Extreme War The Biggest Best:

Extreme War Terrence Poulos,2005-12-27 A roster of record breakers in the sphere of military endeavour spanning 4 000 years of human conflict Organised by time period with a detailed introduction at the beginning of each section Extreme War offers detailed explanations of the bloodiest battles fastest conflicts greatest generals and finest weapons Each entry is a complete exploration of the subject covered from the whys and hows to the wheres whens and whos A truly complete paean to the art of war

The Battle of Marathon Earle Rice,2011-09-15 Late in the summer of 490 BCE a Persian invasion force landed on Grecian shores at the Bay of Marathon At the command of King Darius I the invaders aimed to punish the Athenians for their role against the Persian king s forces in the Ionian Revolt a few years earlier The outnumbered Athenians called on nearby Sparta for help but their sister city state delayed sending troops because of an ongoing religious festival Faced with a decision whether to fight a defensive holding battle while awaiting help from Sparta or to attack the invaders right away the Athenians elected to attack With the help of some 1 000 warriors from neighboring Plataea about 10 000 Athenians charged a Persian army of at least twice their numbers on the Field of Marathon By day s end the Athenians and their allies had thrust open the doorway to Greece s Golden Age

Warfare and Armed Conflicts Micheal Clodfelter,2017-04-24 In its revised and updated fourth edition this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015 with new statistical and analytical information Figures include casualties from global terrorism the wars in Iraq and Afghanistan and the fight against the Islamic State New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions Arranged roughly by century and subdivided by world region chronological entries include the name and dates of the conflict precursor events strategies and details the outcome and its aftermath

Climate Wars Harald Welzer,2015-02-12 Struggles over drinking water new outbreaks of mass violence ethnic cleansing civil wars in the earth s poorest countries endless flows of refugees these are the new conflicts and forces shaping the world of the 21st century They no longer hinge on ideological rivalries between great powers but rather on issues of class religion and resources The genocides of the last century have taught us how quickly social problems can spill over into radical and deadly solutions Rich countries are already developing strategies to garner resources and keep climate refugees at bay In this major book Harald Welzer shows how climate change and violence go hand in hand Climate change has far reaching consequences for the living conditions of peoples around the world inhabitable spaces shrink scarce resources become scarcer injustices grow deeper not only between North and South but also between generations storing up material for new social tensions and giving rise to violent conflicts civil wars and massive refugee flows Climate change poses major new challenges in terms of security responsibility and justice but as Welzer makes disturbingly clear very little is being done to confront them The paperback edition includes a new Preface that brings the book up to date and addresses the most recent developments and trends

On War and Writing Samuel Hynes,2018-02-27 In our imaginations war is the name

we give to the extremes of violence in our lives the dark dividing opposite of the connecting myth which we call love War enacts the great antagonisms of history the agonies of nations but it also offers metaphors for those other antagonisms the private battles of our private lives our conflicts with one another and with the world and with ourselves Samuel Hynes knows war personally he served as a Marine Corps pilot in the Pacific Theater during World War II receiving the Distinguished Flying Cross He has spent his life balancing two careers pilot and professor of literature Hynes has written a number of major works of literary criticism as well as a war memoir *Flights of Passage* and several books about the World Wars His writing is sharp lucid and has provided some of the most expert detailed and empathetic accounts of a disappearing generation of fighters and writers *On War and Writing* offers for the first time a selection of Hynes's essays and introductions that explore the traditions of war writing from the twentieth century to the present Hynes takes as a given that war itself the battlefield uproar of actual combat is unimaginable for those who weren't there yet we have never been able to turn away from it We want to know what war is really like for a soldier on the Somme a submariner in the Pacific a bomber pilot over Germany a tank commander in the Libyan desert To learn we turn again and again to the memories of those who were there and to the imaginations of those who weren't but are poets or filmmakers or painters who give us a sense of these experiences that we can't possibly know The essays in this book range from the personal Hynes's experience working with documentary master Ken Burns his recollections of his own days as a combat pilot to the critical explorations of the works of writers and artists such as Thomas Hardy E E Cummings and Cecil Day Lewis What we ultimately see in *On War and Writing* is not military history not the plans of generals but the feelings of war as young men expressed them in journals and poems and old men remembered them in later years men like Samuel Hynes
