Dancing in a Distant Place Isla Dewar, 2006-04-18 A warm and intelligent novel about a young teacher who throws herself into the lives of her students in the hopes of forgetting the past only to find it returning more vividly than ever When Iris Chisholm arrives in the tiny Scottish Highland community of Green Cairns she s still in a state of shock not so much from her husband s untimely death as from the discovery that he d gambled away all their money and even their home In addressing the problems of the children at the school where she works Iris finds distractions from worries Further distractions come in the shape of a honey tongued lawyer and a gentle handyman This is a novel with wit and heart from an author who is quickly rising in the ranks of international women s fiction authors *The Charisma of Distant Places* Courtney

Out of Place John B. Lyon, 2013-02-28 In late nineteenth century Germany the onset of modernity transformed how people experienced place In response to increased industrialization and urbanization the expansion of international capitalism and the extension of railway and other travel networks the sense of being connected to a specific place gave way to an unsettling sense of displacement Out of Place analyzes the works of three major representatives of German Realism Wilhelm Raabe Theodor Fontane and Gottfried Keller within this historical context It situates the perceived loss of place evident in their texts within the contemporary discourse of housing and urban reform but also views such discourse through the lens of twentieth century theories of place Informed by both phenomenological Heidegger and Casey as well as Marxist Deleuze Guattari and Benjamin approaches to place John B Lyon highlights the struggle to address issues of place and space that reappear today in debates about environmentalism transnationalism globalization and regionalism

A Latin-English Dictionary for the Use of Junior Students John Tahourdin White, 1881 Philosophy and Geography III Andrew Light, Jonathan M. Smith, 1998 Places are today subject to contrary tendencies They lose some functions which may scale up to fewer more centralized places or down to numerous more dispersed places and they gain other functions which are scaling

up and down from other places This prompts premature prophecies of the abolition of space and the obsolescence of place At the same time a growing literature testifies to the persistence of place as an incorrigible aspect of human experience identity and morality Place is a common ground for thought and action a community of experienced particulars that avoids solipsism and universalism It draws us into the philosophy of the ordinary into familiarity as a form of knowledge into the wisdom of proximity Each of these essays offers a philosophy of place and reminds us that such philosophies ultimately decide how we make use and understand places whether as accidents instruments or fields of care
