They Were Eyewitnesses Nancy A. Almodovar,2021-07-23 For many of today s Christians their go to style of proclaiming the faith is to share their own experiences While this may be a stepping stone to the conversation we should not remain on our subjective and unprovable experiences Rather Christians should use the pattern set forth in the New Testament by the apostles and evangelists the gospel of Jesus who died was buried and rose to life on the third day according to the Scriptures In this book the sermons of the apostles and evangelists will be looked into to see how they both proclaimed and defended the Christian faith giving all Christians the pattern to follow in their own opportunities to share the one true faith **Good**

Almodovar,2021-03-19 The Apostles

Creed was used in two distinct ways by the early Christian church first as a tool to teach new disciples the essentials of the faith and second as a defense for the faith from unbelievers and skeptics alike In the world today many are engaged in apologetics but with their presuppositions and subjective reasoning they offer the world nothing different than their own subjective beliefs Using the Apostles Creed as a guide enables the Christian to give a hope for the faith within using objective truths based on eyewitness testimony This book teaches you how to use the Creed to stay on topic and bring out the essentials of the faith in a concise and graceful manner Dr Almodovar gives a rubber hits the road approach to apologetics offering various scenarios to show how Creedal apologetics is accomplished This simple tool the Apostles Creed once used for defense is dusted off polished up and sharpened so that today s Christians can defend and proclaim the great gospel of Jesus Christ to a world in desperate need of the forgiveness of sins and new life in his name From Crime Scene to

Courtroom: A Comprehensive Guide to Criminal Law Practice Prof. (Dr.) J.S.P. Srivastava ,Mr. Arun Kumar ,Ms. Neha Singh,2025-07-04 *Testimony and Advocacy in Victorian Law, Literature, and Theology* Jan-Melissa Schramm,2000-04-20 The eighteenth century model of the criminal trial with its insistence that the defendant and the facts of a case could speak

for themselves was abandoned in 1836 when legislation enabled barristers to address the jury on behalf of prisoners charged with felony. Increasingly professional acts of interpretation were seen as necessary to achieve a just verdict thereby silencing the prisoner and affecting the testimony given by eye witnesses at criminal trials. Jan Melissa Schramm examines the profound impact of the changing nature of evidence in law and theology on literary narrative in the nineteenth century. Already a locus of theological conflict, the idea of testimony became a fiercely contested motif of Victorian debate about the ethics of literary and legal representation. She argues that authors of fiction created a style of literary advocacy which both imitated and reacted against the example of their storytelling counterparts at the Bar. **Eyewitness Testimonies**, 1990

Nothing Else Matters Nancy A. Almodovar, 2022-03-18 It is said that Jaroslav Jan Pelikan, a leading scholar in the history of Christianity and Sterling Prof. Everett of history at Yale University, on his deathbed confessed this: "If Christ has not risen from the dead, nothing else matters. If Christ has risen from the dead, nothing else matters." I came across this quote in my research for the Apologetics Together courses that I offer on social media and was immediately awed at its profound implications. Indeed, if Jesus has not risen, we must agree with Saint Paul that the world remains in their sins and are eternally lost. However, since Jesus has risen, those who have placed their trust in him are assured of salvation and eternal life. This book looks at the prophecies and fulfillment in the Scriptures which assure us that he who died on the cross at Calvary rose again on the third day for our justification. *An Education in Judgment* D. N. Rodowick, 2021-08-10 Rodowick takes after the theories of Hannah Arendt and argues that thinking is an art we practice with and for each other in our communities. In *An Education in Judgment*, philosopher D. N. Rodowick makes the definitive case for a philosophical humanistic education aimed at the cultivation of a life guided by both self-reflection and interpersonal exchange. Such a life is an education in judgment: the moral capacity to draw conclusions alone and with others and letting one's own judgments be answerable to the potentially contrasting judgments of others. Thinking, for Rodowick, is an art we practice with and learn from each other on a daily basis. In taking this approach, Rodowick follows the lead of Hannah Arendt who made judgment the cornerstone of her conception of community. What is important for Rodowick, as for Arendt, is the cultivation of free relations in which we allow our judgments to be affected and transformed by those of others, creating an ever-widening fabric of intersubjective moral consideration. That is a fragile fabric, certainly, but one that Rodowick argues is worth pursuing, caring for, and preserving. This original work thinks with and beyond Arendt about the importance of the humanities and what the humanities amounts to beyond the walls of the university. **Acts of Arguing** Christopher W. Tindale, 1999-11-04 The revival of argumentation theory in the past few decades has focused on its logical and dialectical dimensions, with less attention paid to rhetorical features. This book explores and then redresses this imbalance. Tindale examines important logical and dialectical innovations in recent argumentation theory and shows that they depend implicitly upon rhetorical features of argument that have been suppressed in the account. This is illustrated using two extended case studies: one looking at Shell

International s defense of its actions in Nigeria after the death of Ken Saro Wiwa and the other exploring the uses of character based argument and testimony in a Holocaust denial text and legal trial In addition to the case studies two chapters treat serious problems that plague current argumentation theory The first concerns the nature of fallacy the second concerns the ties between traditional argumentation and a model of rationality that has been seriously critiqued by feminist and postmodernist scholars In both instances the discussion indicates how a rhetorical approach to argumentation offers fresh insights and suggests responses to the questions raised

The Resurrection in Retrospect Peter Carnley,2020-01-01 In 2003 the British New Testament scholar N T Wright published The Resurrection of the Son of God arguing vigorously that the Resurrection of Christ should be handled purely as a historical event subjected to historical reason and critical historical research This book critically examines Wright s arguments Peter Carnley demonstrates the flaws in the view that the Resurrection should be understood essentially as Jesus return from the dead to this world of space and time in a material and physical body Carnley argues that the Resurrection of Christ is a mystery of God which must necessarily be appropriated not by reason alone but by faith Evidence relating to a past occurrence can be known only retrospectively Yet Easter faith has to do with apprehending in the present a concretely experienced reality which Saint Paul called the Spirit of life in Christ Jesus Rom 8 2 An epistemology of the identification of the Spirit in faith as the living presence of Christ will be found in the companion volume to this book The Reconstruction of Resurrection Belief

Jesus and the Eyewitnesses, 2nd ed. Richard Bauckham,2017-04-28 A groundbreaking work in New Testament studies expanded and updated Winner of the 2007 Christianity Today Book Award in Biblical Studies this momentous volume argues that the four Gospels are closely based on the eyewitness testimony of those who personally knew Jesus Noted New Testament scholar Richard Bauckham challenges the prevailing assumption that the Jesus accounts circulated as anonymous community traditions asserting instead that they were transmitted in the names of the original eyewitnesses In this expanded second edition Bauckham is adding a new preface three substantial new chapters that respond to critics and clarify key points of his argument and a comprehensive new bibliography

The Knight, the Cross, and the Song Stefan Vander Elst,2017-03-16 The Knight the Cross and the Song offers a new perspective on the driving forces of crusading in the period 1100 1400 Although religious devotion has long been identified as the primary motivation of those who took the cross Stefan Vander Elst argues that it was by no means the only focus of the texts written to convince the warriors of Western Christianity to participate in the holy war Vander Elst examines how across three centuries historiographical works that served as exhortations for the Crusade sought specifically to appeal to aristocratic interests beyond piety They did so by appropriating the formal and thematic characteristics of literary genres favored by the

knightly class the chansons de geste and chivalric romance By using the structure commonplaces and traditions of chivalric literature propagandists associated the Crusade with the decidedly secular matters to which arms bearers were drawn This allowed them to introduce the mutual obligation between lord and vassal family honor the thirst for adventure and even the desire for women as parallel and complementary motivations for Crusade making chivalric and literary concerns an indelible part of the ideology and practice of holy war Examining English Latin French and German texts ranging from the twelfth century Gesta Francorum and Chanson d Antioche to the fourteenth century Kr nike von Pr zinlant and La Prise d Alixandre The Knight the Cross and the Song traces the historical development and geographical spread of this innovative use of secular chivalric fiction both to shape the memory and interpretation of past events and to ensure the continuation of the holy war

Strong Evidence Denied Pasquale De Marco, In the annals of American history few cases have captured the public imagination and ignited such fervent debate as the trial of Nicola Sacco and Bartolomeo Vanzetti Accused of murdering two men during a 1920 robbery in South Braintree Massachusetts the case quickly became a lightning rod for controversy pitting class against class immigrant against native born and radical against conservative This book offers a comprehensive overview of the Sacco and Vanzetti case examining the evidence the trial proceedings and the cultural and political context in which they unfolded Drawing on a wealth of primary and secondary sources it provides a balanced and objective account of one of the most notorious trials in American history While the focus of this book is on the Sacco and Vanzetti case itself it also delves into the broader implications of the case for American society The trial raised important questions about the rights of immigrants the role of labor unions and the limits of free speech It also exposed deep divisions within the American public divisions that continue to shape the nation s politics and culture today In addition to providing a detailed account of the case this book also offers a fresh perspective on Sacco and Vanzetti themselves Drawing on newly discovered evidence and interviews with their descendants it paints a more nuanced portrait of two men who were both flawed and heroic It also examines the legacy of the case exploring how it has been used and abused by both sides of the political spectrum
