Economic And Political Impediments To Middle East Peace Critical Questions And Alternative Scenarios:

Economic and Political Impediments to Middle East Peace L. Drake,1999-11-09 The accords and protocols that underlie the Arab and Israeli peace agreements set into place economic policies and political processes so flawed that they are bound to fail The chapters in this volume look at the diplomatic and historical precedents that have led to this situation and they debate some cynically and some sympathetically the reasons why the institutional structures and trade regimes the process has created are so weak But for whatever reason the structural flaws built into the Middle East peace process are not only biased toward the dominant players but against the people who most want peace *The Political Economy of Middle East Peace* J.W. Wright Jr.,2013-06-17 The Political Economy of Middle East Peace looks at the political economy of the Middle Eastern peace process with a focus on the politics of trade Contributors investigate the ways new commercial alliances develop as a result of economic agencies established via the Arab Israeli peace process and look at institutions which contribute to redirection of Arab intra and inter regional trade such as the Palestine Monetary Authority the Middle East Development Bank and free trade zone agencies in Aquaba and Dubai *Palestine Ltd.* Toufic Haddad,2016-07-28 Since the 1993 Oslo Accords the Occupied Palestinian Territory has been the subject of extensive international peacebuilding and statebuilding efforts coordinated by Western donor states and international finance institutions Despite their failure to yield peace or Palestinian statehood the role of these organisations in the Israeli Palestinian conflict is generally overlooked owing to their depiction as tertiary actors engaged in technical missions In *Palestine Ltd* Toufic Haddad explores how neoliberal frameworks have shaped and informed the common understandings of international Israeli and Palestinian interactions throughout the Oslo peace process Drawing upon more than 20 years of policy literature field based interviews and recently declassified or leaked documents he details how these frameworks have led to struggles over influencing Palestinian political and economic behaviour and attempts to mould the class character of Palestinian society and its leadership A dystopian vision of Palestine emerges as the by product of this complex asymmetrical interaction where nationalism neo colonialism and disaster capitalism both intersect and diverge This book is essential for students and scholars interested in Middle East Studies Arab Israeli politics and international development Survey of Arab-Israeli Relations Cathy Hartley,Paul Cossali,2004-06-17 Impartial documentation and background information fundamental to the understanding of Arab Israeli relations Key Features covers in detail the years since the first Arab Israeli war and the statehood of Israel in 1947 48 to the most recent developments in relations between Israel the emerging Palestinian political entities and the Arab States a chronology provides an at a glance record of events from 1947 until the present day a Documents on Palestine section gives essential background to the various ongoing areas of dispute profiles of prominent political figures a bibliography section a series of maps illustrating the history of Arab Israeli conflict and recent peace initiatives and settlement issues **Local Politics in Jordan and Morocco** Janine A. Clark,2018-04-03 In recent years authoritarian states in the Middle East and

North Africa have faced increasing international pressure to decentralize political power Decentralization is presented as a panacea that will foster good governance and civil society helping citizens procure basic services and fight corruption Two of these states Jordan and Morocco are monarchies with elected parliaments and recent experiences of liberalization Morocco began devolving certain responsibilities to municipal councils decades ago while Jordan has consistently followed a path of greater centralization Their experiences test such assumptions about the benefits of localism Janine A Clark examines why Morocco decentralized while Jordan did not and evaluates the impact of their divergent paths ultimately explaining how authoritarian regimes can use decentralization reforms to consolidate power Local Politics in Jordan and Morocco argues that decentralization is a tactic authoritarian regimes employ based on their coalition strategies to expand their base of support and strengthen patron client ties Clark analyzes the opportunities that decentralization presents to local actors to pursue their interests and lays out how municipal level figures find ways to use reforms to their advantage In Morocco decentralization has resulted not in greater political inclusivity or improved services but rather in the entrenchment of pro regime elites in power The main Islamist political party has also taken advantage of these reforms In Jordan decentralization would undermine the networks that benefit elites and their supporters Based on extensive fieldwork Local Politics in Jordan and Morocco is an important contribution to Middle East studies and political science that challenges our understanding of authoritarian regimes survival strategies and resilience

Business as Usual? Katherine Blue Carroll,2003-01-01 Since the Jordanian State s establishment in 1921 Jordan s economy has predominantly relied on the financial support of other countries Such external funding known as rent was especially abundant between 1973 and 1989 when Jordan enjoyed an influx of petrodollars from the Gulf states However during the mid 1980 s sharply falling oil prices coupled with a cut off of Jordan s credit in world markets created a budgetary crisis that severely threatened Jordan s distributive political economy In her perspicacious examination Katherine Blue Carroll explores the dynamic link between Jordan s business community and the state between 1983 and 2000 a period when declining rents and economic reform challenged the traditional rent based economy The Jordan case serves as a prime example of how state business relations can be restructured to accommodate the demands of a market economy By methodically examining the timing content and process of the change in state business relations in Jordan Carroll provides the scholarly community with a pertinent and valuable resource

Beyond Regionalism? Matteo Legrenzi,2016-04-15

Regional cooperation regionalism and regionalization in the Middle East are usually considered to be weak and rather ceremonial. However, since September 11 2001 a new regional order is emerging and the impact of geostrategic changes in the international environment has yet to be satisfactorily studied. With older regional organizations suffering from weaknesses new forms appear to be developing and flourishing due either to European support or growing sub regional identities. This volume offers refined theoretical models and approaches which are attuned to the new dynamics and contradictions of a wide range of regionalist projects in the contemporary Middle East. Case studies of the most important regional organizations in different policy fields offer comprehensive overviews of the main actors institutions historical development and current issues.

Competing Trade Agendas in the Arab-Israeli Peace Process J.W. Wright, Jr., 1998-08-18 Most analyses of the Arab Israeli peace process and the negotiations that surround it have been political. Given that the most public players in the process have been politicians and that the most active writers on the subject are political scientists this is not surprising. This analysis challenges the notion that politicians drive the negotiations. Using theoretical

underpinnings drawn from work written by a diverse group of economists this paper investigates the roles that competing trade agendas have in the Arab Israeli peace process Moreover it endeavors to paint a portrait of a process that is directed by people who control distributive policies and who regulate the influence of money in both economics and politics Such a view identifies the financial and fiscal interests of individuals corporations politicians and political parties as the driving forces behind the Arab Israeli negotiations as opposed to identifying leaders with real ambitions for building sustainable peace in the region It further asserts that Israel s core conglomerates and their powerful American and European partners are skeptical of the gains to be made from retooling their war oriented systems into production structures which can effectively compete in a peacetime economy 2003, /()
