Contemporary Black Thinkers in the Diaspora and Their Conceptualizations of Africa Abdul Karim Bangura,2024-08-24 This book contends that Afrocentricity and other ideas birthed by major contemporary Black thinkers in the Diaspora are wellsprings for helping to build a new Africa This book examines these ideas which have given rise to the Africanist Perspective on the Motherland to place Africa at the center of all intellectual discourses pertaining to African people everywhere while at the same time challenging the pervasive and pernicious Eurocentric myth of African people being inactive agents in history These contributions from a global range of scholars across disciplines examine the work of contemporary great Black thinkers as sources that can be employed to help in the construction of a new Africa Each chapter examines how these thinkers conceptualized Africa in their works with the main objective of delineating their conceptualizations to generate suggestions on how to rebuild the continent **Social Movements and the Indian Diaspora**

Movindri Reddy,2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs from the rise of Al Qaeda to the revolutions in North Africa and the Middle East the study of Diasporas and transnational identities has become more relevant Using case studies from Fiji Mauritius Trinidad and South Africa this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora It analyses the way in which diasporas are defined by themselves and others and the types of social movements they participate in showing how these are critical indicators of the threat they are perceived to pose The book examines the notions of national and

transnational identity and how they are determined by the placement of Diasporas in the transnational locality It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation state and simultaneously separates them from the perceived motherland thus displacing them from both states and situating them in a transnational locality It is from this placement that social movements among Diasporas gain salience As outsiders and insiders they are well placed to offer a formidable challenge to the host state but these challenges are limited by their hybrid identities and perceived divided loyalties Providing an in depth analysis of Indian Diasporas the book will be of interest to those studying South Asian Studies Migration and Diaspora Studies **Associated Statehood in International Law** James D. Worldmaking After Empire Adom Getachew, 2020-04-28 Decolonization revolutionized the international order during the twentieth century Yet standard histories that present the end of colonialism as an inevitable transition from a world of empires to one of nations a world in which self determination was synonymous with nation building obscure just how radical this change was Drawing on the political thought of anticolonial intellectuals and statesmen such as Nnamdi Azikiwe W E B Du Bois George Padmore Kwame Nkrumah Eric Williams Michael Manley and Julius Nyerere this important new account of decolonization reveals the full extent of their unprecedented ambition to remake not only nations but the world Adom Getachew shows that African American and Caribbean anticolonial nationalists were not solely or even primarily nation builders Responding to the experience of racialized sovereign inequality dramatized by interwar Ethiopia and Liberia Black Atlantic thinkers and politicians challenged international racial hierarchy and articulated alternative visions of worldmaking Seeking to create an egalitarian postimperial world they attempted to transcend legal political and economic hierarchies by securing a right to self determination within the newly founded United Nations constituting regional federations in Africa and the Caribbean and creating the New International Economic Order Using archival sources from

Barbados Trinidad Ghana Switzerland and the United Kingdom Worldmaking after Empire recasts the history of decolonization reconsiders the failure of anticolonial nationalism and offers a new perspective on debates about today's international order
