From Illusions to Reality Vesselin Petkov, 2013-09-08 The greatest mystery in the world is its very existence In our intellectual development we all reach a turning point when we start asking the perennial existential questions What is the world What am I What is the meaning of the existence of the world and myself As the German philosopher Schopenhauer put it The lower a man stands in intellectual respects the less of a riddle does existence seem to him but the clearer his consciousness becomes the more the problem grasps him in its greatness This book explores what fundamental physics tells us about the physical world and how the scientific picture of what exists often differs disturbingly from the common sense view based on the way our senses reflect the world Centuries old illusions are identified by showing that they contradict experimentally confirmed results of modern physics which clears the way toward deeper understanding of reality The greatest illusion that the world exists only at the present moment of time has been realized by many great thinkers but so far the human race has been unable to free itself from it prompting Einstein to write this the

distinction between past present and future is only a stubbornly persistent illusion Getting rid of such stubbornly persistent illusions by open mindedly examining the implications of modern physics for the physical world can help us rise above the fog of everyday life and see Nature the way she herself is From Illusion to Reality André Koe,Al Janssen,1984 *From Illusion to Reality* Andrew Moss,2001-09 **Mind** ,1898 A quarterly review of philosophy *Writing Literary History* Jose Duke S. Theory, 1976-1991 Northrop Frye,2006-12-15 Northrop Frye s The Secular Scripture was first published in 1976 and was soon recognized as one of his most influential works reflecting an extensive development of Frye s thoughts about romance as a literary form This new edition in the Collected Works of Northrop Frye series brings The Secular Scripture together with thirty shorter pieces pertaining to literary theory and criticism from the last fifteen years of Frye s life Frye s study illuminates the enduring attraction and deep human significance of the romance genre in all its forms He provides a unique perspective on popular fiction and culture and shows how romance forms have by their very structural and conventional features an ability to address both specific social concerns and deep and fundamental human concerns that span time and place In distinguishing popular from elite culture Frye insists that they are both ultimately two aspects of the same human compulsion to create in the face of chaos The additional late writings reflect Frye s sense at the time that he was working toward some kind of final statement which eventually saw the light of day only months before his death as Words with Power 1990 *The Irish Monthly Magazine* ,1875 **The Irish Monthly** ,1875 *Irish Monthly Magazine* ,1875 Mythology,
