Haydn A Documentary Study:

Haydn Howard Chandler Robbins Landon, 1981 *The Austrian Enlightenment and Its Aftermath* Ritchie Robertson, Edward Timms, 1991 **Sourcebook for Research in Music, Third Edition** Allen Scott, 2015-06-01 Since it was first published in 1993 the Sourcebook for Research in Music has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty and professional musicians and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions, bibliographic terms in German, French and Italian and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology, performance practice, women in music, popular music, education, business and music technology. These enhancements to its already extensive bibliographies ensure that the Sourcebook will continue to be an indispensable reference for years to come.

The Biography Book Daniel S. Burt, 2001-02-28 From Marilyn to Mussolini, people captivate people. A.E.'s Biography, best-selling autobiographies and biographical novels testify to the popularity of the genre. But where does one begin? Collected here are descriptions and evaluations of over 10,000 biographical works, including books of fact and fiction, biographies for young readers and documentaries and movies, all based on the lives of over 500 historical figures, from scientists and writers to political and military leaders to artists and musicians. Each entry includes a brief profile, autobiographical and primary sources and recommended works. Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title, helping readers to find the best biographical material available on hundreds of fascinating individuals.

Cherubino's Leap Richard Kramer, 2016-11-21 For the Enlightenment mind, from Moses Mendelssohn's focus on the moment of surprise at the heart of the work of art to Herder's imagining of the seismic moment at which language was discovered, it is the flash of recognition that nails the essence of the work, the blink of an eye in which one's world changes. In Cherubino's Leap, Richard Kramer unmask such prismatic moments in iconic music from the Enlightenment: from the chromatic moment, the single tone that disturbs the thrust of a diatonic musical discourse and its deployment in seminal instrumental works by Emanuel Bach, Haydn and Mozart; on to the poetic moment, taking the odes of Klopstock in their finely wrought prosody as a challenge to the problem of strophic song; and finally to the grand stage of opera, to the intense moment of recognition in Gluck's Iphigénie en Tauride and the exquisitely introverted phrase that complicates Cherubino's daring moment of escape in Mozart's Figaro. Finally, the tears of the disconsolate Konstanze in Mozart's *Die Entführung aus dem Serail* provoke a reflection on the tragic aspect of Mozart's operatic women. Throughout, other players from literature and the arts, Diderot, Goethe, Lessing among them, enrich the landscape of this bold journey through the Enlightenment imagination.

Beethoven's Dedications Artur Pereira, 2020-12-30 The dedication of a piece of music is a feature generally overlooked but it can reveal a great deal about the work the composer the society and the music world in which the composer lived This book explores the musical biographical and sociological aspects of the practice of dedicating new compositions in the late 18th and early 19th centuries and makes a significant contribution towards a better understanding of the impact these tributes had on Beethoven's life and work and their function within the context of the musical cultural and economic environments in which they appeared As the first of its kind this study demonstrates that as a result of their different functions published dedications and handwritten inscriptions are distinct from one another and for that reason they have been classified in different categories This book therefore challenges the idea of what exactly can be termed as a dedication a concept which extends far beyond the dedication of musical works

Women and the Piano Susan Tomes,2024-03-05 Women are an essential part of the history of the piano but how many women pianists can you name Throughout most of the piano's history women pianists lacked access to formal training and were excluded from male dominated performance spaces Even the modern piano's keys were designed without consideration of women's typically smaller hands Yet despite their music being largely confined to the domestic sphere women continued to play perform and compose on their own terms Celebrated pianist and author Susan Tomes traces fifty such women across the piano's history Including now famous names such as Clara Schumann and Fanny Mendelssohn Tomes also highlights overlooked women from H l ne de Montgeroult whose playing saved her life during the French Revolution to Leopoldine Wittgenstein influential Viennese salonni re and Hazel Scott the first Black performer in the United States to have a nationally syndicated TV show From Maria Szymanowska to Nina Simone and including interviews with women performing today this is a much needed corrective to our understanding of the piano and a timely testament to women's musical lives

Music-in-Action Tia DeNora,2017-07-05 This volume brings

together DeNora's work published between 1986 and 2007. It includes thirteen essays some of which have had a major impact on the field. The chapters trace the development of her work from its early concern with musical meaning, historical ethnography and the everyday perspective to its current focus on music in action. Topics covered include Adorno on Schoenberg and Stravinsky, a theory of music as a space and place for interpretive work, research methods for historical musicology and the first key statement of her theory of music as an active ingredient in social life. These building blocks are then employed to investigate music and embodied experience, sexuality and gender differentiation and music's role as a technology of health. The essays are set in a multi-disciplinary context with an autobiographical introduction. Playbill, 2000

Beethoven and the Grosse Fuge Robert S. Kahn, 2010-06-01. The Grosse Fuge composed by Ludwig van Beethoven in his late period has an involved and complicated history. Written for a string quartet but published as an independent work, the piece raises interesting questions about whether music without words can have meaning and invokes speculation about the composer and his frame of mind when he wrote it. Kahn looks closely at the musical, aesthetic, philosophical and historical problems the work raises, considering its history, structure and development, meaning and response among critics and contemporaries. Kahn also studies Beethoven's difficulties with publishers and sponsors, his everyday life and his character in light of recent advances in the pharmacology of depressive illness. The book places both Beethoven and the Grosse Fuge in their historic and social contexts, arguing that Beethoven intended the Fuge as the finale of his String Quartet Opus 130 and created a substitute finale for the quartet at his publisher's urging not because he was unhappy with the work. Beethoven is examined as a freelance musician, a vocation whose members were frequently excluded from society and the protection of its laws, including respect for copyright. Viewed in this light, Beethoven's famous quirks and resentments become understandable, even rational. Kahn also devotes a chapter to the phenomenon of synesthesia, a sense of motion through three-dimensional volumes of space, examining how some works of Western music can evoke synesthesia in listeners. He also speculates that Beethoven's creative dry spell in his late 40s was caused by an extended bout with clinical depression. Written for a general audience and including a bibliography and index, this fascinating study will interest scholars and fans of classical music and Beethoven.

Terror and Toleration Paula S. Fichtner, 2008-02-15. From the fourteenth to the eighteenth centuries, the armies of the Ottoman empire brought terror in the name of Islam to much of the Christian world. Intermittently but relentlessly, the Sultans' forces raided then conquered the Danube Valley as far as Budapest and beyond. Their inexorable progress westward eventually brought them into conflict with the dynastic confederation created in central and eastern Europe by the Austrian Habsburgs. Repeatedly faced with virtual annihilation by superior Muslim forces, the ruling powers in Vienna fought to mobilise the minds as well as the military resources of their subjects in order to save both their faith and their soil. The propaganda developed by both government and church, particularly the Roman Catholic variant, created then reinforced many of the negative stereotypes of Muslims that are still familiar to Europeans today.

Gradually after the middle of the seventeenth century Habsburg rulers and officials came to see that its political and military survival required solid information about the Muslim foe that prejudiced ideas did not supply In *Terror and Toleration* Paula Sutter Fichtner traces the story of this change of heart and mind in government and intellectual circles throughout the Habsburg empire This episode shows she argues that it is possible to form and disseminate negative views of an enemy for political and strategic reasons yet be able to reconfigure those views as circumstance and necessity dictates A highly original account of a fascinating historical and cultural encounter this book gives readers a close view of how a Western empire not only survived Islamic aggression but in the process learned how to consider and even work with Muslims positively and productively Publisher s website
