From Intellect To Intuition

Christian G. Meyer

From Intellect To Intuition:

From Intellect to Intuition Alice Bailey, 1932 In this era of a rapid increase in human intelligence and capacity to use the mind we run the risk of over emphasis on intellectualism The mind is the slayer of the real is a well known reflection of an inherent danger In this book *From Intellect to Intuition* development of the intellect while necessary is shown as a means to an end and one step on the way to a fully awakened and active mental body The intellect is the rationalising analytical aspect of the mind concerned with knowledge It can be used as a stepping stone to penetrate into new realms and dimensions of thought and to touch and awaken the intuitive faculty of pure reason Between the intellect and the intuition however a gap exists until it has been consciously bridged through meditation Meditation is sometimes defined as thinking in the heart correct meditation proceeds only when the heart and mind function together in unison To touch the intuition therefore this blending of heart and mind is a necessity since the intuitive sense is a faculty of the heart aroused by the activity of the integrated three fold mind render it controlled concentrated and one pointed at will Right use of the mind in meditation opens the consciousness to the beauty truth and goodness of the soul through the five stages of concentration meditation contemplation illumination inspiration These five stages lead to union with the soul the son of mind and direct knowledge of divinity creating an instrument of intelligence for the soul to use in daily life The experienced voice of the eastern wisdom comes to us with one word Meditation The question naturally arises Is that all and the answer is Yes If meditation is rightly followed and if perseverance is the keynote of the life then increasingly soul contact is established The results of that contact work out in self discipline in purification and in the life of aspiration and of service Meditation in the eastern sense is a strictly mental process leading to soul knowledge and illumination It is a fact in nature that as a man thinketh in his heart so is he The books of Alice A constitute a continuation of the Ageless Wisdom a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period Intended to precede and condition the coming era the Alice A Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution the spiritual Hierarchy the new discipleship and training in meditation as a form of service the teaching on the seven rays and the new psychology of the soul the teaching on esoteric astrology and the new world religion which emphasizes the common thread of truth linking all the major world faiths *From Intellect to Intuition* Alice A.

Bailey, 2012-08-01 The development of the intellect while necessary is a means to an end The intellect should become a means of penetrating into new dimensions of thought and consciousness and of awakening the intuitive faculty of pure reason Through occult meditation the gap is bridged between the threefold mind and the intuition **From Intellect to Intuition** Alice Bailey, 1965 **From intellect to intuition. (Seventh printing).** Alice Bailey, 1969 **From Intellect to Intuition** Alice Anne Bailey, 1960 **From Intellect to Intuition**, 1993 **From Intellect to Intuition** Alice Anne Bailey (Theosophin), 1933 The Bergsonian Mind Mark Sinclair, Yaron Wolf, 2021-12-30 Henri Bergson 1859 1941 is widely

regarded as one of the most original and important philosophers of the twentieth century His work explored a rich panoply of subjects including time memory free will and humour and we owe the popular term *la durée* to a fundamental insight of Bergson's His books provoked responses from some of the leading thinkers and philosophers of his time including Albert Einstein William James and Bertrand Russell and he is acknowledged as a fundamental influence on Marcel Proust The *Bergsonian Mind* is an outstanding wide ranging volume covering the major aspects of Bergson's thought from his early influences to his continued relevance and legacy Thirty six chapters by an international team of leading Bergson scholars are divided into five clear parts Sources and Scene Mind and World Ethics and Politics Reception Bergson and Contemporary Thought In these sections fundamental topics are examined including time freedom and determinism memory perception evolutionary theory pragmatism and art Bergson's impact beyond philosophy is also explored in chapters on Bergson and spiritualism physics biology cinema and post colonial thought An indispensable resource for anyone in Philosophy studying and researching Bergson's work The *Bergsonian Mind* will also interest those in related disciplines such as Literature Religion Sociology and French Studies *The Cause of Evil; Or, The Values of Nature and the Values of Religion ...* I. G. Bartholomew, 1927 **Adorning the Dawn: Discourses on Neohumanist Education** Shrii Shrii Anandamurti, 2013-06-18 The Neohumanist educational paradigm is one of the lesser known but most unique in the world today The present volume is intended as a comprehensive volume on Neohumanist education that reveals the context of this educational paradigm within the context of the kaleidoscopic dimensions of Neohumanism It aims to serve as a resource for those who desire to study Neohumanist education in depth by providing information concerning the conceptual and existential background of the philosophy of Shrii Shrii Anandamurti By exploring unique features of its vision of cardinal values psychology epistemology culture social justice aesthetics and mystical love the roles of the Neohumanist educator is revealed Unique to most pedagogical paradigms are explorations of the nature of spiritual practice or meditation as well an introduction to the spiritual cosmology of the author Finally various aspects of Neohumanism and education are explained in a series of discourses Revival: Contemporary Indian Philosophy (1936) S. Radhakrishnan, J. H. Muirhead, 2018-12-20 The book includes essays which are all written by philosophers of or about forty five years of age They fall into two main groups those in which the writer devotes himself chiefly to the exposition of the great Vedic tradition as he has apprehended it and made it the basis of his own life's work and those in which the writer while on the whole remaining true to the spirit of that tradition has sought to give new interpretations of it either by instituting comparisons of it with the Western doctrines most closely allied to it or by treating of modern problems in a way which though suggested by what he has learned from the West is yet stamped with the mark of his own racial sympathy Western readers will naturally find the latter group more attractive but this volume will have failed of its purpose if it does not give them some sense of the truth that underlies even the essays with which owing to the presuppositions on which these are founded they find themselves least in sympathy **Idealistic**

Thought of India P T Raju,2013-10-16 When first published in 1953 metaphysical idealism was still the dominant philosophy of India This volume depicts the metaphysical strands of the life and philosophy of India in the light of those of the West and brings out the deeper implications of idealistic metaphysics From Mind to Super-mind Rohit Mehta,1972 The message of the Gita has an important and a practical bearing on the problems of the modern age It shows a way out of the complexities of the mind to complete and unfettered freedom of the Super Mind This path is not meant only for the few it can be trodden by all who seek freedom from life s entanglements In an age where the individual is becoming more and more insignificant due to the impacts of political economic and social forces the Gita brings to man a message of hope and cheer for it shows a way of life which leads to the regaining of his lost significance and the spiritual regeneration of man is indeed the way to the creation of a happy society *Bergson and Russian Modernism, 1900-1930* Hilary L. Fink,1999 This study focuses on the Russian modernist attraction to Bergson s notions of duration and intuition his unbridled optimism in both art and life and his belief in the individual s creative power *Works of Govinda Chandra Dev* Govinda Chandra Dev,1978 **Bergson and Phenomenology** M. Kelly,2010-09-29 Examining the revival of Bergsonism for phenomenology leading scholars of both areas inaugurate a dialogue long overdue By assessing phenomenology s readings of Bergson and Bergsonian challenges to phenomenological methods the essays in this volume explore anew the issues of central concern in contemporary continental philosophy **French Philosophy in the Twentieth Century** Gary Gutting,2001-05-10 A clear and comprehensive account of the history of French philosophy in the twentieth century **The Logic of Mysticism** Ermanno Bencivenga,2025-02-24 This book reconciles the worlds of mysticism and logic building on the author s previous groundbreaking work in oceanic logic Historically the seemingly distinct domains of mysticism and logic have been viewed through a narrow lens through which logic and mysticism have been considered fundamentally separate from each other The author expands on this concept and argues that logic can be understood in a broader sense The book reveals that mystics engage in rigorous reasoning and their writings provide fertile ground for the advancement of logical discourse The text references insights from the fifth century B C through the Middle Ages to the present day offering a compelling argument for the harmonious integration of logic and mysticism It challenges conventional wisdom and opens new avenues for understanding the depths of human thought making it of great interest to those interested in philosophical logic as well as history of science *Petre Tutea* Alexandru Popescu,2018-01-16 Petre Tutea 1902 91 was one of the outstanding Christian dissident intellectuals of the Communist era in Eastern Europe Revered as a saint by some he spent thirteen years as a prisoner of conscience and twenty eight years under house arrest at the hands of the Securitate This book explores his unique response to the horrors of torture and re education and reveals the experience of a whole generation detained in the political prisons Tutea s understanding of human needs and how they can be fulfilled even amidst extreme adversity not only reflects huge learning and great brilliance of mind but also offers a spiritual vision grounded in personal experience of the Romanian Gulag Following the fall of the

Ceausescus he has begun to emerge as a significant contributor to ecumenical Christian discourse and to understanding of wider issues of truth and reconciliation in the contemporary world As Tutea s pupil and scribe for twelve years as a psychiatrist and as a theologian Alexandru Popescu is uniquely placed to present the work of this twentieth century Confessor of the faith Drawing on bibliographical sources which include unpublished or censored manuscripts and personal conversations with Tutea and with other prisoners of conscience in Romania Popescu presents extensive translations of Tutea which make his thought accessible to the English speaking reader for the first time Through his stature as a human being and his authority as a thinker Petre Tutea challenges us to question many of our assumptions The choice he presents between sacrifice and moral suicide focuses us on the very essence of religion and human personhood Resisting any ultimate separation of theology and spirituality his work affirms hope and love as the sole ground upon which truth can be based At the same time hope and love are not mere ideal emotions but are known and lived in engagement with the real world in politics economics science ecol
