Economic Growth And Development In Jordan Special Studies On The Middle East:

Economic Growth and Development in Jordan Michael P. Mazur, 1949 **The Economic Development of Jordan (RLE Economy of Middle East)** Bichara Khader, Adnan Badran, 2014-10-30 Jordan is one of the most important countries of the Fertile Crescent. Although it is not richly endowed with material resources, its political significance in the region gives it considerable authority. This book focuses on the economic development of Jordan over the last decade. It analyses the structural changes the economy has undergone and examines the experience of the key sectors. It also looks at the contribution of foreign aid and emigrant workers' remittances to the economy. The book concludes that there is a significant potential for the Jordanian economy, but the current political and economic problems facing it are daunting. First published in 1987.

The Arab-African Connection Victor T. Le Vine, Timothy W. Luke, 2019-07-11 Between June 1967 and the end of 1973, most independent Black African states abandoned their neutral position in the Middle East conflict, cut their ties with Israel, and gave full support to the political aims of the Arab states. Since the beginning of 1974, however, and despite attempts by the Arabs to shield their new allies from the adverse effects of the 1973-74 world oil and economic crises, the alliance has begun to fragment as the African states become transformed from partners to clients and dependents of the Arabs. This study examines the roots of the African conversion, the nature of the evolving relationship between the African and Arab states, and the reasons, economic and political, for the transformation of the alliance. Basic to that transformation, the authors argue, is a fundamental change in the international status and power of the Arab states, a change that has led them to cast their lot with the industrialized First World rather than with the poorer, less developed countries.

The Political Environment Of Economic Planning In Iran, 1971-1983 Hossein Razavi, Firouz Vakil, 2019-07-09 The Political Environment of Economic Planning in Iran 1971-1983: From Monarchy to Islamic Republic. Hossein Razavi and Firouz Vakil. Based on both research and first-hand experience, this book provides a politico-economic analysis of the operation of Iran's economy before and after the revolution of February 1979. The authors discuss the function and effectiveness of economic planning during the Shah's tenure and relate the shortcomings of plan preparation and implementation to the explosive psycho-economic instability of the regime. They then discuss the institutional problems that the revolutionary regime has been facing in operating the economy and foresee the possible consequences of its failure to appropriately deal with these problems. Finally, analyzing the economic postures of important opposition groups, the authors outline future prospects for economic planning in Iran.

Oil and the political economy in the Middle East Martin Beck, Thomas Richter, 2021-08-17 The downhill slide in the global price of crude oil which started mid 2014 had major repercussions across the Middle East for net oil exporters as well as importers closely connected to the oil producing countries from the Gulf Following the Arab uprisings of 2010 and 2011 the oil price decline represented a second major shock for the region in the early twenty first century one that has continued to impose constraints but also provided opportunities Offering the first comprehensive analysis of the Middle Eastern political economy in response to the 2014 oil price decline this book connects oil market dynamics with an understanding of socio political changes Inspired by rentierism the contributors present original studies on Bahrain Egypt Jordan Kuwait Lebanon Oman Qatar Saudi Arabia and the United Arab Emirates The studies reveal a large diversity of country specific policy adjustment strategies from the migrant workers in the Arab Gulf who lost out in the post 2014 period but were incapable of repelling burdensome adjustment policies to Egypt Jordan and Lebanon who have never been able to fulfil the expectation that they could benefit from the 2014 oil price decline With timely contributions on the COVID 19 induced oil price crash in 2020 this collection signifies that rentierism still prevails with regard to both empirical dynamics in the Middle East and academic discussions on its political economy

Determinants of Cross-country Income Inequality Branko Milanovi?,1994 An alternative hypothesis to explain why income inequality differs among countries Inequality in richer societies decreases not only because of economic factors but also because societies choose less inequality as they grow richer US Assistance, Development, and Hierarchy in the Middle East Anne Mariel Zimmermann,2016-12-21 What does US aid buy in the Middle East Drawing on extensive primary source research this book examines the role and consequences of US aid to three countries in the Middle East The author argues that the political survival strategies of incumbent leaders in Egypt Israel and Jordan shaped not only the type of aid that these countries received from the US but also its developmental and geopolitical impact Leaders who relied heavily on distributing selective benefits to their ruling coalitions were more likely to receive forms of US aid that complemented their distributive political economies and undermined the state s developmental capacity which simultaneously rendered them more dependent on US resources and more likely to cede fragments of their sovereignty to their major donor Non distributive leaders however could reap the full benefits of highly discretionary and technologically sophisticated aid incorporating it into developmental policies that rendered them progressively less dependent on Washington and better able to say no when it was in their best interest **Economic Development in the Middle East, 2nd edition** Rodney Wilson,2012-11-27 By examining economic development in the Middle East in the aftermath of the Arab Spring this textbook introduces undergraduate and postgraduate students to the most pressing and topical economic issues in the contemporary Middle East With comprehensive coverage of the entire region the author examines the economic prospects for the Gulf and charts the growth of economic power in the region Organised thematically a full range of topics are discussed including the role of banks and capital markets in the region s development the impact of demographic changes such as the dramatic
