After Collapse Glenn M. Schwartz, John J. Nichols, 2010-08-15 From the Euphrates Valley to the southern Peruvian Andes early complex societies have risen and fallen but in some cases they have also been reborn Prior archaeological investigation of these societies has focused primarily on emergence and collapse This is the first book length work to examine the question of how and why early complex urban societies have reappeared after periods of decentralization and collapse Ranging widely across the Near East the Aegean

East Asia Mesoamerica and the Andes these cross cultural studies expand our understanding of social evolution by examining how societies were transformed during the period of radical change now termed collapse They seek to discover how societal complexity reemerged how second generation states formed and how these re emergent states resembled or differed from the complex societies that preceded them The contributors draw on material culture as well as textual and ethnohistoric data to consider such factors as preexistent institutions structures and ideologies that are influential in regeneration economic and political resilience the role of social mobility marginal groups and peripheries and ethnic change In addition to presenting a number of theoretical viewpoints the contributors also propose reasons why regeneration sometimes does not occur after collapse A concluding contribution by Norman Yoffee provides a critical exegesis of collapse and highlights important patterns found in the case histories related to peripheral regions and secondary elites and to the ideology of statecraft After Collapse blazes new research trails in both archaeology and the study of social change demonstrating that the archaeological record often offers more clues to the dark ages that precede regeneration than do text based studies It opens up a new window on the past by shifting the focus away from the rise and fall of ancient civilizations to their often more telling fall and rise

From Conquest to Colony Kirsten Schultz, 2023-01-01 A new history of Brazil s eighteenth century that foregrounds debates about wealth difference and governance Transformations in Portugal and Brazil followed the discovery of gold in Brazil s hinterland and the hinterland s subsequent settlement Although earlier conquests and evangelizations had incorporated new lands and peoples into the monarchy royal officials now argued that the extraction of gold and the imperatives of rivalry and commerce demanded new approaches to governance to ensure that Brazil s wealth flowed to Portugal and into imperial networks of exchange Using archival records of royal and local administrations as well as contemporary print culture Kirsten Schultz shows how the eighteenth century Portuguese crown came to define and defend Brazil as a colony that would reinvigorate Portuguese power Making Brazil a colony entailed reckoning with dynamic societies that encompassed Indigenous peoples Africans and Europeans the free and the enslaved the wealthy and the poor It also involved regulating social relations defined by legal status ancestry labor and wealth to ensure that Portuguese America complemented and supported rather than reproduced metropolitan ways of producing and consuming wealth

The Animal Other in Narratives of Conquest Stacy Hoult, 2023-04-11 The Animal Other in Narratives of Conquest Uncanny Encounters investigates the functions of nonhuman animal imagery in diverse narratives of the Conquest of the Americas The author s explications of film poetry literary and popular fiction and theme park spaces draw on postcolonial and animal theory deconstructive and Freudian literary criticism and radical social theory She argues that animals in these texts function on two levels while they play a key role in the development of both Indigenous and European characters depictions of their treatment and symbolic charge consistently work to disrupt narratives that seek to present the Conquest as a mutually beneficial encounter between two cultures The close readings of animal imagery in texts ranging from Pablo Neruda s poetry to the animated film The Road to El Dorado represent a fresh approach to questions surrounding the depictions of Indigenous Americans and the motivations tactics and lasting contributions of the invading culture **From**

Conquest to Deportation Jeronim Perovic, 2018-06-01 A synoptic history of Imperial and Soviet Russian conquest and colonization of the North Caucasus **From Conquest to Coexistence** Koert van Bekkum, 2011-01-11 Current research on ancient historiography concentrates on the relation between history and ideology while the archaeology of the Southern Levant is more and more viewed as a discipline of its own What happens when these new directions are applied to the historiography of Israel s settlement in Canaan This study offers a fresh analysis of scholarly debate a synchronic and

diachronic reading of Joshua 9 1 13 7 and a critical evaluation of all the relevant archaeological evidence This leads to a new historical picture of the Late Bronze Iron Age transition in the Cisjordanian Southern Levant and to the fascinating conclusion that it was the ideology of the Israelite scribes reworking this episode that instigated them to explore their antiquarian intent
