Economic Integration Of Korean Peninsula:

Economic Integration of the Korean Peninsula Marcus Noland, 1998 The North Korean economy cannot sustain its population. Absent fundamental economic reforms it will never be able to do so. Hence North Korea will require sizable external support for the foreseeable future. South Korea, China, Japan, and the United States have been willing to provide this support because they fear a collapse in the North or even worse a lashing out that would unleash war on the peninsula and put millions of people in Asia in jeopardy, including thousands of US troops stationed in South Korea and Japan. The status quo is thus closer to extortion than charity. In this volume a diverse group of contributors analyze prospective developments on the Korean peninsula. The authors first address the three broad strategic possibilities of war, collapse, and gradual adjustment. Four immediate policy issues are then considered: the current economic conditions and policies in the North, the food crisis, the nuclear energy/nuclear weapons issue, and the possibility of large scale refugee flows. Finally, the volume considers several longer run issues concerning the inevitable integration of the peninsula, the potential relevance of the German experience, the costs and benefits of economic unification between North and South Korea, and the possible role of the international financial institutions in funding the new arrangement. The volume concludes with recommendations for policymakers, especially in the United States and South Korea, from the preceding analyses.

North Korea and Economic Integration in East Asia Yeongseop Rhee, Patrick Messerlin, 2019-06-27 Throughout North Korea's history it has regarded external relations with suspicion and as a potential threat to its regime With North Korea working towards denuclearization there is now hope for an economic opening This book examines the external economic strategies that North Korea may consider for its reforms and development which are related to the East Asian economic integration process This book emphasizes that considering theoretical factors as well as conditions of the North Korean economy economic opening and integration should have high priority anteceding or at least being parallel to economic reforms and transformation Also among various alternative strategies for achieving the goal of economic reform and development based on economic opening the utilization of East Asian regional economic integration framework would be the best option for North Korea because this framework can provide an opportunity for North Korea to overcome structural problems in its external economic relations and to circumvent political conflicts thus leading to a smoother rapprochement towards economic opening This book is timely as it shows how a new economic recovery strategy on the Korean Peninsula may be accomplished

Regional and Urban Policy and Planning on the Korean Peninsula Harry Ward Richardson, Chang-Hee Christine Bae, 2011-01-01 The potential for reunification of the two Koreas whether in the short or long term argues for a comprehensive look at policy and planning issues that encompass the peninsula as a whole This book deals with spatial policy issues in both South and North Korea in a

broad and non political way Part one deals with South Korea examining cultural changes the capital city of Seoul Greenbelt policy the balanced national regional development strategy and the new mega regional approach Part two delves into aspects of development in North Korea such as the limitations of national statistics the marketization of the economy integration with the rest of North East Asia and the need for a spatial infrastructure strategy Part three examines the case for reunification in the interests of both the South and North It argues that a transitional approach would be less costly and less risky than sudden reunification primarily via an early strategy of shifting more capital to the North and later by moderating migration flows to the South The book also examines whether the capital should remain in Seoul or be relocated elsewhere should reunification occur Professors students and public policy officials in the fields of Asian studies regional economics and planning urban studies and political science and any reader interested in the future of Korea will find this book very current and enlightening

Korea in the New Asia Francoise Nicolas,2007-06-07 Since the late 1970s a number of regional developments have impacted upon South Korea s political and economic standing in Asia China s spectacular growth and closer integration with its neighbouring economies along with a tendency toward more assertive political and diplomatic activity have deeply altered both the economic and political East Asian environment Simultaneously the 1997 98 financial crisis catalysed a process of increased regional co operation in East Asia China s rise has imposed a leadership problem that may constitute a major obstacle on the road to deeper regional integration as well as add force to the need for collective action and it is this paradox that may give South Korea a key role in the reorganization of the region Moreover inter Korean relations and Korea s future security environment may also feel the effects of the rise of China Korea in the New Asia seeks to analyze to what extent and how South Korea may contribute to and take advantage of the new regional configuration in East Asia The book represents the first study to address Korea s regional policy responses to the rise of China as an economic power and the regional economic integration of East Asia Written by an international team of experts this multidisciplinary study will appeal to researchers academics and students with an interest in international relations security studies economics and East Asian politics

Korea at the Center: Dynamics of Regionalism in Northeast Asia Charles K. Armstrong,Gilbert Rozman,Samuel S. Kim,Stephen Kotkin,2016-09-16 The common images of Korea view the peninsula as a long standing battleground for outside powers and the Cold War s last divided state But Korea s location at the very center of Northeast

Asia gives it a pivotal role in the economic integration of the region and the dynamic development of its more powerful neighbors A great wave of economic expansion driven first by the Japanese miracle and then by the ascent of China has made South Korea an economic powerhouse in its own right the hub of the region once again a natural corridor for railroads and energy pipelines linking Asiatic Russia to China and Japan And over the horizon an opening of North Korea with multilateral support would add another major push toward regional integration Illuminating the role of the Korean peninsula in three modern historical periods the eminent international contributors to this volume offer a fresh and stimulating appraisal of Korea as the key to the coalescence of a broad open Northeast Asian regionalism in the twenty fifth century **Korea's**

Mention North Korea to people today and they will conjure up many unflattering images particularly in the wake of George W Bush denouncing the state as part of an axis of evil Despite this cold war type rhetoric the state of North Korea has begun to recognise the difficult challenges that it faces and is now trying to get to grips with them systematically This book brings together a selection of many of the world experts on the North Korean economy and covers such important issues as possible unification with South Korea the significance of China s economic success Europe and the United States roles in North Korea North Korea in the World Economy provides an accessible well written and comprehensive account of this unique country and its economy It will be extremely interesting not only for students and academics with an interest in Korean studies international finance and transition economies but also for anyone with an interest in international economics *Legal Issues of Inter-Korean Economic Cooperation under the Armistice System* Eric Yong-Joong Lee,2002-09-01 This unique work examines the highly topical national and international legal issues of economic cooperation between North and South Korea under the current divided situation In recent years the relationship between the two Koreas has been generating more concern than in earlier times This new interest has been followed by two epoch making developments over the past decade the conclusion of the Basic Agreement of 1991 and the Declaration of the North South Summit of 2000 These events have caused remarkable changes in political as well as economic relations between the north and the south This book reviews the current legal regime and the setting up of a positive legal framework for inter Korean economic cooperation beginning to be regulated by international law This research provides two ultimate outcomes One is to resolve the legal problems for transnational economic cooperation relating to North and South Korea the other is to develop a juridical model of south north cooperation as a new world economic framework for the 21st century Three interrelated areas are involved in this work The first part describes the external environmental factors regarding inter Korean economic cooperation from an international legal perspective The second part deals with the legal framework of inter Korean economic cooperation examining concrete issues arising from practical economic exchanges and cooperation between the two Koreas The last part discusses the legal foundations for inter Korean economic integration beyond economic cooperation This book clarifies the significance of the legal environment as an indispensable servant for the parts of a divided country to recover their relationship offering both a normative and practical framework **Planning for a Peaceful Korea , Planning for a Peaceful Korea** Henry D. Sokolski,2001 With the change of administrations in Washington current U S policy toward North Korea will naturally

undergo review and scrutiny The essays in this volume offer an option to the current engagement approach The authors suggest an alternative strategy for promoting peace and security in the Korean peninsula different from the ones contemplated or implemented by Washington in recent years *The Economic Implications of Korean Unification* Jonathan L. Schmitz, 2002-06-01 A major area of concern for Korean unification is the immense cost it will impose on South Korea To lessen this burden South Korea will need to initiate policy reforms that can ease the financial stress and repercussions of unification and create an integrated economic community with North Korea At the same time North Korea will need to create an environment that is conducive to economic integration by accepting and adopting reform measures that can build the foundation for a market economy The two largest factors to any economic reform strategy in North Korea would be to overcome the changes to the political belief system that drives the current economy and the strong link between the state and masses A policy of engagement will create an environment in which inter Korean dialogue and mutual cooperation could lead to a transformed opened North Korea The unification of Germany and Yemen offer pros and cons as well as similarities and dissimilarities to Korea to form certain conclusions predictions and prescriptions The case studies of China and Vietnam provide a detailed analysis of planned economies transitioning to market economies From these case studies several conclusions are drawn regarding the implications of economic unification **Korea Focus - June 2014** The Korea Foundation, 2014-07-21 Korea Focus is a monthly webzine accessible at www.koreafocus.or.kr which includes editorials columns features interviews and essays on Korean current affairs and related international issues Since its inception in 1993 the journal has served as a foremost source of objective information on Korea contributing to a broader understanding of Korean society and promoting Korean Studies among academic institutions and policy think tanks abroad The articles are selected from leading Korean newspapers news magazines and academic journals In addition to the webzine the content of Korea Focus is available via e book service for mobile devices Those who are interested in subscription may register their email address at the website
