From Maui To Cook The Discovery And Settlement Of The Pacific:

From Maui to Cook David Lewis,1977 The story of Pacific exploration seen through the eyes of a modern day seagoing adventurer It ranges from prehistoric times when legend says the god Maui fished the North Island of New Zealand out of the sea to the culmination of European exploration by Cook and concludes with the resurgence of voyaging by Pacific Islanders in their traditional craft *Historical Dictionary of the Discovery and Exploration of the Pacific Islands* Max Quanchi,John Robson,2005-10-18 The South Seas as this region used to be called conjured up images of adventure belles and savages romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic A series on global exploration and discovery would not be complete without this book by Quanchi and Robson It is ambitious and informative and includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignatia and Davis Land There are entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading There are more than just dry facts in this book It has a whiff of salt air the clash of empires cross cultural beach encounters and personal adventure **The Pacific** Donald B. Freeman,2013-03-07 In this fascinating and exciting overview Donald B Freeman explores the role of the Pacific Ocean in human history Covering over one third of the globe the Pacific Ocean plays a vital role in the lives and fortunes of more than two billion people who live on its rim lands and islands It has played a crucial part in shaping the histories of the different Pacific cultures towards which it has appeared in a variety of different guises Exploring the ocean s place in human history this wide ranging book draws together the long and varied physical economic cultural and political history of the Pacific from Prehistory through to the present day It takes an interdisciplinary approach to show the changing viewpoints of those who explored exploited and settled the Pacific including the inhabitants of its Asian and American rim lands The book draws on new research in a variety of areas such as early Pacific migrations impacts of European colonization the effects of climate change and current economic and political developments It provides a uniquely broad overview that will be of vital interest to students and to all those with an interest in World History **From Maui to Cook; the Discovery and Settlement of the Pacific; Drawings by Walter STACKPOOL** David Henry Lewis,1977 *Daughters of the Pacific* Zohl Dé Ishtar,1994 This book gives a voice to the Pacific women and shows what strength there is in these underknown cultures our nearest neighbours The nuclear industry tourism dumping of waste pollution of the oceans all carry a huge price for these islands on the rim of the world and on the rim of our imaginations *Handbook of Polynesian Mythology* Robert D. Craig,2004-10-25 An accessible concise reference source on Polynesia s complex mythology product of a culture little known outside its home Encounters with the

West introduced Polynesian mythology to the world and sealed its fate as a casualty of colonialism But for centuries before the Europeans came that mythology was as vast as the triangle of ocean in which it flourished as diverse as the people it served and as complex as the mythologies of Greece and Rome Students researchers and enthusiasts can follow vivid retellings of stories of creation death and great voyages tracking variations from island to island They can use the book s reference section for information on major deities heroes elves fairies and recurring themes as well as the mythic implications of everything from dogs and volcanoes to the hula Easter Island and tattooing invented in the South Pacific and popularized by returning sailors

Studies in the Economic History of the Pacific Rim Dennis O. Flynn,A.J.H. Latham,Sally M. Miller,2002-09-11 Trade across the Pacific will be one of the dominant forces in the economy of the next century This collection reflects the birth of Pacific Rim history until recently largely neglected It addresses the development of the Pacific Rim over four centuries combining broad historical syntheses with a range of essays on specific topics from trade with Hong Kong to British overseas banking It will form a major contribution to this rapidly expanding new field

The People of the Sea Paul D'Arcy,2006-03-31 Oceania is characterized by thousands of islands and archipelagos amidst the vast expanse of the Pacific Although it is one of the few truly oceanic habitats occupied permanently by humankind surprisingly little research has been done on the maritime dimension of Pacific history The People of the Sea attempts to fill this gap by combining neglected historical and scientific material to provide the first synthetic study of ocean people interaction in the region from 1770 to 1870 It emphasizes Pacific Islanders varied and evolving relationships with the sea during a crucial transitional era following sustained European contact Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea s importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups The author constructs an extended and detailed conceptual framework to examine the ways in which the sea has framed and shaped Islander societies He looks closely at Islanders diverse responses to their ocean environment including the sea in daily life sea travel and its infrastructure maritime boundaries protecting and contesting marine tenure attitudes to unheralded seaborne arrivals and conceptions of the world beyond the horizon and the willingness to voyage He concludes by using this framework to reconsider the influence of the sea on historical processes in Oceania from 1770 to the present and discusses the implications of his findings for Pacific studies

The Evolution of Social Institutions Dmitri M. Bondarenko,Stephen A. Kowalewski,David B. Small,2020-09-12 This book presents a novel and innovative approach to the study of social evolution using case studies from the Old and the New World from prehistory to the present This approach is based on examining social evolution through the evolution of social institutions Evolution is defined as the process of structural change Within this framework the society or culture is seen as a system composed of a vast number of social institutions that are constantly

interacting and changing As a result the structure of society as a whole is also evolving and changing The authors posit that the combination of evolving social institutions explains the non linear character of social evolution and that every society develops along its own pathway and pace Within this framework society should be seen as the result of the compound effect of the interactions of social institutions specific to it Further the transformation of social institutions and relations between them is taking place not only within individual societies but also globally as institutions may be trans societal and even institutions that operate in one society can arise as a reaction to trans societal trends and demands The book argues that it may be more productive to look at institutions even within a given society as being parts of trans societal systems of institutions since despite their interconnectedness societies still have boundaries which their members usually know and respect Accordingly the book is a must read for researchers and scholars in various disciplines who are interested in a better understanding of the origins history successes and failures of social institutions *Peoples of the Pacific* Paul

D'Arcy,2017-05-15 Presenting the history of the inhabitants of the Pacific Islands from first colonization until the spread of European colonial rule in the later 19th century this volume focuses specifically on Pacific Islander European interactions from the perspective of Pacific Islanders themselves A number of recorded traditions are reproduced as well as articles by Pacific Island scholars working within the academy The nature of Pacific History as a sub discipline is presented through a sample of key articles from the 1890s until the present that represent the historical evolution of the field and its multidisciplinary nature The volume reflects on how the indigenous inhabitants of the Pacific Islands have a history as dynamic and complex as that of literate societies and one that is more retrievable through multidisciplinary approaches than often realized **A Companion to Global Environmental History** J. R. McNeill,Erin Stewart Mauldin,2015-05-04 The

Companion to Global Environmental History offers multiple points of entry into the history and historiography of this dynamic and fast growing field to provide an essential road map to past developments current controversies and future developments for specialists and newcomers alike Combines temporal geographic thematic and contextual approaches from prehistory to the present day Explores environmental thought and action around the world to give readers a cultural intellectual and political context for engagement with the environment in modern times Brings together environmental historians from around the world including scholars from South Africa Brazil Germany and China **Pacific Ethnomathematics** Nicholas

J. Goetzfridt,2007-09-20 This ground breaking bibliography by distinguished Pacific researcher Nicholas Goetzfridt examines mathematical concepts and practices in Polynesia Melanesia and Micronesia It covers number systems counting measuring classifying spatial relationships symmetry geometry and other aspects of ethnomathematics in relation to a wide range of activities such as trade education navigation construction rituals and festivals divination weaving tattooing and music In compiling nearly five hundred citations Goetzfridt makes use of the vast resources of writing about the Pacific from the 1700s to the present In addition to discussing Pacific knowledge systems in general his introductory chapter includes a helpful

overview of the relatively new field of ethnomathematics and important theoretical reflections on the discipline as a research program Extensive subject and geographic indexes provide numerous ways to experience the rich heritage and history of Pacific ethnomathematical concepts covered in this book including the 256 possible knotted fates enabled by the Carolinian sky god Supwunumen etak segmentation concepts in stellar based voyaging the highly diverse counting systems of Papua New Guinea the alignment of stone structures with stars to mark the appearance of the equinox and solstice and contemporary educational issues in the standardized teaching of Western mathematics

Water Planet Camille Gaskin-Reyes, 2016-10-24 Through case studies opposing viewpoints and primary documents this reference work examines the environmental and sustainability issues regarding water as well as how water is an intrinsic part of human culture Every culture and ecosystem on earth depends on water As the world's climate changes human culture is increasingly threatened by the seemingly opposite problems of having too little clean potable water and having too much water e.g. flooding melting polar ice caps and rising sea levels What are the solutions that humanity must collectively pursue to protect our ability to flourish on planet earth

Water Planet The Culture Politics Economics and Sustainability of Water on Earth offers an unprecedented examination of the critical subject of water sustainability Its essays viewpoints case studies and documents show how this vital resource that many in first world countries take for granted is intricately woven into not only basic human survival but also cultural political and economic stability Readers will learn about topics such as flooding and drought the growing problem of water pollution the connections between water and gender including gender equity and gender aspects of water ownership the effects of global temperature changes on the water supply concerns regarding fishing and overfishing water security and sustainable water management

Seafaring Women David Cordingly, 2009-03-25 For centuries the sea has been regarded

as a male domain but in this illuminating historical narrative maritime scholar David Cordingly shows that an astonishing number of women went to sea in the great age of sail Some traveled as the wives or mistresses of captains others were smuggled aboard by officers or seamen And Cordingly has unearthed stories of a number of young women who dressed in men's clothes and worked alongside sailors for months sometimes years without ever revealing their gender His tremendous research shows that there was indeed a thriving female population from pirates to the sirens of myth and legend on and around the high seas A landmark work of women's history disguised as a spectacularly entertaining yarn *Women Sailors and Sailors' Women* will surprise and delight

The Naturalist and His 'beautiful Islands' David Russell Lawrence, 2014-10-28 I know no place where firm and paternal government would sooner produce beneficial results than in the Solomons Here is an object worthy indeed the devotion of one's life Charles Morris Woodford devoted his working life to pursuing this dream becoming the first British Resident Commissioner in 1897 and remaining in office until 1915 establishing the colonial state almost singlehandedly His career in the Pacific extended beyond the Solomon Islands He worked briefly for the Western Pacific High Commission in Fiji was a temporary consul in Samoa and travelled as a Government Agent on a small labour vessel returning indentured workers to the Gilbert Islands As an independent naturalist he made three successful expeditions to the islands and even climbed Mt Popomanaseu the highest mountain in Guadalcanal However his natural history collection of over 20 000 specimens held by the British Museum of Natural History has not been comprehensively examined The British Solomon Islands Protectorate was established in order to control the Pacific Labour Trade and to counter possible expansion by French and German colonialists It remaining an impoverished largely neglected protectorate in the Western Pacific whose economic importance was large scale copra production with its copra considered the second worst in the world This book is a study of Woodford the man and what drove his desire to establish a colonial protectorate in the Solomon Islands In doing so it also addresses ongoing issues not so much why the independent state broke down but how imperfectly it was put together in the first place

Mathematics and Astronomy in the Ancient World Daniel Patrick Morgan, Tang Quan, 2025-09-26 This book contains an edited selection of the papers presented at the Second International Conference on the History of Ancient Mathematics and Astronomy ICHAMA organized by Tang Quan and Qu Anjing and held in Xi'an 28 December 2018 commemorating the foundation This collection consisting of papers that have been refined and edited into scientific articles provides an overview of how the history of science can be international stepping beyond area studies without being Eurocentric Containing chapters written by East Asia scholars who do not publish widely in English the volume opens an important window into their projects and the state of scholarship in their respective countries in relation to the history of mathematics and astronomy As the contributions span a spectrum of senior and junior scholars they are of great interest to an academic audience of researchers and post graduate students in the history of science and the history of mathematics and astronomy in particular

Women Sailors and Sailors' Women David

Cordingly, 2001-04-15 For centuries the sea has been regarded as a male domain. Fishermen, navy officers, pirates and explorers roamed the high seas while their wives and daughters stayed on shore. Ocean-going adventurers and the crews of their ships were part of an all-male world or were they? In this illuminating historical narrative, maritime scholar David Cordingly shows that in fact an astonishing number of women went to sea in the great age of sail. Some traveled as the wives or mistresses of captains. A few were smuggled aboard by officers or seamen. A number of cases have come to light of young women dressing in men's clothes and working alongside the sailors for months and sometimes years. In the U.S. and British navies it was not uncommon for the wives of bosuns, carpenters and cooks to go to sea on warships. Cordingly's tremendous research shows that there was indeed a thriving female population from female pirates to the sirens of legend on and around the high seas. A landmark work of women's history disguised as a spectacularly entertaining yarn, *Women's Sailors* and *Sailor's Women* will surprise and delight readers. **Pacific Islands Monthly**, 1978
