From Apec To Xanadu Creating A Viable Community In The Post Cold War Pacific:

From Apec to Xanadu Donald C. Helleman, Kenneth B. Pyle, Donald C. Hellman, 2016-07-11 This volume analyzes the concerns that must be addressed if Asia Pacific Economic Cooperation APEC is to be a viable component of the post Cold War international order such as what the future role of the USA who made Asia's transformation possible since 1945 is as a leader in that region The economic analysis of legal and regulatory issues need not be limited to the neoclassical economic approach The expert contributors to this work employ a variety of heterodox legal economic theories to address a broad range of legal issues They demonstrate how these various approaches can lead to very different conclusions concerning the role of the law and legal intervention in a wide array of contexts The schools of thought and methodologies represented here include institutional economics new institutional economics socio economics social economics behavioral economics game theory feminist economics Rawlsian economics radical economics Austrian economics and personalist economics The legal and regulatory issues examined include anti trust and competition corporate governance the environment and natural resources land use and property rights unions and collective bargaining welfare benefits work time regulation and standards sexual harassment in the workplace obligations of employers and employees to each other crime torts and even the structure of government Each contributor brings a different emphasis and provides thoughtful sometimes provocative analysis and conclusions Together these heterodox insights will provide valuable supplementary reading for courses in law and economics as well as public policy and business courses at both the graduate and undergraduate levels Twenty-First Century World Order and the Asia Pacific J. Hsiung, 2001-08-10 After examining the global system's political volatility at the dawn of the new millennium the book looks at how some of the identifiable system wide trends e.g globalization democratization fragmentation etc may find repercussions in the Asia Pacific The book also addresses the question of comprehensive security in comparison with other regions in a wide range of areas subsuming economic security geoeconomics environmental security ecopolitics and human security In addition the book recognizes the idiosyncrasies of the region such as the defensiveness of most Asian governments toward the protection of their financial markets against external forces following the regional financial crisis of the late 1990s **Japanese Foreign Policy in Asia and the Pacific** A. Miyashita, Y. Sato, 2001-11-16 Japanese Foreign Policy in Asia and the Pacific aims to provide a broadened framework for examining Japan's foreign policy making by looking at conversion and diversion of interests among Japanese and American policy actors These include governmental and non governmental as well as domestic and transnational actors Utilizing this theoretical framework the contributors examine the role of U S pressure and its interaction with Japan's domestic and Japan based transnational actors interests through geographically or thematically focused case studies from Asia and the Pacific regions **Regionalism in the New Asia-Pacific Order** Joseph A. Camilleri, 2003-01-01 Regionalism in the Asia Pacific is a complex and rapidly evolving phenomenon This volume explores the relationship between globalization and regionalization between states markets and

civil society and between US hegemony and Asian aspirations

Pacific Asia? Melvin Gurtov, 2002 Emphasizing human and environmental security over traditional power politics Mel Gurtov offers a provocative reinterpretation of security in the Asia Pacific region The author questions a number of prevailing assumptions such as the China threat a U S centered balance of power and the necessity of a greater Japanese security role He argues instead for a cooperative framework for future security that focuses on people s basic needs is sensitive to Asian nationalism and gradually replaces military power with developmental priorities With its concise appraisals of the security policies of the United States China Japan the two Koreas and the ASEAN countries this work will be a valued reference for policymakers scholars and students alike The Security Environment in the Asia-Pacific Hung-Mao Tien, Ten-jen Cheng, 2016-09-16 Multilateral security forums in the Asia Pacific region have evolved but bilateral defence alliances continue to form the principle pillars of national security for most nations in the region This text presents a survey of issues confronting the Asia Pacific region as it enters year 2000

Asia-Pacific Economic Cooperation (APEC) Werner Draguhn, Eva Manske, Jürgen Rüländ, 2013-04-03 The Asia Pacific Economic Cooperation APEC was founded in 1989 Since then the forum has developed into a major player in tri partite relations between North America East Asia and Europe The Seattle and Bogor Summits were landmark events suggesting to many observers a gravitational shift in the world economy and world politics Yet the Asian financial crisis had a sobering effect on high flying expectations as APEC contributed little to crisis management In the light of such contradictory performance distinguished scholars here examine APEC s achievements and failures its role and functions in international relations its linkages with regional organisations and the interplay between the forum and national interests of major factors in the region

After Victory G. John Ikenberry, 2019-04-02 The end of the Cold War was a big bang reminiscent of earlier moments after major wars such as the end of the Napoleonic Wars in 1815 and the end of the world wars in 1919 and 1945 But what do states that win wars do with their newfound power and how do they use it to build order In *After Victory* John Ikenberry examines postwar settlements in modern history arguing that powerful countries do seek to build stable and cooperative relations but the type of order that emerges hinges on their ability to make commitments and restrain power He explains that only with the spread of democracy in the twentieth century and the innovative use of international institutions both linked to the emergence of the United States as a world power has order been created that goes beyond balance of power politics to exhibit constitutional characteristics Blending comparative politics with international relations and history with theory *After Victory* will be of interest to anyone concerned with the organization of world order the role of institutions in world politics and the lessons of past postwar settlements for today

Inauspicious Beginnings Université du Québec à Montréal. Centre d'études des politiques étrangères et de sécurité, Raoul-Dandurand Chair of Strategic and Diplomatic Studies, 2004 Inauspicious Beginnings shows that at the end of the Cold War many experts in the international community expected a new world order to emerge in which international security institutions such as the United Nations Security Council and NATO would play a major role in preventing and ending conflicts But while the 1990s proved to be a decade of international insecurity and major humanitarian disasters thus demonstrating the need for a wider and more efficient system of security institutions the principal powers failed to create them Instead the emerging order was marked by the overwhelming power of the United States which under the Bush Sr and Clinton administrations did not see such a system as a necessity The authors detail how the Bush and Clinton administrations relied on catering to allies and building large coalitions to deal with major international security challenges while other principal powers were either pre occupied with their domestic problems or deferred to the United States As a consequence on the eve of 11 September 2001 the United Nations Security Council remained an older outmoded power configuration incapable of responding efficiently to the with novel challenges besetting it Its relevance has been further questioned by the unilateral occupation of Iraq by the United States Organizing the World Galia Press-Barnathan, 2004-06 This book offers a conceptual framework that explains when and why a great power would choose to cooperate with smaller states via regional cooperation forums rather than in a bilateral setting **Asian Yearbook of International Law, Volume 8 (1998-1999)** B.

S. Chimni, S. Ko Swan, Ko Swan Sik, Miyoshi Masahiro, M. C. W. Pinto, Surya P. Interregionalism and International Relations Jürgen Rüländ, Heiner Hänggi, Ralf Roloff, 2006-01-16 Interregionalism the institutionalized relations between world regions is a new phenomenon in international relations It also a new layer of development in an increasingly differentiated global order This volume examines the structure of this phenomenon and the scholarly discourse it is generating It takes stock of empirical facts and theoretical explanations bringing together with clarity and concision the latest research on this key area This essential new book traces the emergence of interregionalism and reviews the latest literature provides a conceptual and theoretical framework for study includes case studies of inter regional relations between Asia and America Asia and Europe Europe and America and Europe and Africa delivers comparative analyses and special cases such as continental summits and interregional relationships beyond the Triad summarizes and evaluates the findings of each chapter providing a basis for further research This is a key reference book for students and researchers of regionalism global governance and international relations

Remapping East Asia T. J. Pempel, 2018-08-06 An overarching ambiguity characterizes East Asia today The region has at least a century long history of internal divisiveness war and conflict and it remains the site of several nettlesome territorial disputes However a mixture of complex and often competing agents and processes has been knitting together various segments of East Asia In Remapping East Asia T J Pempel suggests that the region is ripe for cooperation rather than rivalry and that recent region building developments in East Asia have had a substantial cumulative effect on the broader canvas of international politics This collection is about the people processes and institutions behind that region building In it experts on the area take a broad approach to the dynamics and implications of regionalism Instead of limiting their focus to security matters they extend their discussions to topics as diverse as the mercurial nature of Japan s leadership role in the region Southeast Asian business networks the war on terrorism in Asia and the political economy of environmental regionalism Throughout they show how nation states corporations and problem specific coalitions have furthered regional cohesion not only by establishing formal

institutions but also by operating informally semiformally or even secretly
