Anarchism/Minarchism Roderick T. Long,2016-04-08 It is well known that the radical libertarian philosopher Robert Nozick sharply distinguished his vision of the free society from egalitarian liberals such as John Rawls Less remarked upon is the distinction he drew between the free society governed by a strictly limited government commonly referred to as minarchism and the society without any government at all anarchism In this volume the editors Long an anarchist and Machan a minarchist have brought together a selection of specially commissioned essays from key theorists actively involved in this debate Each tackles the question of whether or not a government forms a legitimate part of a free society or whether anarchy minarchy is merely a distinction without a difference **Journal of Peace, Prosperity and Freedom** Walter Block,Chris Leithner,2015-01-01 Volume 3 2014 of the Journal of Peace Prosperity and Freedom contains the following 151 pages of contents Editor s note Articles The myth of democratic peace Why democracy cannot deliver peace in the 21st

Block,Peter L. Nelson,2015-10-30 Water covers some 75% of the earth s surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of

some species e g whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water

Building A State of Responsible Democracy Algimantas Valentinas Indriūnas,2016-02-24 The states that have gained their independence or have been established in the post war period are usually called democracies but lately there has been more and more criticism directed towards democracy A specifically pessimistic tune particularly stands out stating that democracy can only function properly given a society with strong moral convictions Looking at these negative opinions in more detail reveals the real reasons for this phenomenon We arrive at the conclusion that the functioning of democracy could be improved

Miller (Jr.), Jeffrey Paul, 1998-10-13 These essays assess market liberal or libertarian political theory They provide insights into the limits of government develop market oriented solutions to pressing social problems and explore some defects in traditional libertarian theory and practice Some of the essays deal with crucial theoretical issues asking whether the promotion of citizens welfare can serve as the justification for the establishment of government or inquiring into the constraints on individual behavior that exist in a liberal social order Some essays explore market liberal or libertarian positions on specific public policy issues such as affirmative action ownership of the airwaves the provision of healthcare or the regulation of food and drugs Other essays look at property rights the morality of profit making or the provision of public goods Still others address libertarianism as a political movement suggesting ways in which libertarians can reach out to those who do not share their views
