Southeast Asian Studies in China Saw Swee-Hock, 2003-08-01 This book a project of the ASEAN China Study Programme of ISEAS is designed to promote a better understanding between the people of the two regions as China continues to exert a dominant political and economic presence in Southeast Asia Needless to say scholars and academics from both sides have a significant role to play in terms of creating greater awareness of each other through research workshops and conferences Whilst many universities and research institutes in the ASEAN region are conducting studies on various aspects of China it is equally important for the Chinese counterparts to be fully engaged in Southeast Asian Studies in order to deepen their knowledge of the region for mutual benefit The book traces the development of Southeast Asian Studies in China discusses the current status of these studies examines the problems encountered in the pursuit of these studies and attempts to evaluate their prospects in the years ahead

China's Economic Development Lee Pei May, 2024-06-21 Through a rigorous examination of China's rise Lee addresses an important question Did China catch up Or more specifically can growth be automatically translated to catching up with the advanced industrialised countries or has it only allowed limited progress if any to be made To answer these queries and the broader question of the possibility of the Global South converging with the Global North four development theories are utilised with competing explanations to uncover the complexity and multifaceted development of China This includes whether China really has a unique developmental model to offer Positioning China within the global economy this book traces its developmental progress over time as well as its progress relative to other countries To understand whether the Chinese political economy is socialist or not Lee moves away from the orthodox definition of socialism and instead examines the official narrative of Socialism with Chinese Characteristics Lastly this book argues that though China is catching up challenges that could potentially block China's progress for a full catch up are to be anticipated A useful resource for students and scholars in the fields of international relations international political economy Chinese studies and development studies

China's Provinces and the Belt and Road Initiative Dominik Mierzejewski, 2021-03-30 This book discusses the Belt and Road Initiative at the provincial level in China It analyses the evolution of the role of local governments in Chinese foreign policy since the opening of China's economy in 1978 showing how the provinces initially competed with each other and how the central government was forced to react developing more centralised policies Unlike other books on the Belt and Road Initiative which focus on the international aspects of the initiative this book demonstrates the importance of the Belt and Road in reinforcing China's unitary status and for managing and coordinating development at the local level as well as centre province relations and province to province relations inside China

Social Change in Contemporary China Wenfang Tang, Burkart Holzner, 2010-11-23 Social Change in Contemporary China offers a wide ranging examination of Chinese institutional change in areas of education religion health care economics labor family and local communities in the post Mao era Based on the

pioneering work of sociologist C K Yang 1911 1999 and his institutional diffusion theory the essays analyze and develop the theory as it applies to both public and private institutions The interrelationship of these institutions composes what Yang termed the Chinese system and affects nearly every aspect of life Yang examined the influence of external factors on each institution such as the influence of Westernization and Communism on family and the impact of industrialization on rural markets He also analyzed the impact of public opinion and past culture on institutions therein revealing the circular nature of diffusion Perhaps most significant are Yang s insights on the role of religion in Chinese society Despite the common perception that China had no religion he uncovers the influence of classical Confucianism as the basis for many ethical value systems and follows its diffusion into state and kinship systems as well as Taoism and Buddhism Writing in the early years of Communism Yang had little hard data with which to test his theories The contributors to this volume expand upon Yang s groundbreaking approach and apply the model of diffusion to a rapidly evolving contemporary China providing a window into an increasingly modern Chinese society and its institutions

Labour Migration and Social Development in

Contemporary China Rachel Murphy, 2008-10-08 Since the mid 1980s mass migration from the countryside to urban areas has been one of the most dramatic and noticeable changes in China Labour migration has not only exerted a profound impact on China s economy it has also had far reaching consequences for its social development This book examines labour migration in China focusing on the social dimensions of this phenomenon as well as on the economic aspects of the migration and development relationship It provides in depth coverage of pertinent topics which include the role of labour migration in poverty alleviation the social costs of remittance and regional gender and generational inequalities in their distribution hukou reform and the inclusion of migrants in urban social security and medical insurance systems the provision of schools for migrants children the provision of sexual health services to migrants the housing conditions of migrants the mobilization of women workers social networks to improve labour protection and the role of NGOs in providing social services for migrants Throughout it pays particular attention to policy implications including the impact of the recent policy shift of the Chinese government which has made social issues more central to national development policies and has initiated policy reforms pertaining to migration

Social Policy and Poverty in East Asia James Midgley, Kwong Leung Tang, 2009-09-11 This book looks at the role of social policy and particularly social security in addressing the ongoing challenge of poverty in East Asia despite the region s spectacular experience of economic growth in recent decades The East Asian miracle resulted over the last four decades in a transformation of the region s traditional agrarian economies and significant increases in standards of living for many ordinary people Even though it was given little attention poverty has remained an ongoing problem The problem became particularly evident however with the Asian financial crisis of 1997 when many low income and middle class workers became unemployed As a result of this crisis the need for effective social policies and social security programs were recognized The idea that economic growth would solve the problem of poverty was increasingly challenged Even in China

today where rapid growth has created new employment opportunities and the promise of prosperity for many the government has recognized that the problem of poverty cannot be addressed only through economic growth but that comprehensive social policies must be formulated and this includes the development of an effective security system
