Gans,1994-06-16 The primary theme of this collection of essays is that the cities basic problems are poverty and racism and until these concerns are addressed by bringing about racial equality creating jobs and instituting other reforms the generally low quality of urban life will persist Gans argues that the individual must work to alter society He believes that not only must parents have jobs to improve their children s school performance but that the country needs a modernized New Deal a more labor intensive economy and a thirty two hour work week to achieve full employment Other controversial ideas presented in this book include Gans s opposition to the whole notion of an underclass which he feels is the latest way for the nonpoor to unjustly label the poor as undeserving He also believes that poverty continues to plague society because it is often useful to the nonpoor He is critical of architecture that aims above all to be aesthetic or to make philosophical statements is doubtful that planners can or should try to reform our social or personal lives and thinks we should concentrate on achieving individual public policies until we learn how to properly plan as a society The Rich and the Pure Daniel Caner,2021-09-07

A portrait of history s first complex Christian society as seen through the lens of Christian philanthropy and gift giving As the Roman Empire broke down in western Europe its prosperity moved decisively eastward to what is now known as the Byzantine Empire Here was born history s first truly affluent multifaceted Christian society One of the ideals used to unite the diverse millions of people living in this vast realm was the Christianized ideal of philanthr pia In this sweeping cultural and social history Daniel Caner shows how philanthropy required living up to Jesus s injunction to Give to all who ask of you by offering mercy and or material aid to every human being regardless of their origin or status Caner shows how Christian philanthropy became articulated through distinct religious ideals of giving that helped define proper social relations among the rich the poor and the pure Christian holy people resulting in new and enduring social expectations In tracking the evolution of Christian giving over three centuries he brings to the fore the concerns of the peoples of Early Byzantium from the countryside to the lower levels of urban society to the imperial elites as well as the hierarchical relationships that arose
