**Anti-Aircraft Artillery in Combat, 1950-1972** Mandeep Singh, 2020-04-30. An in-depth look at the combat performance of ground-based air defenses during the Korean War, Vietnam War, Middle East conflicts, and other campaigns. Though anti-aircraft artillery was extensively used in combat in the First World War, it wasn't until World War II that it came into prominence, shooting down more aircraft than any other weapon and seriously degrading the conduct of air operations. In the battle between the attackers and anti-aircraft artillery, the latter had the upper hand when the war ended. The post-war years saw a decline in anti-aircraft artillery as peace prevailed and the advent of the jet aircraft seemed to tilt the balance in favor of the aircraft as they flew faster and higher, seemingly beyond the reach of anti-aircraft artillery. It would take all the hi-tech equipment and the guile and cunning that anti-aircraft artillery could muster to try and reclaim pole position. It is that story of the tug-of-war between the aircraft and artillery that forms the narrative of this book as it traces

the history of combat employment of anti aircraft artillery from the Korean War in effect the first Jet Age war to the War of Attrition between Arab states and Israel when the missiles came of age sending the aircraft scurrying for cover Mandeep Singh s book is the first attempt to look at the performance of anti aircraft artillery incorporating the views analyses and experiences of Soviet Arab and South Asian Armies through the major wars between 1950 and 1972 Learning to Love the Bomb Sean M. Maloney,2007 In Learning to Love the Bomb Sean M Maloney explores the controversial subject of Canada s acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada s image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric half truths and propaganda Learning to Love the Bomb reveals the truth about Canada s role as a nuclear power
