On the Importance of Being an Individual in Renaissance Italy Douglas Biow, 2015-02-04 In recent decades scholars have vigorously revised Jacob Burckhardt's notion that the free untrammelled and essentially modern Western individual emerged in Renaissance Italy Douglas Biow does not deny the

strong cultural and historical constraints that placed limits on identity formation in the early modern period Still as he contends in this witty reflective and generously illustrated book the category of the individual was important and highly complex for a variety of men in this particular time and place for both those who belonged to the elite and those who aspired to be part of it Biow explores the individual in light of early modern Italy s new patronage systems educational programs and work opportunities in the context of an increased investment in professionalization the changing status of artisans and artists and shifting attitudes about the ideology of work fashion and etiquette He turns his attention to figures familiar Benvenuto Cellini Baldassare Castiglione Niccol Machiavelli Jacopo Tintoretto Giorgio Vasari and somewhat less so the surgeon physician Leonardo Fioravanti the metallurgist Vannoccio Biringuccio One could excel as an individual he demonstrates by possessing an indefinable nescio quid by acquiring theorizing and putting into practice a distinct body of professional knowledge or by displaying the exclusively male adornment of impressively designed facial hair Focusing on these and other matters he reveals how we significantly impoverish our understanding of the past if we dismiss the notion of the individual from our narratives of the Italian and the broader European Renaissance
