**the Gospel of the Lion of Judah, a student's guide** Roland van Reenen, 2011-12-08 We must become something we have never been and for which our education and experience and environment have ill prepared us In this speech of Emperor Haile Selassie I he is urging us to become something for which our education have ill prepared us for The Gospel of the Lion of Judah is a response to that call of Haile Selassie I to prepare the upcoming generations for the world he envisioned This book contains those timeless extracts of the vision of Haile Selassie I It does not claim to be complete but it wants to serve as a guiding light for the new generations It merely wants to sow some seeds of the high ideals and morality of His Majesty in the still fertile minds of the youths Seeds which might be nurtured and taken care after by the questions and tasks at the end of each chapter With these

Ron Evans has chosen an appropriate time to create a companion publication to the first **Handbook on Teaching Social Issues** published in 1996. During the last few years social studies teachers have been confronted by student inquiries on a plethora of historical and contemporary issues that implores for the implementation of an interdisciplinary approach to the teaching of anthropology economics geography government history sociology and psychology in order for students to make sense of the world around them and develop their own voices. This demands a student centered focus in the classroom where problematic questions must be addressed and investigated in depth in order to increase social understanding and active participation toward social progress. This volume provides crucial upgrades to the original handbook including a greater emphasis on teaching issues in the elementary grades the inclusion of issues pertaining to human rights genocide and sustainability to be addressed in the secondary grades and addressing issues related to disabilities.
