Coffino,2017-07-25 In basketball as in most sports a large part of a coach s responsibility is to prepare his or her team for games Yet little time in practice is typically devoted to readying the players and coaches for specific game situations For instance what are the various ways to use dead ball moments to maximum advantage What adjustments should be made to launch a comeback in particular circumstances When is it favorable to purposefully miss a foul shot In Odds On Basketball Coaching Crafting High Percentage Strategies for Game Situations Michael J Coffino presents an innovative system for coaches to prepare for specific game scenarios Coffino challenges coaches to think differently about what they emphasize in practice placing greater value on preparing for recurring game situations crafting strategies by assessing the odds and creating a culture that elevates how players think about the game Each chapter begins with an actual game scenario that illustrates the chapter s content and includes discussions of notable college and professional basketball games in order to demonstrate specific points Odds On Basketball Coaching provides a framework for making game decisions beyond instincts and habits It is intended more than anything to stimulate coaches and players to think comprehensively and realistically about how to approach games and practices fostering an environment where everyone can more incisively make game time decisions While high school and youth basketball coaches will find this book most helpful coaches at all levels will benefit from this novel approach to the game **Treaties & Agreements of the Indian Tribes of the Pacific Northwest** United

A pedagogical approach of kendo: Keiken Suru Stevie Roquelaure, 2021-04-23T00:00:00Z The word kendo means the way of the sword Well beyond the technical skills it relates to our emotional and intellectual skills If in Japan and more generally in Asia this multidimensionality of kendo is straightforward and fully apprehend this is not yet the case all around the World where the practice of kendo still needs to gain maturity to blossom The heart strength and soul of the Japanese kendo is undeniable and we must inspire ourselves from its rich history However we have to be careful of the shortcut residing in the temptation of a copy and paste This easy way will lead to the edification of a fake kendo without any character and soul On the contrary we should inspire ourselves from the Japanese reference to build a kendo culture that will rely on our own experience and traditions the roots of our strength and singularity This book proposes a multidimensional pedagogical approach of both learning and teaching kendo where beginners as well as experts are going to find relevant and practical materials for daily practice Moreover any isolated trainee can find in this manual references to guide his practice and monitor his improvements Keiken suru means to make the experience so Embrace your own Experience with Force Efficiency and Soberness
