King-Strong,2023-07-09 Afterlife for The Living Make Every Moment Matter challenges those who have suffered a loss through death to engage in concerted efforts that are painstakingly planned and consciously executed daily to live a better

life The questions we must ask ourselves are will we live on or will we let ourselves die in the emotional sense with the loved one who has passed on As a family we made our decision Because every thought activity and course of our future has changed we learned to not merely exist but to live life better than ever before Make Every Moment Matter **Nietzsche Trauma and Overcoming** Uri Wernik,2018-01-15 Nietzsche Trauma and Overcoming shows that Nietzsche suffered from Post Traumatic Stress Disorder and most probably was a victim of childhood sex abuse I bring convincing evidence from his texts to support these claims along with a discussion of corroborating psychological findings on these issues I show that he teaches coping with pain and suffering based on his life experience with lessons from the school of war the wisdom of reinterpretation and artistic activity His three themes of the Superman Eternal Recurrence and the Will to Power the heart of his philosophy and psychology are understood in a new light in relation to his personal suffering and overcoming The book criticizes the attempts to diagnose Nietzsche as suffering from various psychiatric disorders psychoanalyze him as a fatherless child grown old and outing him as a closet homosexual These approaches lead to a dead end Firstly it is impossible to prove that someone is a paragon of mental health not a covert homosexual and unmoved by a parent's death Secondly these speculations explain only a small part of Nietzsche's personal statements found in his writings Thirdly and most importantly they do not change our understanding of his ideas and how they were arrived at they do not increase our appreciation of him and do not leave us with any lessons for life the goal of any good writing according to Nietzsche

*Ancient Philosophy of the Self* Pauliina Remes, Juha Sihvola, 2008-08-26. Pauliina Remes and Juha Sihvola. In the course of history, philosophers have given an impressive variety of answers to the question: What is self? Some of them have even argued that there is no such thing at all. This volume explores the various ways in which selfhood was approached and conceptualised in antiquity. How did the ancients understand what it is that I am fundamentally as an acting and affected subject interpreting the world around me, being distinct from others like and unlike me? The authors highlight the attempts in ancient philosophical sources to grasp the evasive character of the specifically human presence in the world. They also describe how the ancient philosophers understood human agents as capable of causing changes and being affected in and by the world. Attention will be paid to the various ways in which the ancients conceived of human beings as subjects of reasoning and action, as well as responsible individuals in the moral sphere and in their relations to other people. The themes of persistence, identity, self-examination, and self-improvement recur in many of these essays. The articles of the collection combine systematic and historical approaches to ancient sources that range from Socrates to Plotinus and Augustine.
