

A globe is centered in the background, showing a grid of latitude and longitude lines. Four German flags are positioned vertically around the globe: two at the top and two at the bottom. The flags are slightly tilted and appear to be hanging or standing. The globe is set against a background of a wooden floor with a grid pattern.

Aikhenvald,Anne Storch,Viveka Velupillai,2025-06-02 Language and place are intimately connected depending on where we are what the

context is and what our aims are we will adjust our language accordingly Yet linguistics defines itself by a framework that determines which kind of language is worth investigating Within that framework linguistics constructs both language and place in multiple ways language as a sequestered thing belongs to the field site or the classroom language as fluid practice is associated with the street language as reconstruction belongs to migration corridors What about the places that tend to fall between the cracks This volume explores language in strange and familiar places from Europe to Africa Amazonia Australia and the Pacific in order to shed light on them Eurasian Empires as Blueprints for Ethiopia Asnake Kefale, Tomasz Kamusella, Christophe Van der Beken, 2021-02-14 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere

Ashgate Critical Essays on Early English Lexicographers John Considine,2017-03-02 Three major developments in English lexicography took place during the seventeenth century the emergence of the first free standing monolingual English dictionaries the making of new kinds of English lexicons that investigated dialect or etymology or that keyed English to invented philosophical languages and the massive expansion of bilingual lexicography which not only placed English alongside the European vernaculars but also handled the languages of the new world The essays in this volume discuss not only the internal history of lexicography but also its wider relationships with culture and society **The Power of Babel** Ali Al'Amin Mazrui,Alamin M. Mazrui,Alamin Mazrui,1998-08-03 Linguists estimate that there are currently nearly 2 000 languages in Africa a staggering figure that is belied by the relatively few national languages While African national politics economics and law are all conducted primarily in the colonial languages the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects making language itself the center of debates over multiculturalism gender studies and social theory In *The Power of Babel* the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language *The Power of Babel* is one of the first comprehensive studies of the complex linguistic constellations of Africa It draws on Ali Mazrui s earlier work in its examination of the triple heritage of

African culture in which indigenous Islamic and Western traditions compete for influence In bringing the idea of the triple heritage to language the Mazruis unravel issues of power culture and modernity as they are embedded in African linguistic life The first section of the book takes a global perspective exploring such issues as the Eurocentrism of much linguistic scholarship on Africa part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language policy and democratic development the third section presents a set of regional studies centering on the Swahili language s exemplification of the triple heritage The Power of Babel unites empirical information with theories of nationalism and pluralism among others to offer the richest contextual account of African languages to date *An American Dictionary of the English Language* Noah Webster, 1841
