across Baur's wide range of exegetical, historical, philosophical and theological expertise. In these excerpts, including many translated for the first time, readers gain a comprehensive overview of Baur's output and his remarkable role in the shaping of modern scholarly discourse in his fields. Beginning with a full scholarly introduction and extensively annotated texts, readers are introduced to Baur's bold and controversial historical hypotheses and encounter the variety of intellectual and stylistic registers he used, from the purely scholarly to the sharply polemical. The editors also explore the ways in which Baur was instrumental in some of the most fundamental intellectual paradigm shifts of the 19th century, including the radical historicization of Christian theology and its interaction with Schelling, Hegel, and the German Idealist tradition.
