The Political Logic of Economic Reform in China Susan L. Shirk, 2023-04-28 In the past decade, China was able to carry out economic reform without political reform, while the Soviet Union attempted the opposite strategy. How did China succeed at economic market reform without changing communist rule? Susan Shirk shows that Chinese communist political institutions are more flexible and less centralized than their Soviet counterparts were. Shirk pioneers a rational choice institutional approach to analyze policy making in a non-democratic authoritarian country and to explain the history of Chinese market reforms from 1979 to the present. Drawing on extensive interviews with high-level Chinese officials, she pieces together detailed histories of economic reform policy decisions and shows how the political logic of Chinese communist institutions shaped those decisions. Combining theoretical ambition with the flavor of on-the-ground policy making in Beijing, this book is a major contribution to the study of reform in China and other communist countries. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1994.

Government-Business Relations and Regional Development in Post-Reform Mexico Theodore Kahn, 2018-10-14 This book explores the political economy of subnational development in Mexico. Like much of Latin America, Mexico underwent market reforms and democratization in the late 20th century. In addition to transforming national institutions, these changes led to sharp political and economic divergence among Mexican states. The author offers a novel explanation for these uneven results, showing how relations between local governments and organized business gave rise to distinct subnational institutions for managing the economy. The argument is developed through a paired comparison of two

states in central Mexico Puebla and Quer taro This work will be of interest to students of Latin American and Mexican politics regional development and government business relations

Skill Formation Regimes in South Asia Markus Maurer, 2011 In the face of accelerated economic globalisation many of the industries in economically less developed countries have become more technology intensive Skill formation processes both inside and outside firms are therefore changing This study scrutinises such transformations by comparing from the perspective of historical institutionalism the skill formation regimes of the garment industries in Sri Lanka and Bangladesh It sheds light on the differences between the trajectories of the in firm skill formation regimes of the two countries and reveals the important part that varying paths of educational development in both countries have played in shaping these trajectories At the same time the study shows how in both countries state led skill formation regimes have been transformed not only by market forces and the growing importance of corporate business interests but also by the social demand for educational credentials

Economic Reform Processes in South Asia Philippa Dee, 2012-07-26 While South Asia's economic reform initiatives of the last two decades were often born in crisis this alone does not account for their occurrence This book looks at the processes and institutional arrangements behind these reforms and analyses what lessons can be learnt about how South Asia can improve its policy efficiency The book develops ideas about how to overcome the political restraints to reform by drawing on recent theories of political economy and policy learning It tests these ideas against authoritative case studies of actual reform initiatives in South Asia which illustrate processes and institutional arrangements that have helped South Asian governments to sustain reform efforts even in the absence of a strong political base This offers valuable lessons for the global economy as it moves into a phase of rebalancing with the structural adjustments that this will require The book goes on to identify weaknesses that could be addressed by South Asian national

governments and regional forums It is an important contribution to studies on South Asian Politics and International Political Economy Democratic Politics and Economic Reform in India Rob Jenkins,1999 This book takes issue with existing theories of the relationship between democracy and economic liberalisation *China's Economic Reforms* Lin Wei,Arnold Chao,1982 Essays on theoretical and empirical contradictions in China s economic policy reforms since 1976 discusses policy options and economic development trends 1949 1980 economic structure imbalances revival of private enterprises market mechanism and competition under socialism foreign investment potential price policies etc stresses the importance of communes public ownership efficient public enterprise leadership rational decentralization etc Glossary references and statistical tables **Turkey Clothing and Textile Industry Handbook Volume 1 Strategic Information and Contacts** IBP, Inc.,2014-12-08 2011 Updated Reprint Updated Annually Turkey Clothing Textile Industry Handbook Money, Incentives and Efficiency in the Hungarian Economic Reform Joseph C.
