## **From Coins To History Selected Numismatic Studies:**

**From Coins to History** Harold B. Mattingly, 2004 Collects in one volume many rare papers on a range of numismatic studies *When Money Talks* Frank Lee Holt, 2021 This book will change the way you look at money Money may seem hopelessly mundane and culturally meaningless but it has dominated and documented world history since the time of the ancient Greeks This heavily illustrated book provides a spirited account of the first coinages and their living descendants in our pockets and purses It explains how people from Jesus to The Beatles have used numismatics to explore the social political economic and religious history of the world Material Culture and Cultural Identity: A Study of Greek and Roman Coins from Dora Rosa Maria Motta, 2015-02-26 Presents numismatics from the ancient harbor town of Dor Dora in modern Israel with a history that spanned from the Bronze Age until the Late Roman Era **The Quaestorship in the Roman Republic** Francisco Pina Polo, Alejandro Díaz Fernández, 2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the *cursus honorum* and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the control and supervision of Rome's finances As the book shows the quaestorship was a prominent and essential part of the Roman administration

**The Social War, 91 to 88 BCE** Christopher J. Dart, 2016-02-24 The Social War was a significant uprising against the Roman state by Rome's allies in Italy The conflict lasted little more than two and a half years but it is widely recognised as having been immensely important in the unification of Roman Italy Between 91 and 88 BCE a brutal campaign was waged but the ancient sources preserve scant information about the war In turn this has given rise to conflicting accounts of the war in modern scholarship and often contradictory interpretations This book provides a new and comprehensive reassessment of the events surrounding the Social War analysing both the long term and the immediate context of the conflict and its causes Critical to this study is discussion of the nexus of citizenship political rights and land which dominated much of second century BCE politics It provides a new chronological reconstruction of the conflict itself and analyses the strategies of both the Romans and the Italian insurgents The work also assesses the repercussions of the Social War investigating the legacy of the insurgency during the civil wars and considers its role in reshaping Roman and Italian identity on the peninsula in the last decades of the Republic **A Companion to Ancient Macedonia** Joseph Roisman, Ian Worthington, 2011-07-07 The

most comprehensive and up to date work available on ancient Macedonian history and material culture A Companion to Ancient Macedonia is an invaluable reference for students and scholars alike Features new specially commissioned essays by leading and up and coming scholars in the field Examines the political military social economic and cultural history of ancient Macedonia from the Archaic period to the end of Roman period and beyond Discusses the importance of art archaeology and architecture All ancient sources are translated in English Each chapter includes bibliographical essays for further reading

**The Roman Republic to 49 BCE** Liv Mariah Yarrow, 2021-05-06 The narrative of Roman history has been largely shaped by the surviving literary sources augmented in places by material culture The numerous surviving coins can however provide new information on the distant past This accessible but authoritative guide introduces the student of ancient history to the various ways in which they can help us understand the history of the Roman republic with fresh insights on early Roman Italian relations Roman imperialism urban politics constitutional history the rise of powerful generals and much more The text is accompanied by over 200 illustrations of coins with detailed captions as well as maps and diagrams so that it also functions as a sourcebook of the key coins every student of the period should know Throughout it demystifies the more technical aspects of the field of numismatics and ends with a how to guide for further research for non specialists **A**

**Community in Transition** Mattia Balbo, Federico Santangelo, 2023 The Roman Republic has become a huge interest among both specialized readers and the general public This volume addresses the period in which the Republic reached its peak and covers a number of key themes in the history of the Roman polity during the Middle Republic such as political competition legal practice and economic change Its chapters are the result of a close and up to date discussion among established scholars from Europe the UK the USA and Australia *Money, Warfare and Power in the Ancient World* Jeremy

Armstrong, Arthur J. Pomeroy, David Rosenbloom, 2024-01-11 *Money Warfare and Power in the Ancient World* offers twelve papers analysing the processes consequences and problems involved in the monetization of warfare and its connection to political power in antiquity The contributions explore not only how powerful men and states used money and coinage to achieve their aims but how these aims and methods had often already been shaped by the medium of coined money typically with unintended consequences These complex relationships between money warfare and political power both personal and collective are explored across different cultures and socio political systems around the ancient Mediterranean ranging from Pharaonic Egypt to Late Antique Europe This volume is also a tribute to the life and impact of Professor Matthew Trundle an inspiring teacher and scholar who was devoted to promoting the discipline of Classics in New Zealand and beyond At the time of his death he was writing a book on the wider importance of money in the Greek world A central piece of this research is incorporated into this volume completed by one of his former students Christopher De Lisle Additionally Trundle had situated himself at the centre of a wide ranging conversation on the nature of money and power in antiquity The contributions of scholars of ancient monetization in this volume bring together many of the threads of those conversations

further advancing a field which Matthew Trundle had worked so tirelessly to promote *The Hellenistic World* Peter Thonemann, 2015 An accessible vivid and up to date student level introduction to the coinage and history of the Hellenistic world 323 31 BC Accustomed to Obedience? Joshua P. Nudell, 2023-03-06 Many histories of Ancient Greece center their stories on Athens but what would that history look like if they didn't? There is another way to tell this story one that situates Greek history in terms of the relationships between smaller Greek cities and in contact with the wider Mediterranean In this book author Joshua P Nudell offers a new history of the period from the Persian wars to wars that followed the death of Alexander the Great from the perspective of Ionia While recent scholarship has increasingly treated Greece through the lenses of regional polis and local interaction there has not yet been a dedicated study of Classical Ionia This book fills this clear gap in the literature while offering Ionia as a prism through which to better understand Classical Greece This book offers a clear and accessible narrative of the period between the Persian Wars and the wars of the early Hellenistic period two nominal liberations of the region The volume complements existing histories of Classical Greece Close inspection reveals that the Ionians were active partners in the imperial endeavor even as imperial competition constrained local decision making and exacerbated local and regional tensions At the same time the book offers interventions on critical issues related to Ionia such as the Athenian conquest of Samos rhetoric about the freedom of the Greeks the relationship between Ionian temple construction and economic activity the status of the Panionion Ionian poleis and their relationship with local communities beyond the circle of the dodecapolis and the importance of historical memory to our understanding of ancient Greece The result is a picture of an Aegean world that is more complex and less beholden narratives that give primacy to the imperial actors at the expense of local developments *Connected Histories of the Roman Civil Wars (88-30 BCE)* David García Domínguez, Juan García González, Federico Santangelo, 2024-11-04 This book offers a distinctive take on the civil wars that unfolded in the Late Roman Republic It frames their discussion against the backdrop of the Mediterranean contexts in which they were fought and sets out to bring to the centre of the debate the significance of provincial agency on a traumatic and complex process which cannot be understood through an exclusive focus on Roman and Italian developments The study of the late Republican civil wars can be productively read as an exercise of connected history in which the fundamental interdependence of the Mediterranean world comes to the fore through a set of case studies that await to be understood through a properly integrative approach Our project brings together an international and diverse lineup of scholars who engage with a wide range of literary documentary and archaeological material and make a collective contribution to the reframing of a problem that requires a collaborative and interdisciplinary outlook and can yield invaluable insights to the understanding of the Roman imperial project **Building Mid-Republican Rome** Seth Bernard, 2018-08-16 Building Mid-Republican Rome provides the first interdisciplinary account of a seminal phase of Rome's history when the early stages of imperial conquest radically transformed the city's physical appearance along with its socioeconomic institutions Soldiers

& Silver Michael J. Taylor, 2020-12-01 Taylor's study critically compares the manpower and revenues of Republican Rome with those of Carthage and the Antigonid Seleucid and Ptolemaic kingdoms. Dominic Rathbone, author of *Civilizations of the Ancient World*. By the middle of the second century BCE, after nearly one hundred years of warfare, Rome had exerted its control over the entire Mediterranean world, forcing the other great powers of the region—Carthage, Macedonia, Egypt, and the Seleucid empire—to submit militarily and financially. But how, despite its relative poverty and its frequent numerical disadvantage in decisive battles, did Rome prevail? Michael J. Taylor explains this surprising outcome by examining the role that manpower and finances played, providing a comparative study that quantifies the military mobilizations and tax revenues for all five powers. Though Rome was the poorest state, it enjoyed the largest military mobilization, drawing from a pool of citizens, colonists, and allies, while its wealthiest adversaries failed to translate revenues into large or successful armies. Taylor concludes that state-level extraction strategies were decisive in the warfare of the period, as states with high conscription and low taxation raised larger, more successful armies than those that primarily sought to maximize taxation. Comprehensive and detailed. *Soldiers and Silver* offers a new and sophisticated perspective on the political dynamics and economies of these ancient Mediterranean empires. An interesting read. Taylor has succeeded at clarifying an often unclear topic with some fine scholarship. *Ancient World Magazine*. Taylor considers the systems of all of the major players in the Mediterranean state system, and that fact alone puts this study head and shoulders above similar older efforts. *A Collection of Unmitigated Pedantry*.

**Colonial Geopolitics and Local Cultures in the Hellenistic and Roman East (3rd century BC - 3rd century AD)** Hadrien Bru, Adrian George Dumitru, Nicholas Sekunda, 2021-12-23 What changes in the material culture can we observe when a state is overwhelming a local population with soldiers, *katoikoi*, and civil officials or merchants? What were the mutual influences between native and colonial cultures? This collection addresses these questions and many more, focusing on the Hellenistic and Roman East. [Look at the Coins! Papers in Honour of Joe Cribb on his 75th Birthday](#) Helen Wang, Robert Bracey, 2023-12-21 24 contributions reflect the vast scope of Joe Cribb's interests, including Asian numismatics, museology, poetry, and art. Papers are arranged geographically, then chronologically, thematically, including studies on coins, charms, and silver currencies in or from China, finds from ancient Central Asia and Afghanistan, coins of South Soghd, and far more. [Carthage's Other Wars](#) Dexter Hoyos, 2019-12-19 A very good read and a reminder that the Romans were hardly the only imperialist warmongers of the ancient world. *StrategyPage*. Carthage was the western Mediterranean's first superpower long before Rome, and her military history was powerful, eventful, and checkered even before her Punic Wars against Rome. Although characterized in the surviving sources and modern studies as a predominantly mercantile state, Carthage fought many wars, both aggressive and defensive, before and in between the contests with the Roman *parvenus*. The Greek states of Sicily, above all Syracuse under its tyrants Dionysius the Great and then Agathocles, were her most resolute opponents, but in North Africa itself, in Sardinia, and later on in Spain, she won and sometimes lost major wars. This is the first full-length study

dedicated to these other wars that furthered Carthage's interests for over half a millennium Based firmly and analytically on ancient sources it also offers the insight that Carthage though usually considered a naval power did more fighting on land than at sea and with more success Includes illustrations      *Roma Victa* Simon Lentzsch, 2023-04-24 The history of the Roman Republic was a military success story Texts monuments and rituals commemorated Rome's victories and this emphasis on its own triumphs formed a basis for the Roman nobility's claim to leadership However the Romans also suffered numerous heavy defeats during the Republic This study is the first to comprehensively examine how Rome's defeats at the hands of the Celts Samnites and Carthaginians were explained and interpreted in the historical culture of the Republic and early imperial period What emerges is a specifically Roman culture of dealing with defeats which helped the Romans to find meaning in the stories of their failures and to assign them a place in their own past      *Art and History* , 2019-11-18 Art and History Texts Contexts and Visual Representations in Ancient and Early Medieval India seeks to locate the historical contexts of premodern Indian art traditions The volume examines significant questions such as What were the purposes served by art How were religious and political ideas and philosophies conveyed through visual representations How central were prescription technique and style to the production of art Who were the makers and patrons of art How and why do certain art forms meanings and symbols retain a relevance across context With contributions from historians and art historians seeking to unravel the interface between art and history the volume dwells on the significance of visual representations in specific regional historical contexts the range of symbolic signification attached to these and the mythologies and textual prescriptions that contribute to the codification and use of representational forms Supplemented with over 60 images this volume is a must read for scholars and researchers of history and art      **The Numismatic Chronicle and Journal of the Royal Numismatic Society** , 1929

Thank you for reading **From Coins To History Selected Numismatic Studies**. As you may know, people have look numerous times for their chosen readings like this From Coins To History Selected Numismatic Studies, but end up in harmful downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some harmful bugs inside their computer.

From Coins To History Selected Numismatic Studies is available in our digital library an online access to it is set as public so you can get it instantly.

Our digital library hosts in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the From Coins To History Selected Numismatic Studies is universally compatible with any devices to read

### **From Coins To History Selected Numismatic Studies Introduction**

In today's digital age, the availability of From Coins To History Selected Numismatic Studies books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of From Coins To History Selected Numismatic Studies books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of From Coins To History Selected Numismatic Studies books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing From Coins To History Selected Numismatic Studies versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, From Coins To History Selected Numismatic Studies books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing From Coins To History Selected Numismatic Studies books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded.

Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for From Coins To History Selected Numismatic Studies books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, From Coins To History Selected Numismatic Studies books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of From Coins To History Selected Numismatic Studies books and manuals for download and embark on your journey of knowledge?

### FAQs About From Coins To History Selected Numismatic Studies Books

1. Where can I buy From Coins To History Selected Numismatic Studies books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a From Coins To History Selected Numismatic Studies book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.

4. How do I take care of From Coins To History Selected Numismatic Studies books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are From Coins To History Selected Numismatic Studies audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
