HEALING THE LAND Tom Donnan, 2013-05-19 Mediocrity in our churches is becoming fatal Without demonstrations of God's supernatural power we lack credibility We need places where an intersection of heaven and earth exist God is about to release a sweeping revival It will not be pockets of revival for temporary seasons but rather a healing of the land where churches become a Holy of Holies and the presence of God abides with us Healing the Nation brings a dynamic vision of this new move of God outlining what it will look like and how each believer can be a part of it moving through repentance to a powerful walk in Christ

Peoples and Places Matthew Hirt, 2022-05-27 Jesus's final command to his disciples was to make disciples of all nations But who are the nations How do we know we are being obedient to the task Do our current lists of ethnolinguistic people groups sufficiently answer the question For the last fifty years missiologists and missionaries have discussed this topic but much of the conversation has been focused on definitions that give little attention to biblical theology When we explore how the Bible describes the nations we find some other categories that have been

overlooked forgotten or set aside in the development of missions strategy Geography is one of these categories However this is not simply bringing current geo political entities back into our missions strategy Instead Matthew Hirt is calling on missiologists missions researchers and missionaries on the field to discover how people groups identify their own geographies and in turn how that geography contributes to a people group s identity **Odagahodhes** Gae Ho Hwako Norma Jacobs, *The Circles of Odagahodhes*, 2022-07-15 In the words of Cayuga Elder Gae Ho Hwako Norma Jacobs We have forgotten about that sacred meeting space between the Settler ship and the Indigenous canoe odagahodhes where we originally agreed on the Two Row and where today we need to return to talk about the impacts of its violation Odagahodhes highlights the Indigenous values that brought us to the sacred meeting place in the original treaties of Turtle Island particularly the Two Row Wampum and the sharing process that was meant to foster good relations from the beginning of the colonial era The book follows a series of Indigenous sharing circles relaying teachings by Gae Ho Hwako and the responses of participants scholars authors and community activists who bring their diverse experiences and knowledge into reflective relation with the teachings Through this practice the book itself resembles a teaching circle and illustrates the important ways tradition and culture are passed down by Elders and Knowledge Keepers The aim of this process is to bring clarity to the challenges of truth and reconciliation Each circle ends by inviting the reader into this sacred space of Odagahodhes to reflect on personal experiences stories knowledge gifts and responsibilities By renewing our place in the network of spiritual obligations of these lands Odagahodhes invites transformations in how we live to enrich our communities nations planet and future generations [Speak to the Earth](#) Rev. Qaumaniq Suuqiina, Iglahliq Suuqiina, 2013-01-10 book explores a biblical understanding of what defiles the land and how to heal the land from any and all defilements **Mission in Marginal Places: The Praxis** Michael Pears, Paul Cloke, 2016-09-01 The second book in the series focuses on participation and practice and discusses a range of ways in which Kingdom centred mission can be embedded in the actually existing realms of activity and need in marginal places The book explores five different realms of practice each presenting opportunities for innovative expressions of incarnational attentiveness to marginalized communities and people It seeks to inspire prayerful and discerning activity that tunes into what Jesus is doing in local places rather than providing any kind of off the shelf checklist of prefigured mission tactics It challenges readers to take their faith praxis beyond orthodox congregational settings and out into the everyday realms of life in marginal places **Inherited Land** Whitney A. Bauman, Richard R. Bohannon II, Kevin J. O'Brien, 2011-08-04 Religion and ecology has arrived What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts graduate programs regular meetings at academic conferences and growing interest from other academics and the mass media Theologians ethicists sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems including the sorts

of methodological terminological and substantive debates that characterize any academic discourse This book recognizes the field that has taken shape reflects on the ways it is changing and anticipates its development in the future The essays offer analyses and reflections from emerging scholars of religion and ecology each addressing her or his own specialty in light of two questions 1 What have we inherited from the work that has come before us and 2 What inquiries concerns and conversation partners should be central to the next generation of scholarship The aim of this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue *Being Latino in Christ* Orlando Crespo, 2003-11-10 Exploring what the Bible says about ethnic identity and drawing on his own journey to self understanding Orlando Crespo helps you discover for yourself what it means to be Latino American and most importantly a disciple of Christ

Blood Cries Out A. J. Swoboda, 2014-11-11 John McConnell Jr was the famed founder and visionary of Earth Day McConnell s vision was one of creating a day of remembrance solitude and action to restore the broken human relationship to the land Little acknowledged are McConnell s religious convictions or background McConnell grew up in a Pentecostal home In fact McConnell s parents were both founding charter members of the Assemblies of God in 1914 His own grandfather had an even greater connection to the origins of Pentecostalism by being a personal participant at the Azusa Street Revival in Los Angeles in 1906 Earth Day thus began with strong religious convictions McConnell seeing the ecological demise through his religious background envisioned a day where Christians could show the power of prayer the validity of their charity and their practical concern for Earth s life and people In the spirit of McConnell today s Pentecostal and Charismatic theology has something to say about the earth *Blood Cries Out* is a unique contribution by Pentecostal and Charismatic theologians and practitioners to the global conversation concerning ecological degradation climate change and ecological justice *Healing Grounds* Liz Carlisle, 2022-03-10 A powerful movement is happening in farming today farmers are reconnecting with their roots to fight climate change For one woman that s meant learning her tribe s history to help bring back the buffalo For another it s meant preserving forest purchased by her great great uncle among the first wave of African Americans to buy land Others are rejecting monoculture to grow corn beans and squash the way farmers in Mexico have done for centuries Still others are rotating crops for the native cuisines of those who fled the American wars in Southeast Asia In *Healing Grounds* Liz Carlisle tells the stories of Indigenous Black Latinx and Asian American farmers who are reviving their ancestors methods of growing food techniques long suppressed by the industrial food system These farmers are restoring native prairies nurturing beneficial fungi and enriching soil health While feeding their communities and revitalizing cultural ties to land they are steadily stitching ecosystems back together and repairing the natural carbon cycle This Carlisle shows is the true regenerative agriculture not merely a set of technical tricks for storing CO2 in the ground but a holistic approach that values diversity in both plants and people Cultivating this kind of regenerative farming will require

reckoning with our nation's agricultural history a history marked by discrimination and displacement And it will ultimately require dismantling power structures that have blocked many farmers of color from owning land or building wealth The task is great but so is its promise By coming together to restore these farmlands we can not only heal our planet we can heal our communities and ourselves

Restored to Earth Gretel Van Wieren, 2013-07-09 Ecological restoration integrates the science and art of repairing ecosystems damaged by human activities Despite relatively little attention from environmental ethicists restoration projects continue to gain significance drawing on citizen volunteers and large amounts of public funds providing an important model of responding to ecological crisis Projects range from the massive multi billion dollar Kissimmee River project restoring 25 000 acres of Everglades wetlands to the 30 million effort to restore selected wetlands in industrial Brownfield sites in Chicago's south side Lake Calumet area to the reintroduction of tall grass prairie ecosystems in various communities in the Midwest Restored to Earth provides the first comprehensive examination of the religious and ethical dimensions and significance of contemporary restoration practice an ethical framework that advances the field of environmental ethics in a more positive action oriented experience based direction Van Wieren brings together insights and examples from restoration ecology environmental ethics religious studies and conservation and Christian thought as well as her own personal experiences in ecological restoration to propose a new restoration ethic grounded in the concrete hands on experience of humans working as partners with the land

Habel,Vicky Balabanski,2002-10-01 The Earth Bible is an international project including volumes on ecojustice readings of major sections of the Bible The basic aims of the Earth Bible project are to develop ecojustice principles appropriate to an Earth hermeneutic for interpreting the Bible and for promoting justice and healing for Earth to publish these interpretations as contributions to the current debate on ecology ecoethics and ecotheology to provide a responsible forum within which the suppressed voice of Earth may be heard and impulses for healing Earth may be generated The project explores text and tradition from the perspective of Earth employing a set of ecojustice principles developed in consultation with ecologists suspecting that the text and or its interpreters may be anthropocentric and not geocentric but searching to retrieve alternative traditions that hear the voice of Earth and value Earth as more than a human instrument The lead article in

Volume V is a reflection in responses to the ecojustice principles employed in the hermeneutic of the project Several articles offer insights into New Testament texts that seem to devalue Earth in favour of heaven The final article by Barbara Rossing challenges the popular apocalyptic notion that in the new age Earth will be terminated A feature of this volume is a dialogue between Norman Habel who argues that John One seems to devalue Earth and two respondents Elaine Wainwright and Vicky Balabanski who is coeditor of this volume with Norman Habel 1 **Frankinsence and Peppermint** G.
