Friendly Liquidation Of The Past:

Race and Nation in Modern Latin America Nancy P. Appelbaum, Anne S. Macpherson, Karin Alejandra Rosemblatt, 2003 Based on cutting edge research these 12 essays examine connections between race and national identity in Latin America and the Caribbean in the post independence era They reveal how notions of race and nationhood have varied over time and across the region's political landscapes [The Friendly Liquidation of the Past](#) Donna Lee Van Cott, 2007

Latin American Politics David Close, 2017-05-18 *Latin American Politics* Second Edition is a thematic introduction to the political systems of all 20 Latin American countries The approach is self consciously comparative and encourages students to develop stronger comparative analysis skills through such topics as history violence democracy and political economy Fully updated and revised this second edition also includes a new chapter on parties elections and movements Each chapter is now framed by a prologue and an epilogue to engage students and provide more country specific content [The Rise of Evo Morales and the MAS](#) Sven Harten, 2013-04-04 Evo Morales is one of the world's most controversial political leaders His story is extraordinary poor shepherd boy persecuted coca grower self professed admirer of Che Guevara hero of the anti globalization movement and first indigenous president of modern Latin America The story of the social movement turned political party he is a part of the Movimiento Al Socialismo MAS is also exceptional originally founded as a splinter of an ultra right party it was given as a gift for the coca growers after they had been banned several times for spurious reasons to register their own party and went on to become an irresistible force for indigenous rights in Bolivia In this insightful and revealing book Sven Harten explains the success of the MAS and its wider consequences showing how Morales has become the symbol for a new political consciousness that has entailed de stigmatizing indigenous identities In many ways the analysis of Morales's political trajectory serves as a mirror for democracy in Bolivia It reveals the challenge of squaring the rupture with a discredited past with the continuity of democracy and the aim of representing an entire society [Afro-Colombian Hip-hop](#) Christopher Dennis, 2012-01-01 *Afro Colombian Hip Hop Globalization Transnational Music and Ethnic Identities* by Christopher Dennis reveals how through a mode of transculturation Afro Colombian youth are transforming U S hip hop into a more autonomous art form used for articulating oppositional social and political critiques reworking ethnic identities and actively taking part in the reimagining of the nation This book represents a valuable addition to the body of academic work emerging from scholars bringing Afro Colombian issues to the forefront of Colombian and Latin American studies specifically by documenting the contributions that today's young black artists are making to both national culture and local music practices **Beyond Civil Society** Sonia E. Alvarez, Jeffrey W. Rubin, Millie Thayer, Gianpaolo Baiocchi, Agustín Laó-Montes, 2017-05-18 The contributors to *Beyond Civil Society* argue that the conventional distinction between civic and uncivic protest and between activism in institutions and in the streets does not accurately describe the complex interactions of forms and locations of activism characteristic of twenty first century Latin America They show that most contemporary

political activism in the region relies upon both confrontational collective action and civic participation at different moments. Operating within fluid dynamic and heterogeneous fields of contestation, activists have not been contained by governments or conventional political categories but rather have overflowed their boundaries opening new democratic spaces or extending existing ones in the process. These essays offer fresh insight into how the politics of activism, participation and protest are manifest in Latin America today while providing a new conceptual language and an interpretive framework for examining issues that are critical for the future of the region and beyond. Contributors: Sonia E. Alvarez, Kiran Asher, Leonardo Avritzer, Gianpaolo Baiocchi, Andrea Cornwall, Graciela DiMarco, Arturo Escobar, Raphael Hoetmer, Benjamin Junge, Luis E. Lander, Agustín La Montes, Margarita López Maya, Jos Antonio Lucero, Graciela Monteagudo, Amalia Pallares, Jeffrey W. Rubin, Ana Claudia Teixeira, Millie Thayer.

The Economics of Bank Bankruptcy Law Matej Marinč, Razvan Vlahu, 2011-09-18. This book shows that a special bank bankruptcy regime is desirable for the efficient restructuring and/or liquidation of distressed banks. It explores in detail both the principal features of corporate bankruptcy law and the specific characteristics of banks including the importance of public confidence, negative externalities of bank failures, fragmented regulatory framework, bank opaqueness and the related asset substitution problem and liquidity provision. These features distinguish banks from other corporations and are largely neglected in corporate bankruptcy law. The authors, an assistant professor for money and finance and a research economist at the Dutch Central Bank, propose changes in both prudential regulation and reorganization policies that should allow regulators and banking authorities to better mitigate disruptions in the financial system and minimize the social costs of bank failures. Their recommendations are complemented by a discussion of bank failures from the 2007-2009 financial crisis.

Redesigning Justice for Plural Societies Katayoun Alidadi, Marie-Claire Foblets, Dominik Müller, 2022-09-30. This volume examines cases of accommodation and recognition of minority practices, cultural, religious, ethnic, linguistic or otherwise, under state law. The collection presents selected situations and experiences from a variety of regions and from different legal traditions around the world in which diverse societal stakeholders and political actors have engaged in processes leading to the elaboration of creative, innovative and to a certain extent sustainable solutions via accommodative laws or practices. Representing multiple disciplines and methodologies and written by esteemed scholars, the work analyses the pitfalls and successes of such accommodative practices, presenting insights into how solutions could or could not be achieved. The chapters address the sustainability and transferability of such solutions in order to further the dialogue in both scholarly and policy spheres. The book will be essential reading for academics, researchers and policy makers in the areas of minority rights, legal anthropology, law and religion, legal philosophy and law and migration.

Democracy, Agency, and the State Guillermo O'Donnell, 2010-06-24. Democracy, Agency and the State aims to contribute to a comparatively informed theory of democracy. Professor O'Donnell begins by arguing that conceptions of the state and democracy and their respective defining features significantly influence each other. Using an approach that is both historical

and analytical he traces this relationship through the idea of legally sanctioned and backed agency which grounds democratic citizenship From this standpoint he explores several aspects of the democratic regime and of the state distinguishing four constitutive dimensions bureaucracy legality focus of collective identity and filter He goes on to examine the role played by the idea of the nation or the people and the ways in which the state represents itself to different sections of society especially in countries marred by deep inequality and pervasive poverty Drawing on the examples of democratic and non democratic regime he discusses the dialogical spaces congenial to democracy as well as examining the options that may or may not enable agency and the complex comparative and ethical issues raised by the intersection of agency with globalization and legal pluralism Throughout these discussions several comparative vistas are opened especially but not exclusively toward Latin America The book concludes by offering a justification of democracy even of the flawed democracies that nowadays abound Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Official Fellow Nuffield College University of Oxford

Out of the Mainstream Rutgerd Boelens, David H. Getches, Jorge Armando Guevara Gil, 2010 Water is not only a source of life and culture It is also a source of power conflicting interests and identity battles Rights to materially access culturally organize and politically control water resources are poorly understood by mainstream scientific approaches and hardly addressed by current normative frameworks These issues become even more challenging when law and policy makers and dominant power groups try to grasp contain and handle them in multicultural societies The struggles over the uses meanings and appropriation of water are especially well illustrated in Andean communities and local water systems of Peru Chile Ecuador and Bolivia as well as in Native American communities in south western USA The problem is that throughout history these nation states have attempted to civilize and bring into the mainstream the different cultures and peoples within their borders instead of understanding context and harnessing the strengths and potentials of diversity This book examines the multi scale struggles for cultural justice and socio economic re distribution that arise as Latin American communities and user federations seek access to water resources and decision making power regarding their control and management It is set in the dynamic context of unequal globalizing

power relations politics of scale and identity environmental encroachment and the increasing presence of extractive industries that are creating additional pressures on local livelihoods While much of the focus of the book is on the Andean Region a number of comparative chapters are also included These address issues such as water rights and defence strategies in neighbouring countries and those of Native American people in the southern USA as well as state reform and multi culturalism across Latin and Native America and the use of international standards in struggles for indigenous water rights This book shows that against all odds people are actively contesting neoliberal globalization and water power plays In doing so they construct new hybrid water rights systems livelihoods cultures and hydro political networks and dynamically challenge the mainstream powers and politics Publisher s description **Intimate Indigeneities** Andrew Canessa,2012-11-26 Analyzing the nuances of identity formation in rural Andean culture Andrew Canessa draws on two decades of ethnographic research in a remote indigenous community in Bolivia s highlands Human Rights Encounter Legal Pluralism Giselle Corradi,Eva Brems,Mark Goodale,2017-05-18 This collection of essays interrogates how human rights law and practice acquire meaning in relation to legal pluralism ie the co existence of more than one regulatory order in a same social field As a social phenomenon legal pluralism exists in all societies As a legal construction it is characteristic of particular regions such as post colonial contexts Drawing on experiences from Latin America Sub Saharan Africa and Europe the contributions in this volume analyse how different configurations of legal pluralism interplay with the legal and the social life of human rights At the same time they enquire into how human rights law and practice influence interactions that are subject to regulation by more than one normative regime Aware of numerous misunderstandings and of the mutual suspicion that tends to exist between human rights scholars and anthropologists the volume includes contributions from experts in both disciplines and intends to build bridges between normative and empirical theory Latin American Democratic Transformations William C. Smith,2009-08-24 Latin American Democratic Transformations explores the manner in which Latin American societies seek to consolidate and deepen their democracies in adverse domestic and international circumstances The contributors engage recent debates on liberal and illiberal democracy and probe the complex connections between democratic politics and neoliberal market oriented reforms *Sustaining Civil Society* Philip Oxhorn,2011 Devoting particular emphasis to Bolivia Chile and Mexico proposes a theory of civil society to explain the economic and political challenges for continuing democratization in Latin America Provided by publisher Mayan Lives, Mayan Utopias Rosalva Aída Hernández Castillo,Shannan L. Mattiace,Jan Rus,2003-09-03 The dramatic January 1 1994 emergence of the Zapatista Army of National Liberation EZLN in Chiapas Mexico brought the state s indigenous peoples to the attention of the international community Yet indigenous peoples in Chiapas had been politically active and organized for years prior to the uprising This compelling volume examines in detail these local and regional histories of power and resistance powerfully bolstered by gripping and heartrending details of oppression and opposition Situated broadly within the field of political

anthropology the authors trace the connections between indigenous culture and indigenous resistance Their case studies include the Tzotzils and Tzeltals of the highland region the Tojolabals of eastern Chiapas northern Ch'ol communities the Mams of eastern and southeastern Chiapas and the settler communities of the Lacandon rain forest In the wake of the Chiapas rebellion all of these groups have increasingly come together around common goals the most important of which is autonomy Three essays focus specifically on the issue of Indian autonomy in both Zapatista and non Zapatista communities Offering a consistent and cohesive vision of the complex evolution of a region and its many cultures and histories this work is a fundamental source for understanding key issues in nation building In a unique collaboration the book brings together recognized authorities who have worked in Chiapas for decades many linking scholarship with social and political activism Their combined perspectives many previously unavailable in English make this volume the most authoritative richly detailed and authentic work available on the people behind the Zapatista movement
