Eye To Eye Blank

Amy Z. Matino, Charles B. Slonim

Eye To Eye Blank:

Eye Was There Amy Z. Matino, Charles B. Slonim, 2011-07-19 *Eye Was There* is created specifically for any person who is considering having an eye surgically removed or is coping with the loss of an eye. It is also created for that person's caretakers, family members, and friends. There are limited sources of information outside of a doctor's office from which a patient can learn about what to expect before, during, and after the surgery to remove an eye. The doctor or the doctor's staff might not have the time to handle the variety of questions that are commonly asked. Many of the questions arise after the patient has left the doctor's office. *Eye Was There* is intended to serve as a source of information regarding the preoperative surgical and postoperative options surrounding the loss of an eye. It explains the most common surgical procedures performed to remove an eye and the potential complications that can occur after surgery. It details some of the medical conditions leading up to the removal of an eye. It describes the emotional and psychological steps that are experienced when dealing with the loss of an eye. It contains historic and current information on the manufacturing and fabrication of artificial eyes and orbital prostheses. It provides instruction and advice regarding the care and handling of the artificial eyes and orbital prostheses that are worn after surgery. The book is meant to give a positive perspective of dealing with life after the loss of an eye.

The Transparent Eye Eugene Chen Eoyang,1993-02-01 In this remarkably stimulating and erudite series of essays Eugene Chen Eoyang explores many of the underlying paradigms and presumptions in world literature highlighting issues of cultural interchange and cultural hegemony Translation is seen in this perspective as a central rather than a peripheral factor in understanding the meanings of literary works Taking concrete examples from Chinese literature Eoyang illuminates not only the semantic collisions that underlie the complexities of translation but also the cultural identities reflected in language and values The title alludes to a passage from Emerson reminding us that the object on view is not only the vision we see but is also the organ through which that vision is apprehended The confrontation with a radical other which is for many Westerners what Chinese literature represents is thus both a discovery and a self discovery Part of the book s originality is that it identifies a new audience one that is incipiently bicultural or knowledgeable about what has been called East as well as what has been called West Readers with an interest in the theory and practice of translation will find this an inspiring and indispensable work one that prepares the way for a comparative poetics that recognizes the intense subjectivities in every culture and at the same time establishes a basis for a comparison that tries to transcend even as it acknowledges provincialities History of Soybeans and Soyfoods in Japan, and in Japanese Cookbooks and Restaurants outside Japan (701 CE to 2014) William Shurtleff,Akiko Aoyagi,2014-02-19 The world s most comprehensive well documented and well illustrated book on this subject with 445 photographs and illustrations Plus an extensive index
