**Scientific Journals in the United States** Donald W. King,Dennis D. McDonald,Nancy K. Roderer,1981 *The Economics of Science* James R Wible,2003-09-02 Science is difficult and costly to do well This study systematically creates an economics of science Many aspects of science are explored from an economic point of view The scientist is treated as an economically rational individual This book begins with economic models of misconduct in science and the legitimate normal practices of science moving on to market failure the market place of ideas self correctiveness and the organizational and institutional structures of science An exploration of broader methodological themes raised by an economics of science ends the work **Journal of Agricultural Economics Research** ,1991 *The Scientific Journal of Agricultural Economics* Dr. Ghada Mohamed ,Dr. Daniel May,2012-01-01 The Scientific Journal of Agricultural Economics Volume 1 Issue 1 2012 Founder Dr Ghada Gomaa A Mohamed Edited by Daniel May Ghada Mohamed ISSN 1923 6514 Online Library Archives Canada Authors Suppanunta Romprasert Arif Nindito and John Adams [https://eprints.lac.gc.ca/100/201/300/scientific\\_jrn\\_agricultural\\_economics\\_2012\\_v01n01.pdf](https://eprints.lac.gc.ca/100/201/300/scientific_jrn_agricultural_economics_2012_v01n01.pdf) *The Journal of Agricultural Economics Research* ,1987

**Publishing Economics** Joshua Gans,2000 Economists tend to attach more value to the publication of articles in the refereed journals than to the publication of books This volume contains 15 articles on the practices of economic journals It addresses issues such as referees and editors professional etiquette and co authorship **A History of Economic Science in Japan** Aiko Ikeo,2014-04-03 Japanese economists began publishing scientific papers in renowned journals including *Econometrica* in the 1950s and had made their significant contributions to the sophistication of general equilibrium analysis by intensive use of a variety of mathematical instruments They had contributed significantly to the transformation of neoclassical economics This book examines how it became possible for Japanese economists to do so by shedding light on the professional discussion of the international gold standard and parity policies in the early twentieth century the acceptance of mathematical economics in the following period the impact of establishment of the Econometric Society 1930 and the swift distribution of theory oriented economics journals since 1930 This book also includes topics on the historical research of the Japanese foundations of modern economics the transformation of the economics of Keynes into Keynesian economics Japanese developments in econometrics and Martin Bronfenbrenner s visit to Japan in the post WWII period This book provides insight into the economic research done by Japanese scholars in the international context It traces how during the period 1900 1960 economics was harmonized with economics and a standard economics was re shaped on the basis of mathematics thanks to economists appetite for rigor and will help to contribute to existing literature **The Development of Economics in Western Europe Since 1945** A. W. (Bob) Coats,2005-08-19 The volume goes beyond the conventional history of economics in its emphasis on the historical and institutional context economic policy and the development of

economics as a profession      Constructing Economic Science Keith Tribe, 2022 Constructing Economic Science shows how the new science of economics was primarily an institutional creation of the modern university Keith Tribe charts the path through commercial education to the discipline of economics and the creation of an economics curriculum that could be replicated around the world      Samuelsonian Economics and the Twenty-First Century Michael Szenberg, Lall Ramrattan, Aron A. Gottesman, 2006-08-24 This volume illuminates and critically assesses Paul A Samuelson's voluminous and groundbreaking contributions to the field of economics The volume includes contributions from eminent scholars including 6 Nobel Laureates covering the extraordinary depth and breadth of Samuelson's contributions Samuelson the first American economist to win the Nobel prize in 1970 was the foremost voice in economics in the latter half of the 20th century He single handedly transformed the discipline by creating a new way of presenting economics making it possible for it to be cast all in mathematical terms Samuelson developed broad frameworks such as the neoclassical synthesis a mixed economy and the surrogate production function which provided practitioners with a vision for research Samuelson's contributions to economics are rich complex consequential and relevant to the ordinary economics of life The quality of Samuelson's output and methods leave no doubt that his contributions continue to be timely and relevant even in the 21st century Ideal as a reference or an introduction to Samuelson's work this is a must have for students and academics alike      *The SAGE Encyclopedia of Economics and Society* Frederick F. Wherry, Juliet B. Schor, Consulting Editor, 2015-09-01 Economics is the nexus and engine that runs society affecting societal well being raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world From a household budget to international trade economics ranges from the micro to the macro level It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia which will explicitly approach economics through varied disciplinary lenses Although there are encyclopedias of covering economics especially classic economic theory and history the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world contemporary issues and society Features 4 volumes with approximately 800 signed articles ranging from 1 000 to 5 000 words each are presented in a choice of print or electronic editions Organized A to Z with a thematic Reader's Guide in the front matter groups related entries Articles conclude with References Future Readings to guide students to the next step on their research journeys Cross references between and among articles combine with a thorough Index and the Reader's Guide to enhance search and browse in the electronic version Pedagogical elements include a Chronology of Economics and Society Resource Guide and Glossary This academic multi author reference work will serve as a general non technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens

**Promoting Entrepreneurship to Reduce Graduate Unemployment** Katono, Isaac Wasswa, 2022-04-01 Based on recognition evaluation and exploitation of opportunities entrepreneurship is a process that stimulates economic growth provides us with new products and services and serves as a solution to low unemployment rates Hence many governments encourage their citizens to embrace entrepreneurship as a strategy to mitigate unemployment particularly youth and graduate unemployment While studies show that entrepreneurship education has yielded positive results in Western countries in other parts of the world it seems that most students still prefer to seek paid employment in their career of choice Promoting Entrepreneurship to Reduce Graduate Unemployment seeks to expand understanding of the barriers that face graduates in becoming entrepreneurs in various countries examining the role of educational institutions in promoting graduate entrepreneurship and evaluating governments as well as other schemes that promote graduate entrepreneurship Although it will not be a panacea for all the obstacles that impede graduate entrepreneurship it is hoped that this book will illuminate the entrepreneurship career path serve as a platform for further diagnosis for reducing graduate unemployment and highlight areas in need of further research Covering topics such as entrepreneurial self efficacy career choice and educated unemployment it serves as a dynamic resource for educators educational administration and faculty government institutions graduate students student organizations professionals researchers and academicians The Economic Journal, 1919 Contains papers that appeal to a broad and global readership in all fields of economics **Integrating Knowledge**

**Through Interdisciplinary Research** Dominic Holland, 2013-08-22 In this important new text Holland seeks to explain by means of social scientific and philosophical inquiry the difficulties that researchers often experience when attempting to integrate knowledge from different academic disciplines either individually or as part of a team of subject specialists It is argued that the difficulty of integrating knowledge from different academic disciplines is the result of firstly an inadequate justification of the nature of scientific integration and differentiation and secondly the dominance of disciplinary specialization in scientific inquiry By focusing on both the theoretical justification for and the practical feasibility of integrating knowledge through interdisciplinary research this book asks what properties of reality make the integration of knowledge from different academic disciplines possible and to what extent it is feasible to integrate knowledge through interdisciplinary research within a traditional disciplinary context Accordingly the text is both philosophical and social scientific in content philosophical in the sense that it presents a theory of causal determination which will help researchers to understand how reality is both differentiated and interconnected social scientific in the sense that it presents the results of three case studies of collaborative interdisciplinary research projects The book is heavily informed by the philosophy of critical realism The philosophical argument about the possibility of integration and specialization in science draws explicitly

on some of the key concepts of critical realism particularly those comprising the theory of integrative pluralism while critical realist assumptions underpin the social scientific argument about the causal influence of the social system of knowledge production By exploring researchers conceptions of knowledge and of reality on the one hand and their decisions about what sort of knowledge to produce on the other Holland shows how the difficulty of scientific integration is both a problem of knowledge and a problem of knowledge production This book is essential reading for students and academics interested in the emerging topic of knowledge integration and interdisciplinarity
