From Middle England:

Cities and Regions in Crisis Martin Jones, 2019 This book offers a new geographical political economy approach to our understanding of regional and local economic development in Western Europe over the last twenty years It suggests that governance failure is occurring at a variety of spatial scales and an impedimenta state is emerging This is derived from the state responding to state intervention and economic development that has become irrational ambivalent and disoriented The book blends theoretical approaches to crisis and contradiction theory with empirical examples from cities and regions

reinforcement of class advantage through English education policy is a key theme this book does a superb job of both highlighting the key social justice concerns and controversies over the last fifty years and providing an overview of education policy developments over the same period British Journal of Sociology of Education Highly commended S E S Book Prize 2002 The acclaimed first edition of Education in a Post Welfare Society provided a critical overview of education policy since 1945 It demonstrated how a relatively decentralised education system became a system in which funding teaching and curriculum are centrally controlled and privatisation encouraged with education becoming a prop for global market economy rather than a pillar of the welfare state The second edition continues the policy story up to 2005 covering two terms of a New Labour government and their plans for a third term It also continues an examination of the relationship of education policy to social class race gender and the economy paying attention to the educational disadvantages of some ethnic groups and refugee children The book includes chronologies of education acts reports and initiatives and summaries of major legislation This is an invaluable resource for all those concerned with social policy and education including educational researchers professionals and politicians

Vincent, Guy Patterson, Karen Wale, 2017-11-01 This title was first published in 2001 Older people have been characterized by two mutually contradictory stereotypes One the one hand they have been portrayed as a powerful lobby growing demographically and able to demand large redistributions of the nation s income in their direction On the other hand they have been typified as a marginalized group at high risk of poverty and exclusion and in a political context largely powerless This book examines using original research conducted by the Older People and Politics Project OPPOL within Exeter University s Sociology Department the reality of the impact of the increasing number of older people on the British political process The project had three main investigative concerns how effective are pressure groups and lobbyists for older people how is the power and influence of older people perceived by older people themselves and the general public and how are politicians responding to older people and their needs

Bulletin of the United States Bureau of Labor Statistics ,1970 *Women and Exercise* Eileen Kennedy, Pirkko Markula, 2011-01-12 This volume examines women s contradictory experiences of their bodies health and exercise within the cultural context of consumerism Featuring contributions by leading scholars on women and exercise across North America and Europe this timely examination of women exercise and fitness will shape the international dialogue on these critical issues **Crime Reduction and Community Safety** Daniel Gilling, 2013-01-11 This book analyses Labour s policies of local crime control from 1997 through to 2006 It unfolds Labour s third way political project from the centre downwards and exposes the limitations of this project through an exploration of a number of key themes **Yes** James Foley, Peter Ramand, 2014-03-20 The United Kingdom faces a historic turning point in 2014 A Yes vote in the referendum on Scottish independence would see the break up of the 300 year old union adding a constitutional crisis to a deep economic crisis An accessible polemic written for progressives both north and south of the border Yes argues that independence can reinvigorate campaigns against austerity across Britain and deal a blow to the imperialist ambitions of the British state An urgent and invigorating political intervention Yes argues that even if the referendum result is no a progressive independence campaign will alter the political landscape Written by leading activists from the Radical Independence Campaign Yes will be a unique contribution to the referendum debate *Cycling and the British* Neil Carter, 2022-12-10 Cycling is currently enjoying a boom in popularity What are the reasons behind this phenomenon How have perceptions and the popularity of cycling shifted This book charts the historical development of cycling both as a leisure and sporting activity since the 19th century and explores the wider political and cultural context in which cycling in Britain emerged In particular it examines

cycling's relationship with environmental politics and its place in popular culture Neil Carter successfully traverses several historical sub disciplines including the history of transport leisure sport medicine and politics employing the analytical tools of class gender political culture the role of the state and commercialism to demonstrate how British identity has shaped and been shaped by cycling At a time when it has become part of debates over transport and health *Cycling and the British A Modern History* provides a timely and clear analysis of the changes and continuities in attitudes towards cycling Invisible Immigrants Marilyn Barber, Murray Watson, 2015-03-20 Despite being one of the largest immigrant groups contributing to the development of modern Canada the story of the English has been all but untold In *Invisible Immigrants* Barber and Watson document the experiences of English born immigrants who chose to come to Canada during England's last major wave of emigration between the 1940s and the 1970s Engaging life story oral histories reveal the aspirations adventures occasional na vet and challenges of these hidden immigrants Postwar English immigrants believed they were moving to a familiar British country Instead like other immigrants they found they had to deal with separation from home and family while adapting to a new country a new landscape and a new culture Although English immigrants did not appear visibly different from their new neighbours as soon as they spoke they were immediately identified as foreign Barber and Watson reveal the personal nature of the migration experience and how socio economic structures gender expectations and marital status shaped possibilities and responses In postwar North America dramatic changes in both technology and the formation of national identities influenced their new lives and helped shape their memories Their stories contribute to our understanding of postwar immigration and fill a significant gap in the history of English migration to Canada **The ^Voice of the Past** Paul Thompson, 2017-02-24 Oral history and life stories through recording the experiences of people of all kinds invigorate both past and present broadening life's base with unique testimony from hidden spheres of experience such as family relationships the informal culture of work or the lives of migrants This fully revised fourth edition of Paul Thompson's classic *The Voice of the Past* offers an invaluable tool for anyone using this approach *Political Choice in Britain* Harold D. Clarke, David Sanders, Marianne C. Stewart, Paul Whiteley, 2004-03-18 Why do people vote as they do Indeed why do they vote at all What do they think about elections political parties and democracy This important book by four leading scholars addresses these questions Using a wealth of data from the 1964 2001 British election studies monthly Gallup polls and numerous other national surveys conducted over the past four decades the authors test the explanatory power of rival sociological and individual rationality models of turnout and party choice Analyses of party choice endorse a valence politics model that challenges the long dominant social class model British voters make their political choices by evaluating the performance of parties and party leaders in economic and other important policy areas Although these evaluations may be products of events and conditions that occur long before an election campaign officially begins parties national and local campaign activities are also influential Consistent with the valence politics model partisan attachments

display individual and aggregate level dynamics that reflect ongoing judgements about the managerial abilities of parties and their leaders A general incentives model provides the best explanation of turnout Calculations of the costs and influence discounted benefits of voting and sense of civic duty are key variables in this model Significantly the decline in turnout in recent elections does not reflect more general negative trends in public attitudes about the political system Voters judge the performance of British democracy in much the same way as they evaluate its parties and politicians Support at all levels of the system is a renewable resource but one that must be renewed A command of theory data models and method ensure that Political Choice in Britain will be a major resource for all those interested in elections voting and democracy Livestock, Meat and Wool Weekly Summary and Statistics ,1999 *The Labour Party* Steven Fielding,2017-03-14 The Blair government is much less novel and distinctive than has been assumed by most commentators who have Steven Fielding argues taken too much of its rhetoric at face value Setting recent developments in a broader historical context this major new text on the British Labour Party provides a balanced account of its present state and how it got there The Labour Party is forever changing though generally within long established parameters New Labour is but the latest example of this process
