

## The Future of Economics: An Islamic Perspective (Islamic Economics)

This profound book is a powerful yet balanced critique of mainstream economics that makes a forceful plea for taking economics out of its secular and occident-centred cocoon. It presents an innovative and formidable case to re-link economics with moral and egalitarian concerns so as to harness the discipline in the service of humanity. M. Umer Chapra is ranked amongst the Top 50 Global Leaders in Islamic economics (ISLAMICA 500, 2015) and has been awarded with two prestigious awards for his contributions to the field: Islamic Development Bank Award for Islamic Economics (1989) and the King Faisal International Prize for Islamic Studies (1989).

Applying a multidimensional approach to socio-economic development, the book contends that Islam offers a unique perspective and framework for sustainable development that is holistic and rooted in spirituality, morality and ethics. For example, the book explains how Islam lays emphasis on human talents development (SDG 3 and 4), which is a key element in accelerating socio-economic growth (SDG 8). It also offers a wide range of social financial tools such as Zakat, waqf, that can be used to address SDG 1 (poverty), 2 (hunger), 5 (gender equality) and 10 (reducing inequality). Islamic finance offers a number of tools for long-term financing such as sukuk, that can masterfully be used for building sustainable infrastructure (SDG 9). The study also reviews some Islamic principles from the Holy Qur'an that can positively address SDGs. Students, scholars and researchers in the fields of Islamic Economics and Finance, sustainable development and socio-economic and environmental issues will find the book a valuable resource.
