Social Movements and Democracy in the 21st Century Dylan Taylor, 2017-01-16 This book contends that the impasse of the Left today is in part a result of an anarchist common sense among activists The author argues that the vital dynamics of anarchism and social movements need to be combined with a reappraisal of the Communist party and state While cynicism towards capitalism and existing political institutions is plentiful this book argues that the Left appears mired in a reactive politics of resistance unable to formulate programmes for substantive social change Drawing insights from the history of the Left political economy contemporary critical theory and an in depth study of Occupy the author provides concrete suggestions as to how the Left might claim the twenty first century and realise a more equitable social order *Social Movements and Democracy in the 21st Century* challenges activists and scholars to rethink social movements and political organisation and to actively work towards enduring social change The book will be of interest to students and scholars of social movement studies Left theory critical theory political sociology and Marxism as well as anyone with an interest in political change

Hayden, C. el-Ojeili, 2009-03-12 Taking aim at the belief in utopia's demise this collection of original essays offers a new look at the vibrant renewal of utopianism emerging in response to the challenges of globalization It considers questions of hope and transformation associated with the utopian desire for social change *Bibliographisch repertorium van de wijsbegeerte*, 2006 **Bibliografisch Repertorium Van de Wijsbegeerte**, 2006 International Postmodernism Johannes Willem Bertens, Hans Bertens, Douwe Fokkema, 1997 Containing more than fifty essays by major literary scholars International Postmodernism divides into four main sections The volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing The final and fourth section deals with the reception and processing of postmodernism in different parts of the world Three important aspects add to the special character of International Postmodernism The consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i.e. the reader's knowledge experience interests and competence as crucial factors in text interpretation This comprehensive study does not expressly focus on American postmodernism although American interpretations of postmodernism are a major point of reference The recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of postmodernism made the editors Hans Bertens and Douwe Fokkema opt for the title International Postmodernism

Rethinking Democracy for Post-Utopian Worlds Jorge León Casero, Julia Urabayen, 2024-06-06 This book is both a conceptualization and detailed analysis of the current crisis in which modern utopian categories of political institutions find themselves as well as a reflection and clarification of the new dangers and opportunities facing post utopian politics in the making Met with those who believe that no more utopian political projects are possible the post utopian movement maintains a non fantastic or illusory character of being able to apply new great discourses and radically democratic historical narratives while respecting both the autonomy and emancipation of individuals as plurality and the socio cultural differences of communities With this purpose in mind the book is divided into five thematically differentiated sections the new utopian categories beyond modern epistemes the possibility of liberal utopian democracies without neoliberalism the opportunities of socialist empowerments and insurgencies the necessity of thinking in the space between two ages and the urgency to create
