Economic Development and Social Change in the People's Republic of China W. Kraus, E. M. Holz, 1982-09-20 [Economic Development and Social Change in the People's Republic of China](#) Willy Kraus, 1982 *The Economic Development of China* Ryoshin Minami, trans Wenran Jiang, 2016-07-27 This book identifies the problems that China must face to develop its economy and elucidates the structural deficiencies which lay behind these problems Chinese economy compared with other economies in the world The book also analyzes China's present economic situation and where possible provides prescriptions for solving its problems by comparing it with the Japanese development experience *An Essay on Economic Reforms and Social Change in China* Assar Lindbeck, 2006 Abstract The author applies a systems oriented holistic approach to China's radical economic reforms during the past quarter of a century He characterizes China's economic reforms in terms of a multidimensional classification of economic systems When looking at the economic consequences of China's change of economic system he deals with both the impressive growth performance and its economic costs The author also studies the consequences of the economic reforms for the previous social arrangements in the country which were tied to individual work units agriculture communes collective firms and state owned enterprises He continues with the social development during the reform period reflecting a complex mix of social advances mainly in terms of poverty reduction and regresses for large population groups in terms of income security and human services such as education and in particular health care Next the author discusses China's future policy options in the social field whereby he draws heavily on relevant experiences in industrial countries over the years The

Red China's Green Revolution Joshua Eisenman, 2018-04-24 China's dismantling of the Mao era rural commune system and return to individual household farming under Deng Xiaoping has been seen as a successful turn away from a misguided social experiment and a rejection of the disastrous policies that produced widespread famine In this revisionist study Joshua Eisenman marshals previously inaccessible data to overturn this narrative showing that the commune modernized agriculture increased productivity and spurred an agricultural green revolution that laid the foundation for China's future rapid growth Red China's Green Revolution tells the story of the commune's origins evolution and downfall demonstrating its role in China's economic ascendance After 1970 the commune emerged as a hybrid institution including both collective and private elements with a high degree of local control over economic decision but almost no say over political ones It had an integrated agricultural research and extension system that promoted agricultural modernization and collectively owned local enterprises and small factories that spread rural industrialization The commune transmitted Mao's collectivist ideology and enforced collective isolation so it could overwork and underpay its households Eisenman argues that the commune was eliminated not because it was unproductive but because it was politically undesirable it was the post Mao leadership led by Deng Xiaoping not rural residents who chose to abandon the commune in order to consolidate their control over China Based on detailed and systematic national provincial and county level data as well as interviews with agricultural experts and former commune members Red China's Green Revolution is a comprehensive historical and social scientific analysis that fundamentally challenges our understanding of recent Chinese economic history
