who want to explore new teaching methods in various disciplines and general interest readers who wish to expand their horizons around concepts that can be applied to better understand themselves and the age in which we live     **Fabian Ideas** ,1907     Fabian Tracts ,1908     Fabian Socialism and English Politics, 1884-1918 A. M. McBriar,Alan Marne MacBriar,1962     Multiple Comparisons, Selection and Applications in Biometry Fred. M. Hoppe,2021-10-01 Aims to provide in depth descriptions of the latest developments in multiple comparison methods and selection procedures while emphasizing biometry This text is published in honour of the 70th birthday of Charles W Dunnett a pioneer in statistical methodology     **I'm Not the Final Boss' Lover Vol. 3 (novel)** KEN,2024-10-22 Jun Karentia has just stepped into the role of vice captain of the Dark Knights but her greatest challenge lies ahead the annual performance meeting All the top expedition forces will be there including her former comrades from the Fabian Corps On top of this rumors about an illicit love affair with her captain Mayer Knox are spreading like wildfire Despite her efforts to put them to rest the gossip only grows stronger especially when mysterious bruises start appearing after she helps Mayer with his training     **Nonstate Warfare** Stephen Biddle,2022-07-26 How nonstate military strategies overturn traditional perspectives on warfare Since September 11th 2001 armed nonstate actors have received increased attention and discussion from scholars policymakers and the military Underlying debates about nonstate warfare and how it should be countered is one crucial assumption that state and nonstate actors fight very differently In Nonstate Warfare Stephen Biddle upturns this distinction arguing that there is actually nothing intrinsic separating state or nonstate military behavior Through an in depth look at nonstate military conduct Biddle shows that many nonstate armies now fight more conventionally than many state armies and that the internal politics of nonstate actors their institutional maturity and wartime stakes rather than their material weapons or equipment determines tactics and strategies Biddle frames nonstate and state methods along a continuum spanning Fabian style irregular warfare to Napoleonic style warfare involving massed armies and he presents a systematic theory to explain any given nonstate actor s position on this spectrum Showing that most warfare for at least a century has kept to the blended middle of the spectrum Biddle argues that material and tribal culture explanations for nonstate warfare methods do not adequately explain observed patterns of warmaking Investigating a range of historical examples from Lebanon and Iraq to Somalia Croatia and the Vietcong Biddle demonstrates that viewing state and nonstate warfighting as mutually exclusive can lead to errors in policy and scholarship A comprehensive account of combat methods and military rationale Nonstate Warfare offers a new understanding for wartime military behavior     *The Challenge to the Auspices* Christoph F. Konrad,2022 No public action of the Roman state the *populus Romanus* at home or at war was to be carried out without prior permission from Iuppiter Optimus Maximus Permission was obtained in a procedure known as auspices by the magistrate in charge of the intended action usually a Consul Praetor or Dictator Auspices thus occupy a fundamental place in the unwritten constitution of the Roman State Yet especially in the 3rd century BCE acceptance of the principle was not always universal The Challenge

to the Auspices presents an investigation into the interaction of Roman magistrates during the Middle Republic with the practice of auspices with a focus on attempts to avoid ignore or resist this requirement Proceeding from an examination of the Roman concepts of imperium and auspices auspicia especially as they relate to the realm of war and of the constitutional position and powers of the Dictator and the Master of Horse magister equitum relative to each other and to the Consuls and lower magistrates the work offers six case studies in which Roman commanders questioned violated or openly rejected the need for auspices It is argued that these instances reflect a not insignificant minority view within the Roman ruling class regarding the efficacy of auspices and the necessity of observing them The catastrophic outcome in several of these events particularly during the early years of the Second Punic War rendered further resistance to the practice politically unsustainable and by the second century resulted in its universal acceptance regardless of personal belief

The Consumer, Credit and Neoliberalism Christopher Payne, 2012-07-26 This book is an investigation into the economic policy formulation and practice of neoliberalism in Britain from the 1950s through to the financial crisis and economic downturn that began in 2007 8 It demonstrates that influential economists such as F A Hayek and Milton Friedman authors at key British think tanks such as the Institute of Economic Affairs and the Centre for Policy Studies and important political figures of the Thatcher and New Labour governments shared a similar conception of the consumer For neoliberals the idea that consumers were weak in the face of businesses and large corporations was almost offensive Instead consumers were imagined to be sovereign agents in the economy whose consumption decisions played a central role in the construction of their human capital and in the enabling of their aspirations Consumption just like production came to be viewed as an enterprising and entrepreneurial activity Consequently from the early 1980s until the present day it was felt necessary that banks should have the freedom to meet the borrowing needs of consumers Credit rationing would be a thing of the past Just like businesses consumers and households could use debt to expand their stock of personal assets By utilizing the method of French philosopher Michel Foucault this book provides an original analysis of the policy ideas and political speeches of key figures in the New Right in government and at the Bank of England And it addresses the key question as to why policy makers both in Britain and the United States did little or nothing to stem rising consumer and household indebtedness instead always choosing to see increasing house prices and homeownership as a positive to be encouraged
