determine whether a project succeeds or fails For this reason it is crucially important that planners choose the right materials and use them correctly a task that is especially challenging today when they are confronted with an almost dizzying variety of design possibilities and almost unlimited industrial production techniques In *Detail Materials for Interiors* provides detailed and specific information on the use of appropriate materials in interior design The book leads off with an overview of the range of available products for interior design including large format photographs of each material and interiors that use them This is followed by detailed discussions of relevant aspects and production methods of the individual material groups including selected examples The processing of the materials is illustrated by production photographs from the construction site and numerous detail drawings In the accompanying texts expert planners who specialize in the various materials share their practical knowledge of how to use them The technical articles and example projects focus on the surface of the material and how it is produced or comes to be and contain corresponding decision support for planners Additional technical information on the materials used and a list of manufacturer and vendor addresses round out the volume *Werkstoffe und Oberflächen prägen die Architektur* Nicht selten entscheiden deren Optik und Haptik über Erfolg oder Misserfolg eines Projektes Umso mehr stellt die richtige Auswahl und Verwendung von Materialien für den Planer eine besondere Herausforderung dar der heutzutage besonders im Innenausbau einer nahezu unbegrenzten Vielfalt an Gestaltungsmöglichkeiten und nahezu uneingeschränkten industriellen Fertigungstechniken gegenübersteht Im *Detail Material* im Innenraum liefert gezielte und detaillierte Informationen zum Einsatz geeigneter Materialien im Innenausbau Den Auftakt des Buches bildet ein Überblick über die Produktpalette beim Innenausbau mit einem großformatigen Foto des jeweiligen Materials und eines damit ausgestatteten Innenraums Planungsrelevante Aspekte und Fertigungsmethoden der einzelnen Materialgruppen werden dann anhand ausgewählter Beispiele detailliert erläutert Die Verarbeitung der Werkstoffe wird durch Fertigungsfotos von der Baustelle und mit zahlreichen Detailzeichnungen veranschaulicht Die Begleittexte vermitteln das Praxiswissen von den jeweiligen Fachplanern zum Einsatz der Werkstoffe Der Schwerpunkt der Fachartikel und der Projektbeispiele liegt dabei auf der Materialoberfläche deren Entstehungs- bzw. Herstellungsprozess und birgt entsprechende Entscheidungshilfen für die Planung Zusätzliche technische Infos zu den verwendeten Materialien sowie Hersteller-Bezugsadressen runden das Buch ab

BOOK JACKET ***New Interior Design*** Nigel Coates, 2004-12-14 The book is designed to

give a stimulating idea of the current direction of international interior design by Nigel Coates one of the foremost practitioners in the field The author has selected approximately 30 international designers whose work he thinks is especially interesting The book will then present a selection of work by these designers in such a way that the relations between different designers both the differences and similarities are brought out as well as broader themes in current interior design While each project selected will be featured over a series of pages the same project may crop up at various other points through book The purpose of this is to draw comparisons between each project by letting them cross over into one another's territory Hence Collidoscope the provisional title of the publication As such it should work both as a sourcebook with reference to current tendencies in design and to the ideas that underpin them It will foreground the designers yet raise challenging differences and overlaps between them

Guide to Ecstacity Nigel Coates, 2003 In this encyclopedic book British architectural visionary Nigel Coates asks us to reimagine the city as a dynamic hybrid of inventive design and cross cultural political empowerment His innovative view of the contemporary metropolis is presented in the form of Ecstacity a hypothetical place that collapses the real into the imaginary with fragments of cities from around the world woven together into one multifaceted urban fabric With streetscapes buildings and plans appropriated from Tokyo Cairo London New York Rome Mumbai and Rio de Janeiro Ecstacity constructs an urban kaleidoscope marked by cultural diversity and suggests that pluralism and not uniformity is the best response to the multiplication of modern lifestyles and revolutions in global communication Bookjacket

Thinking Color in Space Kerstin Schultz, Hedwig Wiedemann-Tokarz, Eva Maria Herrmann, 2018-12-03 The interaction between color and architecture determines our perception of space and defines the tectonic relationships The fascinating spatial potential of color and the multi layered dimensions of interpretation in the experience of color are design and communication means which however are often not fully used color oscillates between autonomy and functional purpose and should be understood as a distinct material that can be used as part of the design The book focuses both on the tangible aspects and design criteria of color and on its indeterminate nature and its experience value Using examples in art and architecture the spatial interdependency of color is illustrated as is its interaction with structure light and geometry

Design of the Unfinished Luciano Crespi, 2021-07-07 The book aims to provide city administrators and planners with a tool to accompany them in experimenting with the regeneration of no longer used parts of the built heritage called leftovers by adopting an innovative approach A new and radically different form of project with the task of proposing a new aesthetic code and a style of thought aimed at creating shelters for nomads of the third millennium In the design field the 21st century will be destined to measure itself against temporariness and precariousness also in terms of aesthetic practices Based on this hypothesis the text identifies the design of the unfinished as the perspective for attributing to the leftovers a character which is representative of the conditions of the just begun century Through a transdisciplinary exhibition like and reversible approach the elements of degradation of the existing work are welcomed in
