Economic Policy For The Arts:

Economic Policy for the Arts William Scott Hendon, James L. Shanahan, Alice J. MacDonald, 1980 Based on the proceedings of an international conference held in Edinburgh Scotland Aug 8 10 1979 The State and the Arts John William O'Hagan, 1998 This text examines in detail the evolution and rationale for state involvement with the so called high arts in both Europe and the United States *The Economics of Art Museums* Martin Feldstein, 2009-05-15 The National Bureau of Economic Research organized a project to explore the economic issues facing the major art museums of the United States For this purpose NBER defined economics broadly to include not only the financial situation of the museums but also the management and growth of museum collections the museums relationship with the public and the role of the government in supporting art museums This volume brings together nontechnical essays on these issues by economists associated with the NBER and personal statements by leaders of America's major national art museums and related foundations It can be read not only by economists but also by museum officials and trustees Museum directors generally come to their responsibilities with a background in art history and curatorial work but without experience in thinking about the management and public policy aspects of museum administration Trustees who serve on museum boards generally have a background in business or law but have not previously tried to apply their experience to the unusual economic problems of museums The background papers the panelists remarks and the summary of the discussion will help them to approach their responsibilities with a better understanding of the problems and possibilities of the museum *Handbook of the Economics of Art and Culture* Victor A. Ginsburgh, David Throsby, 2006-09-13 Over the last 30 or 40 years a substantial literature has grown up in which the tools of economic theory and analysis have been applied to problems in the arts and culture Economists who have surveyed the field generally locate the origins of contemporary cultural economics as being in 1966 the year of publication of the first major work in modern times dedicated specifically to the economics of the arts It was a book by Baumol and Bowen which showed that economic analysis could illuminate the supply of and demand for artistic services the contribution of the arts sector to the economy and the role of public policy Following the appearance of the Baumol and Bowen work interest in the economics of the arts grew steadily embracing areas such as demand for the arts the economic functions of artists the role of the nonprofit sector and other areas Cultural economics also expanded to include the cultural or entertainment industries the media movies the publishing industry popular music as well as heritage and museum management property right questions in particular copyright and the role of new communication technologies such as the internet The field is therefore located at the crossroads of several disciplines economics and management but also art history art philosophy sociology and law The Handbook is placed firmly in economics but it also builds bridges across these various disciplines and will thus be of interest to researchers in all these different fields as well as to those who are engaged in cultural policy issues and the role of culture in the development of our societies Presents an overview of the history of art

markets Addresses the value of art and consumer behavior toward acquiring art Examines the effect of art on economies of developed and developing countries around the world *Arts & Economics* Bruno S. Frey,2003-04-10 Using the economic perspective this exciting text offers an alternative view to sociological or art historic approaches to art The issues discussed include institutions from festivals to superstar museums different means of supporting the arts an investigation into art as an investment and the various approaches applied when valuing our cultural properties This text challenges widely held popular views and once started is difficult to put down History of Economic Rationalities Jakob Bek-Thomsen,Christian Olaf Christiansen,Stefan Gaarsmand Jacobsen,Mikkel Thorup,2017-03-21 This book concentrates upon how economic rationalities have been embedded into particular historical practices cultures and moral systems Through multiple case studies situated in different historical contexts of the modern West the book shows that the development of economic rationalities takes place in the meeting with other regimes of thought values and moral discourses The book offers new and refreshing insights ranging from the development of early economic thinking to economic aspects and concepts in the works of classical thinkers such as Thomas Hobbes John Locke and Karl Marx to the role of economic reasoning in contemporary policies of art and health care With economic rationalities as the read thread the reader is offered a unique chance of historical self awareness and recollection of how economic rationality became the powerful ideological and moral force that it is today **Handbook on the Economics of Cultural Heritage** Ilde Rizzo,Anna Mignosa,2013-01-01 Cultural heritage is a complex and elusive concept constantly evolving through time and combining cultural aesthetic symbolic spiritual historical and economic values The Handbook on the Economics of Cultural Heritage outlines the contribution of economics to the design and analysis of cultural heritage policies and to addressing issues related to the conservation management and enhancement of heritage The Handbook takes a multidisciplinary approach using cultural economics as a theoretical framework to illustrate how crucial and stimulating cross disciplinary dialogue actually is Contributors scrutinise the co existence of cultural and economic values as well as the new challenges that arise from changes brought about by technology and relationships between the different actors engaged in the production distribution and consumption of heritage services The roles of public private and non profit organizations are also explored Case studies underpin the discussion demonstrating the clear and vital link between theory and practice This highly unique Handbook will prove a fascinating and informative read for academics researchers students and policymakers with an interest in cultural economics Economic Engagements with Art Neil De Marchi,Craufurd D. Goodwin,1999 Economists historically have had very little to say about art In the latter part of the twentieth century however difficult issues such as pricing and art valuation the influence of the fashionable on pricing and the nature of auction all began to be explored Economic Engagements with Art suggests that taste and fashion in art need not be mysterious or outside rational discourse and that these matters can be studied by economists to the benefit of the discipline The Art of Policymaking George E. Creative Communities Michael Rushton, 2013-04-12 Urban and regional planners elected officials and other decisionmakers are increasingly focused on what makes places livable Access to the arts inevitably appears high on that list but knowledge about how culture and the arts can act as a tool of economic development is sadly lacking This important sector must be considered not only as a source of amenities or pleasant diversions but also as a wholly integrated part of local economies Employing original data produced through both quantitative and qualitative research Creative Communities provides a greater understanding of how art works as an engine for transforming communities Without good data and analysis much of it grounded in economic theory we cannot hope to strengthen communities through the arts or to achieve any of the other goals we set for the National Endowment for the Arts the largest nationwide funder of the arts from the Foreword by Rocco Landesman Contributors Hasan Bakhshi Nesta UK Elisa Barbour University of California Berkeley Shiri M Breznitz Georgia Institute of Technology Roland J Kushner Muhlenberg College Rex LaMore Michigan State University James Lawton Michigan State Neil Lee Nesta UK Richard G Maloney Boston University Ann Markusen University of Minnesota Juan Mateos Garcia Nesta UK Anne Gadwa Nicodemus Metris Arts Consulting Douglas S Noonan Indiana University Purdue University Indianapolis Peter Pedroni Williams College Amber Peruski Michigan State Michele Root Bernstein Michigan State Robert Root Bernstein Michigan State Eileen Roraback Michigan State Michael Rushton Indiana University Lauren Schmitz New School for Social Research Jenny Schuetz University of Southern California
