

BACH & L'ITALIE

JUSTIN TAYLOR

From Bach To Ravel

L Darling-Hammond

From Bach To Ravel:

From Bach to Ravel 1685-1937, 2003 **Music for the Piano** James Friskin, Irwin Freundlich, 1973-01-01 First published by Holt Rinehart and Winston in 1954 **From Bach's Goldberg to Beethoven's Diabelli** Alfred Kanwischer, 2014-05-15 In *From Bach's Goldberg to Beethoven's Diabelli* Influence and Independence music scholar and noted pianist Alfred Kanwischer takes readers on an extended exploration in which each of the thirty three pieces making up Beethoven's Diabelli Variations Op 120 is carefully examined and assessed for its ingredients actions personality and influence on the whole Counterpoint abounds not only in the fugal variations which are closely parsed but throughout the Diabelli revealing the noticeably baroque character of the technical compositional devices Beethoven employs Throughout his study Kanwischer integrates comparisons with Bach's immortal Goldberg Variations Both sets stand alone as among the greatest keyboard variations in the Western canon During their creation the composers were nearly the same age at the zenith of their art and in similarly felicitous frames of mind Kanwischer underscores twenty essential similarities from the use of melody and melodic outline and the comparability among variations in size parallel design ebullient outlook increasing contrasts daring virtuosic flights Shakespearean blend of comic and tragic and their respective cumulative rises to spiritual transcendence *From Bach's Goldberg to Beethoven's Diabelli* takes readers on a lively and stimulating journey of discovery It considers not only questions of influence but those of insight and understanding offering a work useful as a reference and as a guide to performers music instructors and devotees This work also includes seventy visually annotated interpretive musical examples as aids to understanding Ravel Arbie Orenstein, 1991-01-01 The standard Ravel biography by the world's foremost authority brilliantly detailed and documented filled with quotations from letters interviews with the composer's friends an illuminating analysis of each of his works a study of his musical esthetics and language a complete catalog of his works and a discography Highly recommended Choice Includes 48 illustrations French Music Since Berlioz Caroline Potter, 2017-07-05 *French Music Since Berlioz* explores key developments in French classical music during the nineteenth and twentieth centuries This volume draws on the expertise of a range of French music scholars who provide their own perspectives on particular aspects of the subject D dre Donnellon's introduction discusses important issues and debates in French classical music of the period highlights key figures and institutions and provides a context for the chapters that follow The first two of these are concerned with opera in the nineteenth and twentieth centuries respectively addressed by Thomas Cooper for the nineteenth century and Richard Langham Smith for the twentieth Timothy Jones's chapter follows which assesses the French contribution to those most Germanic of genres nineteenth century chamber music and symphonies The quintessentially French tradition of the nineteenth century salon is the subject of James Ross's chapter while the more sacred setting of Paris's most musically significant churches and the contribution of their organists is the focus of Nigel Simeone's essay The transition from the nineteenth to the twentieth century is explored by Roy Howat through a detailed look at four

leading figures of this time Faur Chabrier Debussy and Ravel Robert Orledge follows with a later group of composers Satie Les Six and examines the role of the media in promoting French music The 1930s and in particular the composers associated with Jeune France are discussed by Deborah Mawer while Caroline Potter investigates Parisian musical life during the Second World War The book closes with two chapters that bring us to the present day Peter O Hagan surveys the enormous contribution to French music of Pierre Boulez and Caroline Potter examines trends since 1945 Aimed at teachers and students of French music history as well as performers and the inquisitive concert and opera goer French Music Since Berlioz is an essential companion for an Official Bulletin ,1925 *Programme* San Francisco Symphony Orchestra,1928 Musical Standard ,1908 *Late Style and its Discontents* Gordon McMullan,Sam Smiles,2016-09-01 Late style is a critical term routinely deployed to characterise the work of selected authors composers and creative artists as they enter their last phase of production often but not only in old age Taken at face value this terminology merely points to a chronological division in the artist s oeuvre late being the antonym of early or the third term in the triad early middle late However almost from its inception the idea of late style or late work has been freighted with aesthetic associations and expectations that promote it as a special episode in the artist s creative life Late style is often characterised as the imaginative response made by exceptional talents to the imminence of their death In their confrontation with death creative artists critics claim produce work that is by turns a determination to continue while strength remains a summation of their life s work and a radical vision of the essence of their craft And because this creative phenomenon is understood as primarily an existential response to a common fate so late style is understood as something that transcends the particularities of place time and medium Critics seeking to understand late work regularly invoke the examples of Titian Goethe and Beethoven as exemplars of what constitutes late work proposing that something unites the late style of authors composers and creative artists who otherwise would not be bracketed together and that lateness per se is a special order of creative work The essays in this collection resist this position Ranging across literature the visual arts music and scientific work the material assembled here looks closely at the material biographical and other contexts in which the work was produced and seeks both to question the assumptions surrounding late style and to prompt a more critical understanding of the last works of writers artists and composers

Music of Louis Andriessen Maja Trochimczyk,2002-05-10 This book presents the musician in dialog with a Polish Canadian musicologist and three of his Dutch friends and collaborators Reinbert de Leeuw Elmer Sch nberger and Frits van der Waa Topics include his artistic evolution his relationship to minimalism his prevalent interest in mysticism and meaning the use of quotation and writing for **The Pacific Coast Musician** ,1920 *The Oxford Magazine* ,1911 *California Alumni Fortnightly* ,1927 *California Monthly* ,1927 *Children in Opera* Andrew Sutherland,2020-12-03 This book provides a musicological investigation into operas that include children Just over 100 works have been selected here for an in depth discussion of the composer the children and the productions and around 250 relevant

works from around the world are also referenced Four composers to have most significantly proliferated the medium are discussed in even greater detail Cui Benjamin Britten Gian Carlo Menotti and Peter Maxwell Davies Since opera began it has been inextricably linked to society by reflecting and shaping our culture through music and narrative and as a result children have been involved Despite the contribution they played for several centuries their importance was overlooked By tracing the development of children s participation in opera this book uncovers the changing attitudes of composers towards them and how this was reflected in the wider society From the early productions of the seventeenth century to those of the twenty first century the operatic children s role has undergone a fundamental change It almost seems that contemporary composers of operas view the inclusion of children in some way as ubiquitous The rise of the children s opera chorus and the explosion of children s only productions attest to the changing view of the value they can bring to the art Some of the children to have characterised these roles are discussed in this book in order to redress the disproportionate lack of acknowledgement they often received for their performances

Lutoslawski on Music Zbigniew Skowron, 2007-10-29 The writings of twentieth century Polish composer Witold Lutoslawski reveal many important aspects of his approach to music and his viewpoints as an artist and as a man In *Lutoslawski on Music* the first full collection of writings by this famous composer Zbigniew Skowron has amassed an exciting assortment of essays speeches lectures and articles many of which are newly translated in English and previously unpublished After an introductory autobiography the writings grouped in five parts illustrate various aspects of the composer s creativity and discuss musical form compositional technique and perception Lutoslawski examines his own works as well as those of other composers and expresses his views on crucial aspects of twentieth century music including the role of Schoenberg and Debussy and the impact of the western avant garde of the 1950s The book also contains Lutoslawski s Artistic Diary his notebook of ideas written from 1959 to 1984 containing intensely personal reflections that do not appear in his public speeches and writings Concluding with a select bibliography this collection will give readers a unique and comprehensive overview of the man and his music encouraging a full appreciation of Lutoslawski s compositional technique and aesthetic views as well as his position in the history of twentieth century music

Musical America ,1916 **The Gramophone** ,1925 *Dance Touring Program* ,1977 **New York Magazine** ,1983-11-07 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
