European Writers in Exile Robert C. Hauhart, Jeff Birkenstein, 2018-10-26 European Writers in Exile collects a series of original essays that address the writers universal existential dilemma when viewed through the lens of exile who am I where am I from and what do I write and to whom While we often understand the term exile to refer to writers who have either been forced to leave their home country or region or chosen self exile this term need not be defined so narrowly and the contributors to this volume explore a range of interesting and evolving definitions Various countries in Europe have long been both a refuge for people and writers from many countries and a strife torn region which has forced many to flee within the continent or beyond it The phrase in exile involves writers moving across borders in multiple directions and for multiple reasons including for reasons of duress or personal quest and these themes are addressed and critiqued in these essays This volume naturally examines the cataclysmic and near universal exilic experiences relating to the world wars including essays on Thomas Mann Vladimir Nabokov Hannah Arendt and Leo Strauss Additionally essays address the unique early twentieth

century experiences of Emile Zola Franz Kafka Joseph Conrad and James Joyce More contemporary essay subjects include Milan Kundera Norman Manea Eva Hoffman Caryl Phillips and W G Sebald This collection of transnational globalized European literature studies envisions understanding the intersection of our contemporary world and various writers in exile in new cultural historical spatial and epistemological frameworks How does literary production in an increasingly globalized world when seen from exile affect a view back towards a country or region left behind Or conversely how does exile push a writer to look outward to new trans nationalized space s These and other questions are important to investigate Taken in sum European Writers in Exile offers an academically rigorous important and cohesive volume Modern Irish Writers

Alexander G. Gonzalez,1997-08-26 While the Irish Literary Revival began around 1885 and ended somewhere between 1925 and 1940 the Irish Renaissance has continued to the present day and shows no sign of abating The period has produced some of the most important and influential figures in Irish literature some of whom are counted among the world s greatest authors The Revival saw a reestablishment of Ireland s literary connections with its Celtic heritage and writers such as William Butler Yeats and Lady Gregory drew heavily on the myths and legends of the past James Joyce boldly reshaped the novel and wrote short fiction of enduring value Contemporary Irish writers continue to be leading figures and include such authors as Brian Frigl Seamus Heaney and Eavan Boland Included in this reference book are alphabetically arranged entries for more than 70 modern Irish writers including Samuel Beckett William Trevor Patrick Kavanagh Medbh McGuckian Sean O Casey J M Synge and Nuala Ni Dhomhnaill Entries are written by expert contributors and reflect a broad range of perspectives Each entry contains a brief biography that summarizes the author s career a discussion of major works and themes an overview of the author s critical reception and a bibliography of primary and secondary works An introductory essay reviews the large and growing body of scholarship on modern Irish literature while an extensive bibliography concludes the volume **The Hymns and Hymn Writers of the Church** Charles Sumner Nutter,Wilbur Fisk Tillet,1911

The Post-war Novel and the Death of the Author Arya Aryan,2020-08-07 This book not only discloses and examines different functions and concepts of authorship in fiction and theory from the 1950s and 1960s to the present but it also reveals at least implicitly a trajectory of some of the modes and functions of the novel as a genre in the last few decades It argues that the explicit terms of much of the theoretical and philosophical debate surrounding the concept of authorship in the moment of High Theory in the 1980s had already been engaged albeit often more implicitly in literary fictions by writers themselves This book examines the fortunes of the authorship debate and the conceptualisations and functions of authorship

before during and after the Death of the Author came to prominence as one of the key foci for the moment of High Theory in the 1980s

A Companion to the British and Irish Novel, 1945 - 2000 Brian W. Shaffer, 2008-04-15 *A Companion to the British and Irish Novel 1945 2000* serves as an extended introduction and reference guide to the British and Irish novel between the close of World War II and the turn of the millennium Covers a wide range of authors from Samuel Beckett to Salman Rushdie Provides readings of key novels including Graham Greene's *Heart of the Matter* Jean Rhys's *Wide Sargasso Sea* and Kazuo Ishiguro's *The Remains of the Day* Considers particular subgenres such as the feminist novel and the postcolonial novel Discusses overarching cultural political and literary trends such as screen adaptations and the literary prize phenomenon Gives readers a sense of the richness and diversity of the novel during this

period and of the vitality with which it continues to be discussed *Who Are You: The Life Of Pete Townshend* Mark Wilkerson,2009-10-28 An accurate detailed and fascinating account of the life of a man whose story should have been told in this much detail long ago Author Mark Wilkerson interviewed Townshend himself and several of Townshend s friends and associates for this biography **The Story of the Hymns; Or, Hymns that Have Made a History, Etc. [With Portraits.]** Hezekiah BUTTERWORTH,1875 The Story of the Hymns Hezekiah Butterworth,1875 **Latin American Writers** ,1989 Discusses writers of the New World and provides a critical analyses of today s outstanding writers The Literature Police Peter D. McDonald,2010-10-14 Censorship may have to do with literature Nadine Gordimer once said but literature has nothing whatever to do with censorship As the history of many repressive regimes shows this vital borderline has seldom been so clearly demarcated Just how murky it can sometimes be is compellingly exemplified in the case of apartheid South Africa For reasons that were neither obvious nor historically inevitable the apartheid censors were not only the agents of the white minority government s repressive anxieties about the medium of print They were also officially certified guardians of the literary This book is centrally about the often unpredictable cultural consequences of this paradoxical situation Peter D McDonald brings to light a wealth of new evidence from the once secret archives of the censorship bureaucracy from the records of resistance publishers and writers groups both in the country and abroad and uses extensive oral testimony He tells the strangely tangled stories of censorship and literature in apartheid South Africa and in the process uncovers an extraordinarily complex web of cultural connections linking Europe and Africa East and West The Literature Police affords a unique perspective on one of the most anachronistic exploitative and racist modern states of the post war era and on some of the many forms of cultural resistance it inspired It also raises urgent questions about how we understand the category of the literary in today s globalized intercultural world **Polyphony Embodied - Freedom and Fate in Gao Xingjian's Writings** Michael Lackner,Nikola Chardonnens,2014-06-23 Like artists important writers defy unequivocal interpretations Gao Xingjian winner of the Nobel Prize in literature is a cosmopolitan writer deeply rooted in the Chinese past while influenced by paragons of Western Modernity The present volume is less interested in a general discussion on the multitude of aspects in Gao s works and even less in controversies concerning their aesthetic value than in obtaining a response to the crucial issues of freedom and fate from a clearly defined angle The very nature of the answer to the question of freedom and fate within Gao Xingjian s works can be called a polyphonic one there are affirmative as well as skeptical voices But polyphony as embodied by Gao is an even more multifaceted phenomenon Most important for our contention is the fact that Gao Xingjian s aesthetic experience embodies prose theater painting and film Taken together they form a Gesamtkunstwerk whose diversity of voices characterizes every single one of them **Kazuo Ishiguro** Wai-chew Sim,2009-10-16 Having earned an international reputation with his booker prize winning novel *The Remains of the Day* Kazuo Ishiguro is fast emerging as an important cultural figure of our times In this guide to Ishiguro s varied and often experimental work Wai

chew Sim presents a biographical survey of Ishiguro's literary career and an introduction to his novels, plays and short stories; an accessible overview of the contexts and many interpretations of his work from publication to the present; discussions of key topics in Ishiguro criticism such as narrative theory, multicultural Britain and postcolonial studies; psychoanalytic criticism and Ishiguro as international writer; cross references between sections of the guide in order to suggest links between texts, contexts and criticism; suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of Kazuo Ishiguro and seeking not only a guide to his works but also a way through the wealth of contextual and critical material that surrounds them. **Independent and Weekly**
