From Becket To Langton English Church Go:

The English Church from the Norman Conquest to the Accession of Edward I (1066-1272) William Richard Wood Stephens, 1916 **Anglo-Papal Relations in the Early Fourteenth Century** Barbara Bombi, 2019-07-23 This volume is concerned with diplomacy between England and the papal curia during the first phase of the Anglo French conflict known as the Hundred Years War 1305 1360 On the one hand Barbara Bombi compares how the practice of diplomacy conducted through both official and unofficial diplomatic communications developed in England and at the papal curia alongside the formation of bureaucratic systems On the other hand she questions how the Anglo French conflict and political change during the reigns of Edward II and Edward III impacted on the growth of diplomatic services both in England and the papal curia Through the careful examination of archival and manuscript sources preserved in English French and Italian archives this book argues that the practice of diplomacy in fourteenth century Europe nurtured the formation of a shared language of diplomacy The latter emerged from the need to translate different traditions thanks to the adaptation of house styles formularies and ceremonial practices as well as through the contribution of intermediaries and diplomatic agents acquainted with different diplomatic and legal traditions This argument is mostly demonstrated in the second part of the book where the author examines four relevant case studies the papacy's move to France after the election of Pope Clement V 1305 and the succession of Edward II to the English throne 1307 Anglo papal relations between the war of St Sardos 1324 and the deposition of Edward II in 1327 the outbreak of the Hundred Years Wars in 1337 and lastly the conclusion of the first phase of the war which was marked in 1360 by the agreement between England and France known as the Treaty of Br tigny Calais

The Profession and Practice of Medieval Canon Law James A. Brundage, 2024-10-28 This latest collection of studies by James Brundage deals with the emergence of the profession of canon law and with aspects of its practice in the period from the 12th to the 14th centuries Substantial numbers of lawyers systematically trained in canon law first appeared in Western Europe during the second half of the 12th century and in the 13th they began to dominate the hierarchy of the Western church By 1250 canon law had grown into something more than a profitable occupation it had become a recognizable profession in the strict meaning of the term as it is still used today University law faculties trained aspiring canonists in the mysteries of their craft and put them through intellectually demanding exercises that terminated in a formal examination before they received their degrees Judges in church courts formally admitted them to practice after verifying their educational qualifications and administered prescribed rules of conduct Particular topics are the canonists system of legal ethics the education and training of canon lawyers in university law faculties and some fundamental features of the professional practice of canon law both in medieval Europe and in the crusading states of the Levant

Anglo-Norman Studies XXIV John Gillingham, 2002 This annual publication covers not only matters relating to pre and post Conquest England and France but also the activities and influences of the Normans on the wider European Mediterranean and Middle Eastern stage

The Historians of Angevin England Michael Staunton, 2017-06-23 The Historians of Angevin England is a study of the explosion of creativity in historical writing in England in the late twelfth and early thirteenth centuries and what this tells us about the writing of history in the middle ages Many of those who wrote history under the Angevin kings of England chose as their subject the events of their own time and explained that they did so simply because their own times were so interesting and eventful This was the age of Henry II and Thomas Becket Eleanor of Aquitaine and Richard the Lionheart the invasion of Ireland and the Third Crusade and our knowledge and impression of the period is to a great extent based on these contemporary histories The writers in question Roger of Howden Ralph of Diceto William of Newburgh Gerald of Wales and Gervase of Canterbury to name a few wrote history that is not quite like anything written in England before Remarkable for its variety its historical and literary quality its use of evidence and its narrative power this has been called a golden age of historical writing in England The Historians of Angevin England the first volume to address the subject sets out to illustrate the historiographical achievements of this period and to provide a sense of how these writers wrote and their idea of history But it is also about how medieval intellectuals thought and wrote about a range of topics the rise and fall of kings victory and defeat in battle church and government and attitudes to women heretics and foreigners

Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England Michael Burger, 2012-10-22 This book investigates how bishops deployed reward and

punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts

English Orders John Bainbridge Smith,1893 A History of the English Church ,1916 Abélard and St. Bernard Albert Victor Murray,1967 **History of England, by J.R. and C. Morell** John Reynell Morell,1873 The Oxford Magazine ,1892 The Haskins Society Journal Stephen Morillo,2002-12-05 Research on the Anglo Saxon Anglo Norman Viking and Angevin worlds of the eleventh and twelfth centuries *The English Nation* Edwin Jones,2003 In this reinterpretation of the history of England Edwin Jones reveals that a false view of the English past created during the reign of Henry VIII became one of the most powerful influences on English outlook and behaviour Excommunication in Thirteenth-Century England Felicity Hill,2022 Excommunication was the medieval church s most severe sanction used against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism shame and reputation and mass communication **The Saint Pauls Magazine** ,1868
