Sanders, 2019-06-04 Why are you learning Zulu When Mark Sanders began studying the language he was often asked this question In *Learning Zulu* Sanders places his own endeavors within a wider context to uncover how in the past 150 years of South African history Zulu became a battleground for issues of property possession and deprivation Sanders combines elements of analysis and memoir to explore a complex cultural history Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans Sanders reveals deeper motives at work in the development of Zulu language learning from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts in the twentieth and twenty first centuries to teach a correct form of Zulu Sanders looks at the white appropriation of Zulu language music and dance in South African culture and at the association of Zulu with a martial masculinity In exploring how Zulu has come to represent what is most properly and powerfully African Sanders examines differences in English and Zulu language press coverage of an important trial as well as the role of linguistic purism in xenophobic violence in South Africa Through one person s efforts to learn the Zulu language *Learning Zulu* explores how a language s history and politics influence all individuals in a multilingual society *The Vocation of Anglicanism* Paul

Avis, 2016-08-11 Paul Avis charts a pathway of theological integrity through the serious challenges facing the Anglican Communion in the first quarter of the 21st century He asks whether there is a special calling for Anglicanism as an expression of the Christian Church and expounds the Anglican theological tradition to shed light on current controversies He argues in conclusion that Anglicanism is called like all the churches to reflect the nature of the Church that we confess in the

Creed to be one holy catholic and apostolic The book provides a clear view of the way that the Anglican tradition holds together aspects of the church that in other traditions are sometimes allowed to drift apart as the Anglican understanding of the Church reveals itself to be catholic and reformed episcopal and synodical universal and local biblical and reasonable traditional and open to fresh insight Avis combines accessible scholarly analysis with constructive arguments that will bring fresh hope and vision to Anglicans around the world

Virtues and Vices in the Nineteenth-Century Humanities Herman Paul, 2025-10-01 What do scholars do when they talk about virtues impartiality accuracy or vices dogmatism prejudice Against the common view that such high minded talk is largely irrelevant to actual scholarly practice this volume proposes to treat it as a practice in its own right Drawing on case studies from the nineteenth century humanities with occasional forays into physics chemistry and medicine Paul shows that notions of virtue and vice were an evaluative discourse used across the academic spectrum Paul argues that this evaluative idiom is best studied from a rhetorical point of view with due attention to repertoires on which scholars drew explicit or implicit appeals to authority multi layered meanings of virtue and vice terms different uses to which these concepts were put and societal contexts that lent plausibility to scholars' invocations of virtue and vice Based on more than a decade of research this volume will be a key reference for scholars interested in virtues vices and the history of the humanities

The Irish Presbyterian Mind Andrew R. Holmes, 2018-10-03 The Irish Presbyterian Mind considers how one protestant community responded to the challenges posed to traditional understandings of Christian faith between 1830 and 1930 Andrew R Holmes examines the attitudes of the leaders of the Presbyterian Church in Ireland to biblical criticism modern historical method evolutionary science and liberal forms of protestant theology He explores how they reacted to developments in other Christian traditions including the so called Romeward trend in the established Churches of England and Ireland and the Romanisation of Catholicism Was their response distinctively Presbyterian and Irish How was it shaped by Presbyterian values intellectual first principles international denominational networks identity politics the expansion of higher education and relations with other Christian denominations The story begins in the 1830s when evangelicalism came to dominate mainstream Presbyterianism the largest protestant denomination in present day Northern Ireland It ends in the 1920s with the exoneration of J E Davey a professor in the Presbyterian College Belfast who was tried for heresy on accusations of being a modernist Within this timeframe Holmes describes the formation and maintenance of a religiously conservative intellectual community At the heart of the interpretation is the interplay between the Reformed theology of the Westminster Confession of Faith and a commitment to common evangelical principles and religious experience that drew protestants together from various denominations The definition of conservative within the Presbyterian Church in Ireland moved between these two

Protestant Theology and Modernity in the Nineteenth-Century Netherlands Arie L. Molendijk,2021-12-24 Protestant Theology and Modernity in the Nineteenth Century Netherlands examines how Dutch Protestant thinkers and theologians met the challenges of the rapidly modernizing world around them It shows that the nineteenth century saw theology fundamentally transformed and reinvented in a variety of ways Enlightenment values were fiercely attacked by orthodox Pietists but embraced by modern theologians Positions were not fixed and theologians had to work hard to maintain their intellectual integrity Jewish Isaac da Costa converted to Christianity and fulminated against the Zeitgeist Allard Pierson who in his youth had been under the spell of Da Costa resigned from his ministry and adopted an agnostic stance Abraham Kuyper modernized theology and politics by laying the foundations of pillarization the segmented social structures based on differences in religion and worldview of Dutch society Abraham Kuenen revolutionized the study of the Old Testament and Protestant theologians made ground breaking contributions to the emerging science of religion This book used in depth studies of a small number of significant and influential Protestant thinkers to analyse how they addressed specific modern transformation processes such as political modernization the pluralization of world views and the emergence of critical historical scholarship It also considers the significant Dutch contribution to the historical critical study of the Bible and the emergence of the modern comparative study of religion **The Making of the Humanities** Rens Bod,Jaap Maat,Thijs Weststeijn,2025-10-01 This much awaited second volume investigates the changes in subject method and institutional context of the humanistic disciplines around 1800 offering a wealth of insights for specialists and students alike Point of departure is the pivotal question whether there was a paradigm shift in the humanities around 1800 or whether these changes were part of a much longer process The authors provide an overarching perspective including philology musicology art history linguistics historiography philosophy and literary theory They also make clear that the influence from the East from the Ottoman Empire to China was crucial for the development of the European humanistic disciplines Victorian Christianity and Emigrant Voyages to British Colonies c.1840 - c.1914 Rowan Strong,2017-10-27 Victorian Christianity and Emigrant Voyages to British Colonies c 1840 c 1914 considers the religious component of the nineteenth century British and Irish

emigration experience It examines the varieties of Christianity adhered to by most British and Irish emigrants in the nineteenth century and consequently taken to their new homes in British settler colonies Rowan Strong explores a dimension of this emigration history that has been overlooked by scholars the development of an international emigrants chaplaincy by the Church of England that ministered to Anglicans Nonconformists as well as others including Scandinavians Germans Jews and freethinkers Using the sources of this emigrants chaplaincy Strong also makes extensive use of the shipboard diaries kept by emigrants themselves to give them a voice in this history Using these sources to look at the British and Irish emigrant voyages to new homes this study provides an analysis of the Christianity of these emigrants as they travelled by ship to British colonies Their ships were floating villages that necessitated and facilitated religious encounters across denominational and even religious boundaries It argues that the Church of England provided an emigrants ministry that had the greatest longevity breadth and international structure of any Church in the nineteenth century The book also examines the principal varieties of Christianity espoused by most British emigrants and argues this religion was more central to their identity and consequently more significant in settler colonies than many historians have often hitherto accepted In this way the Church of England s emigrant chaplaincy made a major contribution to the development of a British world in settler colonies of the empire

African Print Cultures Derek Peterson, Steph Newell, Emma Hunter, 2016-09-29 The essays collected in *African Print Cultures* claim African newspapers as subjects of historical and literary study Newspapers were not only vehicles for anticolonial nationalism They were also incubators of literary experimentation and networks by which new solidarities came into being By focusing on the creative work that African editors and contributors did this volume brings an infrastructure of African public culture into view The first of four thematic sections *African Newspaper Networks* considers the work that newspaper editors did to relate events within their locality to happenings in far off places This work of correlation and juxtaposition made it possible for distant people to see themselves as fellow travellers *Experiments with Genre* explores how newspapers nurtured the development of new literary genres such as poetry realist fiction photoplays and travel writing in African languages and in English *Newspapers and Their Publics* looks at the ways in which African newspapers fostered the creation of new kinds of communities and served as networks for public interaction political and

otherwise The final section Afterlives is about the longue dur e of history that newspapers helped to structure and how throughout the twentieth century print allowed contributors to view their writing as material meant for posterity

The Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world

Anglican Ritualism in Colonial South Africa Andrew-John Bethke, 2023-06-16 This book explores the phenomenon sometimes referred to as ritualism in the Anglican tradition The use of gestures vestments lighted candles incense and other rituals associated with Anglicanism's Roman Catholic past has formed a part of worship patterns since the denomination's birth in the sixteenth century However due to the suspicion with which the majority of English people viewed Roman Catholicism such practices never entered the mainstream In the middle of the nineteenth century a new wave of ritual practice swept through Anglicanism not only in England but across the world While this wave was held in great suspicion by most churchgoers at first by the turn of the nineteenth century it had begun to influence the status quo such that weekly Communion services vestments and candles now form a normal part of regular Anglican worship This book provides an introduction to ritualism's origins in Anglicanism and then examines how this movement took root in colonial South Africa It finds that after a period of fairly robust antagonism towards ritualism a general movement towards ritualist practices began to emerge which characterised local Anglicanism's ethos Those who are interested in church history the colonial impact of the British Empire ritual studies or the tensions between class systems will find this book stimulating
