Health Care in Crisis Thomas Bodenheimer,1980-02      **Issues in the Political Economy of Health Care** John B. McKinlay,2022-05-24 Originally published in 1984 this book attempted to fill a gap by providing a broad ranging structural analysis of the health care sector and the political and economic forces which influence its shape and contents both in the western world and developing countries The contributors examine the relationships of capitalism to health care in terms of its influence on the physical environment the incidence of social diseases and the prevailing 20th Century view of what constitutes health itself and in terms of the consequences of the new medical industrial complex it has created such as the declining provision of health care for the poor and disadvantaged and the growing power of the pharmaceutical industry

*Mismanaged Money in American Healthcare* Lisa Famiglietti,Mark Scott,2023-09-01 Warren Buffett famously invoked the metaphor of a tapeworm when describing what healthcare is to the American economy The United States spends approximately 20% of its gross national product on healthcare but it is unclear where the money goes or who is minding the store This healthcare crisis is mostly about money not lack of money but rather misspending of money From the perspective of a healthcare auditor and provider this work describes the problems of American healthcare finance and proposes solutions Extensive charts and graphs are used to trace where money goes in the American healthcare system while other topics such as ethics in healthcare billing un auditable hospital costs and scams are discussed There is evidence that clearly identifies where the money goes and its destination may surprise the reader      *Challenges and Innovations in U.S. Health Care* Allen W. Imershein,2019-03-01 Increased concern in the 1960s about the quality and availability of health care in the United States prompted a variety of attempts to develop new policies and to modify the existing health care system The authors of this book review some of those attempts and provide critical commentary on a broad range of new and continuing problems Their succinct review of many vital aspects of the current health care system clearly demonstrates the successes and failures of health care policy and its impact on the overall system The authors discuss consumer involvement in the health care system the development of neighborhood health clinics health maintenance organizations and health systems agencies veterans medical care chiropractic the use of non physicians in care changing ideologies among physicians and the impact of health education A variety of analytical perspectives are used to evaluate the many issues raised ranging from a highly critical Marxist commentary on fundamental flaws in the U S health system to a pluralist analysis of how the current system might be made to work better      Allocating Health Resources Anne Fox Kiger,1986      **Literature Search** National Library of Medicine (U.S.),1986      **Current Catalog** National Library of Medicine (U.S.),1980 Includes subject section name section and 1968 1970 technical reports      **Library of Congress Catalogs** Library of Congress,1980      *National Union Catalog* , Includes entries for maps and atlases      National Union Catalog, 1980 ,1981      **Crime and Social Justice** ,1978      **American Book Publishing Record** ,1983-04      **Strategies for the Class Struggle in Latin America** Susanne
