From Leninist Discipline To Socialist Legalism:

From Leninist Discipline to Socialist Legalism Pitman B. Potter, 2003 This is the first full length study in English of Peng Zhen 1902-97 a revolutionary comrade of Mao Zedong and Deng Xiaoping and an influential legal policymaker in China during both men's regimes As one of the chief architects of PRC law and legal institutions during the 1950s and again in the 1980s Peng left an indelible mark on the present legal system of China This book analyzes the evolution of Peng's legal views from his days as a revolutionary in the 1930s and 1940s through his participation in Communist rule during the 1950s to his conflicts with Mao and his purge in 1966 and finally to his rehabilitation and resumption of legal reform activities in the 1980s and 1990s Initially Peng embraced Leninist notions of law and political authority These ideas gradually evolved so that in the 1980s Peng advocated increased reliance on formal rules and procedures as mechanisms of governance

From Leninist Discipline to Socialist Legislation Pitman B. Potter, 1995

The People's Congresses and Governance in China Ming Xia, 2007-10-30 This book provides a balanced assessment of China's communist rule its viability as well as its prospect of democracy *The People's Congresses and Governance in China* presents a complex but convincing analysis of the transformation of governance in China As the first systemic and theoretical study of China's provincial legislatures it draws our attention to one of the most promising growth points in China's changing constitutional order Through in depth and first hand research the author provides a comprehensive explanation about why the provincial legislatures have acquired institutional maturation and expanded power in the context of Chinese transitional political economy The book portrays an innovative pattern of legislative development sums up pragmatic local strategies for market creation and identifies multiple dynamics for promoting accountability and democracy Based upon the case study of provincial legislatures Ming Xia reveals the formation of a new mode of governance in China's national politics the network structure featuring institutional arrangements and the mohe co operation through competition pattern of interaction abided by the major power players This volume will be of interest to parliamentary scholars and parliamentarians who are concerned with the role of parliaments in transitional politics and economies of both post communist and developing countries It will also appeal to students and researchers of Chinese politics governance and Asian studies

Remaking the Chinese Leviathan Dali L. Yang, 2004 This book examines a wide range of governance reforms in the People's Republic of China including administrative rationalization divestiture of businesses operated by the military and the building of anticorruption mechanisms to analyze how China's leaders have reformed existing institutions and constructed new ones to cope with unruly markets curb corrupt practices and bring about a regulated economic order

End of an Era Carl Minzner, 2018-02-01 China's reform era is ending Core factors that characterized it political stability ideological openness and rapid economic growth are unraveling Since the 1990s Beijing's leaders have firmly rejected any fundamental reform of their authoritarian one party political system and on the surface their efforts have been a success But as Carl Minzner shows a closer look at China's reform era reveals a different

truth Over the past three decades a frozen political system has fueled both the rise of entrenched interests within the Communist Party itself and the systematic underdevelopment of institutions of governance among state and society at large Economic cleavages have widened Social unrest has worsened Ideological polarization has deepened Now to address these looming problems China's leaders are progressively cannibalizing institutional norms and practices that have formed the bedrock of the regime's stability in the reform era End of an Era explains how China arrived at this dangerous turning point and outlines the potential outcomes that could result Chinese Complaint Systems Qiang Fang, 2013 Despite the rich heritage of numerous complaint systems in Chinese history most Western as well as Chinese studies of one or more complaint systems in the PRC and earlier periods have paid little systematic attention to the origins development practices impact and nature of similar institutions in the longue durée of Chinese history This book fills this gap providing the reader with a comprehensive study of complaint systems in Chinese history from early times to the present As such it will be of huge interest to students and scholars of Chinese history politics and law *A Companion to Chinese History* Michael Szonyi, 2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras Addresses China's connections with other nations and regions and enables non specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality national identity and the environment *China After Mao* Frank Dikötter, 2022-09-29 _____ A SPECTATOR AND NEW STATESMAN BOOK OF THE YEAR A revolutionary book Sunday Times A pulsating account that makes clear how important it is to look beneath the surface when it comes to any period or region in history but above all to China Peter Frankopan TLS Essential reading for anyone who wants to know what has shaped today's China and what the Chinese Communist Party's choices mean for the rest of the world New Statesman Books of the Year Choice Outstanding Academic Title 2023 _____ From the Samuel Johnson Prize winning author of Mao's Great Famine a timely and compelling account of China in the wake of Chairman Mao In *China After Mao* award winning historian Frank Dikötter explores how the People's Republic of China was transformed from a backwater economy in the 1970s into the world superpower of today His account is the first to be based on hundreds of previously unseen archival documents from the secret minutes of top party meetings to confidential bank reports Unfolding with great narrative sweep this riveting richly detailed chronicle recasts our understanding of an era that both the regime and foreign admirers celebrate as an economic miracle In charting four decades of so called Reform and Opening Up and China's emergence as a world power Dikötter tells a fascinating tale of contradictions and illusions of shadow banking

anti corruption drives and extreme state wealth standing alongside everyday poverty He examines China's approach to the 2008 financial crash the country's increasing hostility towards perceived Western interference and its development into a thoroughly entrenched dictatorship one equipped with a sprawling security apparatus and the most sophisticated surveillance system in the world Ultimately the book concludes the communist party's goal was never to join the democratic sphere but to resist it and then defeat it Praise for Frank Dikter and the People's Trilogy Harrowing and brilliant Ben Macintyre The historian of China Spectator One of the few books that anyone who wants to understand the twentieth century simply must read New Statesman The seminal English language work on the subject Sunday Times Gripping and masterful Simon Sebag Montefiore

Collective Killings in Rural China during the Cultural Revolution Yang Su, 2011-02-21 The violence of Mao's China is well known but its extreme form is not In 1967 and 1968 during the Cultural Revolution collective killings were widespread in rural China in the form of public execution Victims included women children and the elderly This book is the first to systematically document and analyze these atrocities drawing data from local archives government documents and interviews with survivors in two southern provinces This book extracts from the Chinese case lessons that challenge the prevailing models of genocide and mass killings and contributes to the historiography of the Cultural Revolution in which scholarship has mainly focused on events in urban areas

Voting as a Rite Joshua Hill, 2020-10-26 For over a century voting has been a surprisingly common political activity in China Voting as a Rite examines China's experiments with elections from the perspective of intellectual and cultural history Rather than arguing that such exercises were either successful or failed attempts at political democracy the book instead focuses on a previously unasked question how did those who participated in Chinese elections define success or failure for themselves Answering this question reveals why Chinese elites originally became enamored of elections at the end of the nineteenth century why critics complained about elections that featured real competition in the early twentieth century and why elections continued to be held after the mid twentieth century even though outcomes were predetermined by the state While no mainland Chinese government has ever felt that its rule required validation at the ballot box the discourses that surrounded elections reveal much about important tensions within modern Chinese political thought What is the best means to identify talent Can the state trust the people to act responsibly as citizens As Joshua Hill shows elections are vital not peripheral to understanding these concerns fully

Korea Confronts Globalization Yunshik Chang, Hyun-ho Seok, Donald Baker, 2008-08-01 Korea Confronts Globalization looks at the way in which the phenomenon of globalization has impacted on Korean society in terms of national identity corporate change labour markets democracy tradition and social policy and the implications for Korea's social cohesion in a continually globalizing world While becoming more open to the outside world South Korea has remained a cohesive national community with a strong nationalist reaction against the globalization of Korea and with Koreans constantly reminding themselves of the need to retain their national identity They have also learned

to cope with various forms of conflict arising from diversified interests in a complex society and the South Korean government is now making a serious attempt to establish a welfare state with various schemes designed to help the poor and needy to maintain a minimum level of decent living But it is uncertain whether South Korean society will continue to remain cohesive Social inequality is increasing and the class divisions appear to be hardening and as such can Korea remain cohesive As a volume looking at the political and social implications of globalization in modern South Korea this book will be of great interest to students and scholars of Korean and East Asian studies comparative sociology development studies and politics

Chinese Criminal Trials Ni He, 2013-10-12 This book provides a unique empirical study of criminal trials in China Western observers such as the media politicians and the legal scholars alike have rarely had the exposure to the vast majority of the ordinary criminal trials in China A number of legal reforms have been implemented in Chinese criminal courts in recent years but there has been little research on whether these reforms have been effective This book fills that gap by unveiling the day to day reality of criminal cases tried by the lowest level courts in China The data used in this study include hundreds of criminal trial observations complete criminal case dossiers and a comprehensive questionnaire survey of criminal justice practitioners from one large province located in China's Southeast coast These data were collected over a two year period with a generous research grant from the John D and Catherine T MacArthur Foundation by scholars already working in the Chinese legal system The work opens with a historical framework of the Chinese criminal justice system both Western and Chinese interpretations and an overview of the current state of the system It will provide unique analysis of how criminal trials are being carried out in China with a useful context for scholars with varying levels of familiarity with the current system The research framework for gathering data discussed in this book will also provide a useful basis for studying the criminal justice system in other regions

Legal Lessons Jennifer E. Althenger, 2020-10-26 The popularization of basic legal knowledge is an important and contested technique of state governance in China today Its roots reach back to the early years of Chinese Communist Party rule *Legal Lessons* tells the story of how the party state attempted to mobilize ordinary citizens to learn laws during the early years of the Mao period 1949-1976 and in the decade after Mao's death Examining case studies such as the dissemination of the 1950 Marriage Law and successive constitutions since 1954 in Beijing and Shanghai Jennifer Althenger traces the dissemination of legal knowledge at different levels of state and society Archival records internal publications periodicals advice manuals memoirs and colorful propaganda materials reveal how official attempts to determine and promote correct understanding of written laws intersected with people's interpretations and practical experiences They also show how diverse groups including party state leadership legal experts publishers writers artists and local officials along with ordinary people helped to define the meaning of laws in China's socialist society Placing mass legal education and law propaganda at the center of analysis *Legal Lessons* offers a new perspective on the sociocultural and political history of law in socialist China

Law and Politics in Modern China Sharron Gu, 2009 This is

an original interdisciplinary study of Chinese law its language and political institution Evolving within a complex literary framework over thousands of years Chinese language has lost its conceptual distinctiveness to its multilevel and overlapping meanings and connotations Chinese law has become inflated with contrary rulings and exceptions This mass of rules requires an extra lingual legal authority to redefine boundaries and specify applications This book follows and continues the author s *The Boundaries of Meaning and the Formation of Law* McGill University Press by illustrating how language shapes the formation application and administration of law in various cultural environments *Law and Politics in Modern China* is an important book for those interested in Chinese history culture law and politics It also provides refreshing insights about the way that law continues to function after its language matures and creates contradictions and loopholes within its system of rules one of the most important issues facing Western legal administration in the immediate future

Chinese Walls in Time and Space Roger Des Forges, Minglu Gao, Chiao-mei Liu, Haun Saussy, 2010-03-31 Are walls remnants of ancient and medieval societies destined to become anachronistic in modern and post modern times Or will they persist shaping as well as adjusting to new conditions Do walls necessarily constrain and even isolate those who live within them or can they act as a medium of support and communication for people on both sides This volume addresses these questions Authors from six disciplines history art law medicine communication and film provide multiple perspectives on various kinds of walls material ones around and within states cities and towns as well as virtual ones regulating the administration of justice the flow of pathogens and the transmission of information *Berkshire Dictionary of Chinese Biography Volume 4* Kerry

Brown, 2015-05-01 The *Berkshire Dictionary of Chinese Biography* 1979 2015 provides a riveting new way to understand twenty first century China and a personal look at the changes that have taken place since the Reform and Opening Up era started in 1979 One hundred key individuals from this period were selected by an international group of experts and the stories were written by more than 70 authors in 14 countries The authors map the paths taken by these individuals some rocky some meandering some fateful and in telling their stories give contemporary Chinese history a human face The editors have included with the advice of myriad experts around the world not only the life stories of politicians and government officials who play a crucial role in the development of the country but the stories of cultural figures including film directors activists writers and entrepreneurs from the mainland China Hong Kong and also from Taiwan The Greater China that comes through in this volume has diverse ideas and identities It is often contradictory sometimes fractious and always full of creative human complexity Some of the lives rendered here are heroic Some are tragic and many are inspirational Some figures come in for trenchant criticism and others are celebrated with a sense of wonder and awe Like previous volumes of the *Berkshire Dictionary of Chinese Biography* this volume includes a range of appendices including a pronunciation guide a bibliography and a timeline of key events *Chinese Law: Context and Transformation* Jianfu Chen, 2015-12-22 Eight years of changes in China have passed since the publication of the previous highly successful edition of this book These changes

have not just been about economic development. Among the many transformations there has been another quiet peaceful and largely successful but far from perfect revolution in the area of law whose deficiencies have been more often mercilessly examined and documented than have its historical achievements and significance. This legal revolution is the subject matter of the present book. Like the previous edition it examines the historical and politico-economic context in which Chinese law has developed and transformed focusing on the underlying factors and justifications for changes. It attempts to sketch the main trends in legal modernisation in China offering an outline of the main features of contemporary Chinese law and a clearer understanding of its nature from a developmental perspective. It offers comprehensive coverage of topics such as legal culture and modern law reform constitutional law legal institutions law making administrative law criminal law criminal procedure law civil law property family law contracts law on business entities securities bankruptcy intellectual property law on foreign investment and trade and implementation of law. Fully revised updated and considerably expanded this edition of *Chinese Law Context and Transformation* is a valuable and important resource for researchers policy makers and teachers alike.

One and All Laikwan Pang, 2024-04-02 The concept of sovereignty is a crucial foundation of the current world order. Regardless of their political ideologies no states can operate without claiming and justifying their sovereign power. The People's Republic of China (PRC) one of the most powerful states in contemporary global politics has been resorting to the logic of sovereignty to respond to many external and internal challenges from territorial rights disputes to the Covid-19 pandemic. In this book Pang Laikwan analyzes the historical roots of Chinese sovereignty. Surveying the four different political structures of modern China imperial republican socialist and post socialist and the dramatic ruptures between them Pang argues that the ruling regime's sovereign anxiety cuts across the long twentieth century in China providing a strong throughline for the state-society relations during moments of intense political instability. Focusing on political theory and cultural history the book demonstrates how concepts such as popular sovereignty territorial sovereignty and economic sovereignty were constructed and how sovereign power in China was both legitimized and subverted at various times by intellectuals and the ordinary people through a variety of media from painting and literature to internet-based memes. With the possibility of a new Cold War looming large globalization disintegrating and populism on the rise Pang provides a timely reevaluation of the logic of sovereignty in China as power discourse and a basis for governance.

The Oxford History of Modern China Jeffrey N. Wasserstrom, 2022 Explores the history of China from the founding of the Qing Dynasty 1644 1912 to the present day. A new chapter for this edition brings the story into the era of Xi Jinping.

A Certain Justice Haiyan Lee, 2023-06-05 A much needed account of the hierarchy of justice that defines China's unique political legal culture. To many outsiders China has an image as a realm of Oriental despotism where law is at best window dressing and at worst an instrument of coercion and tyranny. In this highly original contribution to the interdisciplinary field of law and humanities Haiyan Lee contends that this image arises from a skewed understanding of China's political legal culture particularly the

failure to distinguish what she calls high justice and low justice In the Chinese legal imagination Lee shows justice is a vertical concept with low justice between individuals firmly subordinated to the high justice of the state China's political legal culture is marked by a mistrust of law's powers and as a result it privileges substantive over procedural justice Calling on a wide array of narratives stories of crime and punishment subterfuge and expos guilt and redemption A Certain Justice helps us recognize the fight for justice outside the familiar arenas of liberal democracy and the rule of law

Reviewing **From Leninist Discipline To Socialist Legalism**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing. Within the pages of "**From Leninist Discipline To Socialist Legalism**," an enthralling opus penned by a very acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve in to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
