitar and electric bass, composing instrumental pieces for guitar, and building speaker systems. His favorite outdoor activities are hiking and climbing mountains.

Turning to One Another Margaret J. Wheatley, 2002
Looks at the power of conversation for changing everything from personal relationships to organisational dysfunction and then suggests conversation starters for meaningful discussions.

Good News for a Change David Suzuki, Holly Dressel, 2009-07-01
We all know the bad news. Every day along with all the bulletins on social upheavals and terrorist attacks we read reports of another animal species on the brink of extinction, of how our ocean fisheries are collapsing, and of the damage industrial development is wreaking on our soil, air, and water. We drive bigger cars, eat pesticide-sprayed genetically altered foods, and consume so much energy that even rich industrialized countries suffer power outages. We seem intent on continuing to live this way even though many scientific experts tell us our actions are suicidal. The good news, Suzuki and Dressel tell us, is that thousands of individuals, groups, and businesses are already changing their ways. A growing number of companies are still making money while benefiting their local communities. Anti-globalization activists and Third World villagers are learning how to practice real participatory democracy and create real community. Farmers and ranchers are sharing their land with other species, including predators and pests, while still prospering. Even some governments, local and national, are starting to base economic development strategies on our collective dependency on nature while decreasing large-scale interference in our ecosystems.

Lakeland Allan Casey, 2009-11-01
Lakes define not only Canada's landscape but the national imagination. Blending writing on nature, travel, and science, award-winning journalist Allan Casey systematically explores how the country's history and culture originates at the lakeshore. *Lakeland* describes a series of interconnected journeys by the author, punctuated by the seasons and the personalities he meets along the way, including aboriginal fishery managers, fruit growers, boat captains, cottagers, and scientists. Together they form an evocative portrait of these beloved

bodies of water and what they mean from sapphire tarns above the Rocky Mountain tree line to the ponds of western Newfoundland

David Suzuki's Green Guide David Suzuki, David R. Boyd, 2009-07-01 Everyone knows that the planet is in trouble but is there a solution This timely book identifies the most effective ways individuals can be more green in four key areas home travel food and consumerism It also describes how citizens can ensure that governments take the actions necessary to make sustainable lifestyles the norm instead of the exception Environmental lawyer David Boyd and celebrated ecologist David Suzuki provide vital tips for choosing a home creating a healthy indoor environment and decreasing energy and water use and utility bills They discuss what readers can do to drive and fly less profile the most environmentally friendly transportation choices and explain how to purchase carbon credits among other suggestions In addition they offer simple changes individuals can make in their diet to eat fresher tastier healthier food Included too is invaluable advice about how to buy fewer things and avoid toxic consumer products

Radical Ecopsychology Andy Fisher, 2012-02-01 Personal in its style yet radical in its vision Radical Ecopsychology offers an original introduction to ecopsychology an emerging field that ties the human mind to the natural world In order for ecopsychology to be a force for social change Andy Fisher insists it must become a more comprehensive and critical undertaking Drawing masterfully from humanistic psychology hermeneutics phenomenology radical ecology nature writing and critical theory he develops a compelling account of how the human psyche still belongs to nature This daring and innovative book proposes a psychology that will serve all life providing a solid base not only for ecopsychological practice but also for a critical theory of modern society

Cause for Hope Bill Phipps, 2007 Global society stands at a crossroads one of those critical moments in the history of humankind The simple fact is that the Earth cannot support our rampant overuse and misuse of its abundant gift of resources Not only are we depleting the forests oceans soil we are also poisoning the air and polluting our rivers lakes and oceans We are living far beyond our means Life as we are creating it is measurably and extravagantly unsustainable Bill Phipps All societies live by their stories This provocative book from one of the most provocative leaders in the Canadian church challenges the governing story that has shaped and defined Western culture and society a story that has manifested itself in ecological destruction war and the obscene military expenditures that go with it unprecedented consumerism economic disparity between rich and poor mistreatment of non white cultures and races sexism and fear Clearly it is time for a new story Bill Phipps takes on the task of outlining the core themes of this new story with the passion and vision of a modern day prophet He shows us the deeply spiritual nature of the issues and choices that confront us Recognizing that the challenges we face are inherently interconnected and can no longer be treated in isolation from each other his approach is multi faceted touching on all aspects of life including the role of the arts in bringing about transformation As a culture and as a society we do indeed stand at a crossroads one of those rare grace moments when we are granted the opportunity to choose our future So the question remains before us Will we choose the way of death or the way of new life Cause for Hope is part warning cry part visionary

exploration part encouragement for the journey As such it is itself a cause for hope Each chapter concludes with questions for discussion making this book a valuable resource for study group use Islands and Rocks in the South China Sea James Borton, 2017-04-17 The situation in the South China Sea with regard to territorial disputes remains unsettled despite The Hagues Permanent Court of Arbitration unanimous ruling in favor of the Philippines and against Chinas historic rights to the South China Sea This collection of academic essays examines many interpretations of international law on the legal status of the contested islands and rocks Whats clear to all is that the failure to uphold international law and norms harms all claimants interests in the contested sea **The Cross in Our Context** Douglas John Hall, 2003 In this small gem of theological reflection North America s foremost theologian of the cross offers a profound and compelling contemplation on the relevance of the church s most fundamental confession Hall ponders what confessing Jesus as crucified means in today s context one that is postmodern pluralistic multicultural and in some respects post Christian A digest of his monumental trilogy this book lays out in brief compass the heart of Hall s theology of the cross contrasting it sharply with the theology of established Christianity showing how it reframes classical Christology and soteriology and drawing the implications for what it means to be human for Christian ethics and for the church **Eating Dirt** Charlotte Gill, 2011 Charlotte Gill spent twenty years working as a tree planter in Canadian forests In this book she examines the environmental impact of logging and celebrates the value of forests from a perspective of some one whose work caught them between environmentalists and loggers
