From Naming To Saying The Unity Of The Proposition

Keith Allan

From Naming To Saying The Unity Of The Proposition:

From Naming to Saying Martha I. Gibson, 2004-01-26 *From Naming to Saying* explores the classic question of the unity of the proposition combining an historical approach with contemporary causal theories to offer a unique and novel solution. Presents compelling and sophisticated answers to questions about how language represents the world. Defends a novel approach to the classical question about the unity of the proposition. Examines three key historical theories: Frege's doctrine of concept and object, Russell's analysis of the sentence, and Wittgenstein's picture theory of meaning. Combines an historical approach with discussion and defense of a contemporary causal theory of the unity of the proposition. Establishes a view compatible with, though not dependent on, a causal theory of meaning. *An Introduction to the Philosophy of Language*

Michael Morris, 2006-12-14 In this textbook Michael Morris offers a critical introduction to the central issues of the philosophy of language. Each chapter focusses on one or two texts which have had a seminal influence on work in the subject and uses these as a way of approaching both the central topics and the various traditions of dealing with them. Texts include classic writings by Frege, Russell, Kripke, Quine, Davidson, Austin, Grice, and Wittgenstein. Theoretical jargon is kept to a minimum and is fully explained whenever it is introduced. The range of topics covered includes sense and reference, definite descriptions, proper names, natural kind terms, *de re* and *de dicto* necessity, propositional attitudes, truth, theoretical approaches to meaning, radical interpretation, indeterminacy of translation, speech acts, intentional theories of meaning, and scepticism about meaning. The book will be invaluable to students and to all readers who are interested in the nature of linguistic meaning.

Concise Encyclopedia of Semantics Keith Allan, 2010-04-06 *Concise Encyclopedia of Semantics* is a comprehensive new reference work aiming to systematically describe all aspects of the study of meaning in language. It synthesizes in one volume the latest scholarly positions on the construction, interpretation, clarification, obscurity, illustration, amplification, simplification, negotiation, contradiction, contraction, and paraphrasing of meaning, and the various concepts, analyses, methodologies, and technologies that underpin their study. It examines not only semantics but the impact of semantic study on related fields such as morphology, syntax, and typologically oriented studies such as grammatical semantics, where semantics has made a considerable contribution to our understanding of verbal categories like tense or aspect, nominal categories like case or possession, clausal categories like causatives, comparatives, or conditionals, and discourse phenomena like reference and anaphora. COSE also examines lexical semantics and its relation to syntax, pragmatics, and cognitive linguistics, and the study of how logical semantics develops and thrives often in interaction with computational linguistics. As a derivative volume from *Encyclopedia of Language and Linguistics* Second Edition, it comprises contributions from 150 of the foremost scholars of semantics in their various specializations and draws on 20 years of development in the parent work in a compact and affordable format. Principally intended for tertiary level inquiry and research, this will be invaluable as a reference work for undergraduate and postgraduate students as well as academics inquiring into the study of meaning and

meaning relations within languages As semantics is a centrally important and inherently cross cutting area within linguistics it will therefore be relevant not just for semantics specialists but for most linguistic audiences The first encyclopedia ever published in this fascinating and diverse field Combines the talents of the world s leading semantics specialists The latest trends in the field authoritatively reviewed and interpreted in context of related disciplines Drawn from the richest most authoritative comprehensive and internationally acclaimed reference resource in the linguistics area Compact and affordable single volume reference format

Frege on Language, Logic, and Psychology Eva Picardi, 2022 This collection of papers by Eva Picardi 1948-2017 one of the most influential Italian philosophers of her generation examines the work of Gottlob Frege Picardi combines theoretical and historical considerations to bring out the significance of his work for contemporary philosophy of language

The Russell/Bradley Dispute and its Significance for Twentieth Century Philosophy S. Candlish, 2016-01-13 In the early twentieth century an apparently obscure philosophical debate took place between F H Bradley and Bertrand Russell The outcome was momentous the demise of British Idealism and the rise of analytic philosophy Stewart Candlish examines afresh this formative period in twentieth century thought and comes to some surprising conclusions

The Routledge Pragmatics Encyclopedia Louise Cummings, 2010-04-05 Pragmatics has grown considerably in its relatively short history from its original disciplinary influences in philosophy and linguistics into a multidisciplinary field that encompasses a range of theoretical and empirical concerns The Routledge Pragmatics Encyclopedia captures the diversity of these intellectual interests in a comprehensive single volume edition The Routledge Pragmatics Encyclopedia covers concepts and theories that have traditionally been associated with pragmatics but also recent areas of development within the field scholars who have had a significant influence on pragmatics interdisciplinary exchanges between pragmatics and other areas of enquiry and all major research trends Extensive cross references between entries along with suggestions for further reading at the end of entries ensure that the interested reader can pursue additional study of chosen topics With over 200 entries written by leading academics from around the world The Routledge Pragmatics Encyclopedia captures the rich complexity of pragmatics in an accessible manner This reference will be relevant to students of pragmatics as well as to established scholars in the field

Encyclopedia of Language and Linguistics, 2005-11-24 The first edition of ELL 1993 Ron Asher Editor was hailed as the field s standard reference work for a generation Now the all new second edition matches ELL s comprehensiveness and high quality expanded for a new generation while being the first encyclopedia to really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c

11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.infosciencedirect.com The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference source in its field

The World in Perspective Min Huang, 2024-12-16 This book aims to reclaim the significance of meaning within the philosophical thinking that has evolved from Descartes and Locke through Kant Husserl and Frege focusing on intentionality the mind's directedness toward the reality The author opens with an epistemological account of analyticity and illustrates the central role of intentionality within it A transcendentalist view on intentionality is then adopted in contrast with the prevalent naturalist stance Addressing key themes in the philosophy of language truth representation propositions predication reference and sense the book presents a framework for a meaning intentionality theory which integrates key insights from Frege Husserl Wittgenstein Dummett and Davidson The book will appeal to scholars and graduate students of epistemology philosophy of language philosophy of mind theory of meaning and theory of intentionality

Concise Encyclopedia of Philosophy of Language and Linguistics Alex Barber, Robert J Stainton, 2010-04-06 The application of philosophy to language study and language study to philosophy has experienced demonstrable intellectual growth and diversification in recent decades Concise Encyclopedia of Philosophy of Language and Linguistics comprehensively analyzes and evaluates many of the most interesting facets of this vibrant field An edited collection of articles taken from the award winning Encyclopedia of Language and Linguistics Second Edition this volume acts as a single stop desk reference resource for the field comprising contributions from the foremost scholars of philosophy of linguistics in their various interdisciplinary specializations From Plato's Cratylus to Semantic and Epistemic Holism this fascinating work authoritatively unpacks the diverse and multi layered concepts of meaning expression identity truth and countless other themes and subjects straddling the linguistic philosophical meridian in 175 articles and over 900 pages Authoritative review of this dynamic field placed in an interdisciplinary context Approximately 175 articles by leaders in the field Compact and affordable single volume format

Wittgenstein's Enduring Arguments Edoardo Zamuner, D. K. Levy, 2008-10-29 Fifty years after Wittgenstein's death his philosophy and the arguments it embodied remain vital and applicable Wittgenstein's Enduring Arguments illustrates the use

of Wittgenstein's thought for continuing philosophical debates old and new. Featuring essays by leading international philosophers, the collection examines the key theme of representation in Wittgenstein's philosophy. Organised into three clear parts, the book considers representation in cognition, in language, and in what cannot be represented: the absolute. The first part applies Wittgenstein to leading questions concerning qualia, the grammar of phenomenology, and developmental psychology. The second part applies Wittgenstein to vexing knots in the philosophy of language, like language and concept acquisition, the normativity of meaning, and linguistic understanding. The final section addresses Wittgenstein's unique philosophical approach to logic, self, religion, and ethics. Each specially commissioned chapter demonstrates the successful application of Wittgenstein's philosophy; collectively, they express a confidence that Wittgenstein's arguments and his philosophy will endure. **Wittgenstein's Enduring Arguments** is essential reading for those seeking to examine and assess the philosopher's lasting contribution to modern thought.

The Cambridge Companion to Wittgenstein Hans D. Sluga, David G. Stern, 1996-10-28. The essays in this volume address central themes in Wittgenstein's writings on the philosophy of mind, language, logic, and mathematics.

Kant's Inferentialism David Landy, 2015-04-10. Kant's Inferentialism draws on a wide range of sources to present a reading of Kant's theory of mental representation as a direct response to the challenges issued by Hume in *A Treatise of Human Nature*. Kant rejects the conclusions that Hume draws on the grounds that these are predicated on Hume's theory of mental representation, which Kant refutes by presenting objections to Hume's treatment of representations of complex states of affairs and the nature of judgment. In its place, Kant combines an account of concepts as rules of inference with a detailed account of perception and of the self as the locus of conceptual norms to form a complete theory of human experience as an essentially rule-governed enterprise aimed at producing a representation of the world as a system of objects necessarily connected to one another via causal laws. This interpretation of the historical dialectic enriches our understanding of both Hume and Kant and brings to bear Kant's insights into mental representation on contemporary debates in philosophy of mind. Kant's version of inferentialism is both resistant to objections to contemporary accounts that cast these as forms of linguistic idealism and serves as a remedy to misplaced Humean scientism about representation.

Propositions Trenton Merricks, 2015-03-26. *Propositions* has two main goals. The first is to show that there are propositions. The second is to defend an account of their nature. While pursuing these goals, Trenton Merricks draws a variety of controversial conclusions about related issues, including among others: supervenience, the nature of possible worlds, truths about non-existent entities, and whether and how logical consequence depends on modal facts. An argument is modally valid just in case necessarily, if its premises are true, then its conclusion is true. *Propositions* begins with the assumption that some arguments are modally valid. Merricks then argues that the premises and conclusions of modally valid arguments are not sentences. Instead, he argues, they are propositions. So, because there are modally valid arguments, there are propositions. Merricks defends the claim that propositions are not structured and are not sets of possible worlds. He

thereby presents arguments against the two leading accounts of the nature of propositions Those arguments are intended not only to oppose those accounts but also to deliver conclusions about what a satisfactory account of the nature of propositions should say Of particular importance in this regard are arguments concerning the alleged explanations of how a set of possible worlds or a structured proposition would manage to represent thing as being a certain way Merricks then defends his own account of the nature of propositions which says only that each proposition is a necessary existent that essentially represents things as being a certain way

Objectivity and the Parochial Charles Travis, 2011 Charles Travis investigates a central problem in philosophy one of the most puzzling Thought must be about a world independent of us But our capacities for thought shape thought s objects So it can seem that what is true and what is not cannot be independent of us Objectivity and the Parochial suggests how we might resolve this paradox

The Relevance of Phenomenology to the Philosophy of Language and Mind Sean D. Kelly, 2014-01-21 This work discusses philosophical problems of perceptual content the content of demonstrative thoughts and the unity of proposition By demonstrating a connection between phenomenology and analysis Kelly suggests ways in which they can be fruitfully pursued

The Oxford Handbook of The History of Analytic Philosophy Michael Beaney, 2013-06-20 The main stream of academic philosophy in Anglophone countries and increasingly worldwide is identified by the name analytic The study of its history from the 19th century to the late 20th has boomed in recent years These specially commissioned essays by forty leading scholars constitute the most comprehensive book on the subject

Wittgenstein's Notes on Logic Michael Potter, 2009-01-22 Wittgenstein s philosophical career began in 1911 when he went to Cambridge to work with Russell He compiled the Notes on Logic two years later as a kind of summary of the work he had done so far Russell thought that they were as good as anything that has ever been done in logic but he had Wittgenstein himself to explain them to him Without the benefit of Wittgenstein s explanations most later scholars have preferred to treat the Notes solely as an interpretative aid in understanding the Tractatus which draws on them for material rather than as a philosophical work in their own right Michael Potter unequivocally demonstrates the philosophical and historical importance of the Notes for the first time By teasing out the meaning of key passages he shows how many of the most important insights in the Tractatus they contain He discusses in detail how Wittgenstein arrived at these insights by thinking through ideas he obtained from Russell and Frege And he uses a challenging blend of biography and philosophy to illuminate the methods Wittgenstein used in his work The book features the complete text of the Notes in a critical edition with a detailed discussion of the circumstances in which they were compiled leading to a new understanding of how they should be read

Departing from Frege Mark Sainsbury, 2003-08-29 This text takes Frege s work as a point of departure but argues that we must depart considerably from Frege s own views if we are to work towards an adequate conception of natural language

Ammonius: On Aristotle On Interpretation 1-8 David L. Blank, 2014-04-22 Aristotle s On Interpretation the centrepiece of his logic examines the relationship between conflicting pairs of statements The first eight

chapters analysed in this volume explain what statements are starting from their basic components the words and working up to the character of opposed affirmations and negations Ammonius who in his capacity as Professor at Alexandria from around AD 470 taught almost all the great sixth century commentators left just this one commentary in his own name although his lectures on other works of Aristotle have been written up by his pupils who included Philoponus and Asclepius His ideas on Aristotle's *On Interpretation* were derived from his own teacher Proclus and partly from the great lost commentary of Porphyry The two most important extant commentaries on *On Interpretation* of which this is one the other being by Boethius both draw on Porphyry's work which can be to some extent reconstructed for them

Wittgenstein's Lasting Significance Max Kölbel, Bernhard Weiss, 2004-08-02 Ludwig Wittgenstein 1889-1951 has exerted a more powerful influence on current philosophy than any other twentieth century thinker Twelve contemporary philosophers explore the nature of this influence and why it has proved so enduring

Unveiling the Energy of Verbal Art: An Mental Sojourn through **From Naming To Saying The Unity Of The Proposition**

In a global inundated with monitors and the cacophony of instantaneous connection, the profound power and emotional resonance of verbal artistry often disappear into obscurity, eclipsed by the continuous barrage of noise and distractions. However, nestled within the musical pages of **From Naming To Saying The Unity Of The Proposition**, a fascinating work of fictional beauty that pulses with fresh emotions, lies an wonderful trip waiting to be embarked upon. Written with a virtuoso wordsmith, this interesting opus instructions readers on an emotional odyssey, gently revealing the latent potential and profound impact stuck within the delicate web of language. Within the heart-wrenching expanse with this evocative evaluation, we shall embark upon an introspective exploration of the book is central themes, dissect their fascinating publishing type, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.

From Naming To Saying The Unity Of The Proposition Introduction

In the digital age, access to information has become easier than ever before. The ability to download From Naming To Saying The Unity Of The Proposition has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download From Naming To Saying The Unity Of The Proposition has opened up a world of possibilities. Downloading From Naming To Saying The Unity Of The Proposition provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading From Naming To Saying The Unity Of The Proposition has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download From Naming To Saying The Unity Of The Proposition. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading From Naming To Saying The Unity Of The Proposition. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading From Naming To Saying The Unity Of The Proposition, users should also consider the potential security risks

associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download From Naming To Saying The Unity Of The Proposition has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About From Naming To Saying The Unity Of The Proposition Books

1. Where can I buy From Naming To Saying The Unity Of The Proposition books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a From Naming To Saying The Unity Of The Proposition book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
