Fortnight of Infamy John Burton, 2013-09-23 While America was preoccupied with the aftermath of Pearl Harbor an even greater tragedy was unfolding across Southeast Asia From Wake Island to Burma the Empire of Japan opened the largest front in the history of warfare an aircraft driven invasion of colonial possessions throughout the Far East that crumbled the entire Western imperial legacy of the nineteenth century Events during the first two weeks of battle set the stage for the greatest military defeats America and Great Britain would suffer during any conflict This book offers the first comprehensive overview of the collapse of Allied air forces during the period between December 8 and 24 1941 Written for a wide audience it gives readers both a cockpit view of the desperate actions that took place and an understanding of why such heavy losses occurred The narrative account includes enough detail and analysis to hold the interest of serious students of Pacific War aviation and enough exciting descriptions of air combat to attract those with little knowledge of the subject Explaining how and why the Japanese were able to win a quick victory John Burton points to U S failures in the concepts for employment of airpower and a significant underestimation of Japanese air mindedness and aviation capabilities failures that resulted in the loss or surrender of more than 200 000 troops

Brewster F2A Buffalo Aces of World War 2 Kari Stenman, Andrew Thomas, 2010-01-26 Entering service with the US Navy as a carrier borne fighter the Brewster F2A later named Buffalo by the British and simply the Brewster by the Finns saw relatively little service with its own nation Indeed it was to see action on just one occasion in US colors the engagement off Midway by USMC F2As saw a number of Japanese

carrier aircraft shot down including two by future ace Col Charles M Kunz The F2A was also ordered for the RAF in 1939 and although it soon became apparent that the type was not suitable for use against the mighty Luftwaffe over Western Europe the Buffalo was seen as a suitable type for use in the Far East It was sent en masse to equip new squadrons of the RAF RAAF and RNZAF formed for the defence of Malaya and Singapore Despite the many inadequacies exposed after the Japanese invasion the Commonwealth units fought gallantly against the odds and with poor logistical backup and ultimately made many claims Indeed no fewer than nine pilots either became aces on the type or increased their scores to achieve aceship and a further fifteen aces flew them in action Moreover the leading Buffalo ace went on to become the most successful Commonwealth pilot against the Japanese of the entire war It was in Finland however where the Brewster found undying fame and proved itself a real thorn in the side of the Soviets Operating in primitive conditions and against superior numbers Finnish Brewster 239 pilots racked up an incredible score against the Red Air Force Overall some 37 Finnish pilots became aces when flying the Brewster 239 The tubby Brewster was very much the fighter of choice for the leading Finnish pilots until the advent of large numbers of Messerschmitt Bf 109s in 1943

The Battle of Midway Craig L. Symonds, 2013-10-03 A close up look at the battle of Midway Island analyzes this crucial naval victory which marked the turning point for the American fleet in the Pacific theater of World War II

VIOLET LIGHTNING John Eric Vining, 2020-11-13 An epic achievement over one hundred years in the making In December 1941 Japan had perhaps the greatest combination of land sea and air forces the world had ever seen and she used these to conquer a huge empire in the Western Pacific and East Asia Yet by August 1945 Japan had been beaten to her knees by the combined power of China Great Britain and the United States Was this destruction inevitable Did Japan have no chance to defeat America and her allies Why would she think she could successfully battle the two greatest industrial powers the world had ever known Great Britain and the United States at the same time Violet Lightning A Blueprint for Japanese Victory in the Pacific 1941 1942 is a sweeping narrative over a century in the making From the first confrontation in 1895 between the United States and Japan over Hawaii to the massive Japanese defeats at Midway and Guadalcanal in 1942 to author John Eric Vining's first interest in the Japanese American conflict in the fall of 1967 by reading Carrier War in the Pacific to the fall of 1995 when Vining first put pen to paper on this project and finally to 2020's finished product by Page Publishing Vining reviews a history of the acrimony between Japan and the United States in the first half of the Twentieth Century He then builds what one reviewer calls a chillingly believable scenario for a Japanese victory in the greatest of all wars Violet Lightning poses and answers the question Could Japan really have pulled it off You just might find yourself coming around to a point of view you didn't believe was possible

Early Pacific Raids 1942 Brian Lane Herder, 2023-06-22 A fascinating exploration of how between February 1 and March 10 1942 three small US task forces launched several unexpected raids across the Japanese defensive perimeter in the Central and South Pacific After the devastating Japanese blows of December 1941 the Allies found themselves reeling with defeat everywhere in the Pacific

Although stripped of his battleships and outnumbered 10 to 3 in carriers the US Navy commander in chief Admiral Ernest J King decided to hit back at Japan's rapidly expanding Pacific empire immediately in an effort to keep the Japanese off balance. On February 1, 1942, Vice Admiral Bill Halsey led the US Pacific Fleet carriers on their first raid using high speed hit and run tactics to strike at the Japanese at a time when most of the Japanese carrier fleet was in the Indian Ocean. Halsey's aggressive commitment inspired its American participants to invent the mythical Hail Ass. With Halsey's club. The last of the 1942 US carrier raids in March 1942 would form a defining moment in the Pacific War prior to a new phase of high seas battles between the opposing fleets. This superbly illustrated book documents for the first time in a single volume this little known but important World War II naval campaign. The fabulous illustrations including maps and colour artworks bring to life the US air and naval raids on the Japanese bases in the Marshall and Gilbert Islands, Rabaul, Wake Island, Marcus Island, and Lae and Salamaua in northern New Guinea.

Air Combat, 2019-01-24. This book brings together the best and most iconic fighters of World War II pitted against one another in desperate aerial combat. The battle for the skies in World War II fuelled a race between rival air forces to develop ever faster and more capable fighter aircraft, and the struggle for air superiority was never over until the war itself ended. This volume explores four clashes of some of the finest planes and pilots in key theatres of the war: Spitfires duelling the formidable Bf 109 over the Channel; the Fw 190 battling the Soviet La 5 and 7 on the Eastern Front; the F4F Wildcat in a desperate clash with the legendary A6M Zero; and the F4U Corsair in combat with the second generation Japanese Ki 84 in the closing days of the war. Fully illustrated with contemporary photographs, maps, and colour artwork, *Air Combat* conveys the full story behind these dramatic aviation duels.
