Read an interview with Karen Thornber In Global Healing Literature Advocacy Care. Karen Laura Thornber analyzes how narratives from diverse communities globally engage with a broad variety of diseases and other serious health conditions and advocate for empathic, compassionate, and respectful care that facilitates healing and enables wellbeing. The three parts of this book discuss writings from Africa, the Americas, Asia, Europe, the Middle East, and Oceania that implore societies to shatter the devastating social stigmas which prevent billions from accessing effective care, to increase the availability of quality, person-focused healthcare, and to prioritize partnerships that facilitate healing and enable wellbeing for both patients and loved ones. Thornber's *Global Healing* remaps the contours of comparative literature, world literature, the medical humanities, and the health humanities. Watch a video interview with Thornber by the Mahindra Humanities Center, part of their conversations on Covid-19. Read an interview with Thornber on Brill's Humanities Matter blog.     **Harmonic Healing**

Zachary Comeaux,2008. Connective tissue release or myofascial release is a major component of manual therapies including osteopathic medicine. Most methods involve placing the patient in a passive, relaxed position for diagnosis and treatment. However, many practitioners have intuitively sensed that rhythmic motion should be a component of therapy and increasingly include it in their practice. *Harmonic Healing* introduces such an application of connective tissue principles which author Dr. Zachary Comeaux calls Facilitated Oscillatory Release (FOR). The book reviews the role of oscillatory or vibratory work as an extension of other connective tissue techniques, explains the relevant physiology and the principles of wave propagation in tissue, and then provides illustrated introductory exercises, applications, and case studies. Building on the work of his mentor Robert Fulford to get more deeply into the core of patients' injuries, Dr. Comeaux presents FOR as a lens through which to reinterpret the strategic use of force in manual therapy, including osteopathic manipulation. Based on both his clinical experience and neurophysiology principles, the author develops practical applications of these principles. These methods are compatible with generally accepted manual methods, and *Harmonic Healing* shows students, advanced practitioners, bodyworkers, and osteopaths how to integrate FOR into a variety of manual healing approaches.     *Wings of Healing* Grace Cathedral (San Francisco, Calif.). *Mission of Healing*,1928     **National Healing** Claude Hurlbert,2013-02-01. In *National Healing*, author Claude Hurlbert persuasively relates nationalism to institutional racism and contends that these are both

symptoms of a national ill health afflicting American higher education and found even in the field of writing studies Teachers and scholars even in progressive fields like composition are unwittingly at odds with their own most liberatory purposes he says and he advocates consciously broadening our understanding of rhetoric and writing instruction to include rhetorical traditions of non Western cultures Threading a personal narrative of his own experiences as a student professor and citizen through a wide ranging discussion of theory pedagogy and philosophy in the writing classroom Hurlbert weaves a vision that moves beyond simple polemic and simplistic multiculturalism National Healing offers a compelling new aesthetic epistemological and rhetorical configuration
