Heads Of State And Government:

Nigeria's Heads of State and Government Sam Iroanusi, Benedict Eke, 1997 Heads of State and Government John V. Da Graca, 1985-06-18 *The Identity of Governments in International Law* Niko Pavlopoulos, 2024-03-13

The Identity of Governments in International Law provides a comprehensive account of the international legal regulation of governmental status. It examines the fundamental conceptual aspects of the government of a state in international law before analysing the law concerning the recognition of governments and the criteria for governmental status under customary international law. It also explores matters concerning the identity of governments in the context of international organizations. Presenting the positive international legal framework concerning the regulation of governmental status, the book engages extensively with historical and contemporary examples such as the rival governments of Cambodia 1970-75, 1979-89, 1997-98, the recognition of the Taliban 1996-2001 and again beginning in 2021, and the contested identity of Venezuela's president beginning in 2019. Given the pre-eminence of states in international law and the importance of governments to the representation of states, the systematic examination of practice grounded in solid conceptual foundations renders this book a useful reference point for scholars and practitioners in all fields of international law and beyond.

Heads of Mission Gail P. Guy, Dennis Francis, Lenore S. Dorset, 2018-07-17. I consider this work an excellent comprehensive manual for new and practicing diplomatic officers and I applaud the authors for their foresight in producing it. This handbook should become essential reading for diplomats as it covers matters that appear simple on the surface but indeed are very critical to the successful execution of one's job as a diplomat. Keith Franklin GCM, former ambassador of Barbados to the Bolivarian Republic of Venezuela, former permanent secretary to the prime ministers' office and retired cabinet secretary to the government of Barbados, West Indies. This handbook for Heads of Mission is well thought out, clearly written, very timely, correctly sequenced and will prove to be both practical and useful. Mervyn I. Assam, former high commissioner for the Republic of Trinidad and Tobago to the United Kingdom, former minister of Foreign Affairs, former ambassador extraordinary and plenipotentiary with responsibility for trade and industry. A crash course in diplomacy and the use of its tools. Gives one a practical understanding of the weighty nature of the post of Head of Mission. This handbook not only emphasizes the importance of understanding that this responsibility is full time but also the importance of the need to prepare adequately for this responsibility. Through the comprehensive way in which the authors have dealt with the diplomatic process, it is a handbook which greatly contributes to ensuring that a Head of Mission is adequately equipped for the leadership role in the delivery of desired national outcomes. Sonia Johnny, attorney at law, former ambassador of St. Lucia to the United States of America.

Handbook of International Law Anthony Aust, 2005-10-27. A concise account of international law by an experienced practitioner. This book explains how states and international organisations, especially the United Nations, make and use international law. The nature of international law and its fundamental concepts and principles are described. The difference

and relationship between various areas of international law which are often misunderstood such as diplomatic and state immunity and human rights and international humanitarian law are clearly explained The essence of new specialist areas of international law relating to the environment human rights and terrorism are discussed Aust's clear and accessible style makes the subject understandable to non international lawyers non lawyers and students Abundant references are provided to sources and other materials including authoritative and useful websites Global Governance and Regulatory Failure R. Goldbach, 2015-06-29 The author provides a theoretical framework of the global political economy of banking regulation and analyses the policies and politics of the Basel Committee on Banking Supervision He demonstrates how global governance has contributed to the onset of the Great Recession and continues to increase the likelihood of future global financial crises

Who's Bigger? Steven Skiena, Charles B. Ward, 2014 Is Hitler bigger than Napoleon Washington bigger than Lincoln Picasso bigger than Einstein Quantitative analysts are rapidly finding homes in social and cultural domains from finance to politics What about history In this fascinating book Steve Skiena and Charles Ward bring quantitative analysis to bear on ranking and comparing historical reputations They evaluate each person by aggregating the traces of millions of opinions just as Google ranks webpages The book includes a technical discussion for readers interested in the details of the methods but no mathematical or computational background is necessary to understand the rankings or conclusions Along the way the authors present the rankings of more than one thousand of history's most significant people in science politics entertainment and all areas of human endeavor Anyone interested in history or biography can see where their favorite figures place in the grand scheme of things **How Regional Organizations Sustain Authoritarian Rule** Maria J. Debre, 2025-02-11

Authoritarian regional organizations have experienced a remarkable rise in numbers and importance Autocracies across the world have joined organizations such as the Shanghai Cooperation Organization SCO the Gulf Cooperation Council GCC and the Bolivian Alliance for the People of Our America ALBA over the last few decades But why do autocracies institutionalize cooperation and join regional organizations considering the possible sovereignty costs Do authoritarian regional organizations differ from their democratic counterparts in terms of activities and design What are the domestic effects of membership for authoritarian rule How Regional Organizations Sustain Authoritarian Rule explores the rise in and the impact of authoritarian regional organizations the Dictators Clubs in world politics It examines how and why incumbent autocratic regimes sort into regional authoritarian organizations compares their activities and designs to their democratic counterparts and considers the political effects on member states With a combination of statistical survival analysis and case studies from the Middle East Eur Asia Sub Saharan Africa and Latin America Maria J Debre reveals that regional organizations have helped to defend autocratic regimes from pro democratic protestors co opt political elites legitimize flawed elections regulate behavior among members to prevent unwanted domestic interference and shield regimes against the fallout from international sanctions While regionalism has long been associated with the aspiration of states to promote

democracy and human rights Debre illustrates that these dictators clubs bolster authoritarian rule worldwide Heads of States and Governments Since 1945 Harris M. Lentz,2014-02-04 More than half the nations that exist today have gained their independence since 1945 During this period over 2 300 individuals have ruled the various nations of the world this encyclopedia offers insight into the history of individual nations through the lives of their leaders Outstanding Academic Book World Leaders Jean Blondel,1980 **FEDERAL GOVERNMENT OF THE UNITED STATES** Jock Pan,2010-05-20 FEDERAL GOVERNMENT OF THE UNITED STATES This Book is Federal Government Book it should not be under estimated by any Faculty or Individual The book contains all roles of President United States Congress United States Judiciary and United States Inner Executive Departments are United States Department of States United States Department of Treasury United States Department of Defense United States Department of Justice and United States Department of Homeland Security and others Offices that have Rank of Cabinet Level and they are Vice President of the United States Office Executive Office of the President White House Office of Budget and Management Office of the U S Trade Representative Environmental Protection Agency United States Mission to United Nations United States Council of Economic Advisors United States Department of Army Forces United States Department of Air Forces United States Department of Naval Operations United States Marine Corps Commands and United States of America s short history and United States Constitution However the above mentioned Departments have more than one thousand Agencies Author Pan *Regional Approaches to the Responsibility to Protect* Jochem Rietveld,2023-02-10 This book studies regional approaches to the Responsibility to Protect R2P in Europe and West Africa The work assesses how and to what extent the European Union EU and the Economic Community of West African States ECOWAS have internalised the norm both generally in institutions policies and programs and specifically in crisis situations of R2P concern such as the 2011 Libyan crisis and 2012 Malian crisis It provides a historical analysis of how the two regional organisations have dealt with questions of sovereignty security and human rights since their founding as well as an analysis of some of the European and West African roots of the R2P norm This reflects the notion that global norms are often informed by local and regional practices and that this needs to be recognised in order to fully understand regional responses to alleged global norms The book uses process tracing to trace the regional internalisation of R2P and has benefited from qualitative research interviews with EU and ECOWAS stakeholders One of the key findings is that ECOWAS and West Africa have delivered a key contribution to the norm construction of R2P a finding insufficiently recognised in the current literature This book will be of much interest to students of the Responsibility to Protect EU human rights and foreign policy African politics security studies and International Relations in general The Law of State Immunity Hazel Fox,Philippa Webb,2013-08-29 The doctrine of state immunity bars a national court from adjudicating or enforcing claims against foreign states This doctrine the foundation for high profile national and international decisions such as those in the Pinochet case and the Arrest Warrant cases has always been controversial The reasons for the

controversy are many and varied Some argue that state immunity paves the way for state violations of human rights Others argue that the customary basis for the doctrine is not a sufficient basis for regulation and that codification is the way forward Furthermore it can be argued that even when judgments are made in national courts against other states the doctrine makes enforcement of these decisions impossible This fully restructured new edition provides a detailed analysis of these issues in a more clear and accessible manner It provides a nuanced assessment of the development of the doctrine of state immunity including a general comprehensive overview of the plea of immunity of a foreign state its characteristics and its operation as a bar to proceedings in national courts of another state It includes a coherent history and justification of the plea of state immunity demonstrating its development from the absolute to the restrictive phase arguing that state immunity can now be seen to be developing into a third phase which uses immunity allocate adjudicative and enforcement jurisdictions between the foreign and the territorial states The United Nations Convention on Jurisdictional Immunities of states and their Property is thoroughly assessed Through a detailed examination of the sources of law and of English and US case law and a comparative analysis of other types of immunity the authors explore both the law as it stands and what it could and should be in years to come *English and State Government* United States. American State Government John Mabry Mathews,1924 **Profiles of People in Power** Roger East,Richard J. Thomas,2014-06-03 Biographical profiles of the current head of state and head of government and other recent incumbents of these positions who remain significant and active political leaders **Head of State Immunity under the Malabo Protocol** Kobina Egyir Daniel,2021-09-20 In Head of State Immunity under the Malabo Protocol Triumph of Impunity over Accountability Kobina Egyir Daniel engages the subject of Head of State Immunity in international law against the backdrop of the African Union AU s decision to create a Court with international criminal jurisdiction before which Heads of State or persons entitled to act in such capacity will have immunity during incumbency The AU asserts in justification not only that it is standing up for itself against neo colonialist imperialist forces which have perverted international criminal justice and target African States through the International Criminal Court ICC but also that it is preserving the very soul of international criminal justice as well as customary international law on immunities Beyond the analysis to determine whether the immunity that the AU s Malabo Protocol of 2014 confers represents a retrogression in international law norms that seek accountability for jus cogens crimes Daniel provides valuable insights into the status inspired dialectics and self serving hero villain polemics that fuel contestations of right between the AU and the ICC and the worldviews that respectively seek to overturn preserve the asymmetry of the international legal order Through a review of legal history case law from national and international tribunals state practice and academic expositions the book examines the evolution and practice of Head of State immunity as well as recent trends in the practice of the doctrine in light of the countervailing push to establish exceptions to immunity in order to ensure accountability under international human rights and international criminal law **An Outline**

of International Law Dominique De Stoop,2019-04-01 Written by Dr Dominique De Stoop former Senior Assistant Secretary of the International and General Legal Branch of the Australian Ministry of Foreign Affairs and Trade An Outline of International Law offers a clear comprehensive explanation of the multifaceted realm of international law Dr De Stoop provides background information on the sources of international laws their scope and their effectiveness Each chapter covers a specific area of law including the following Treaty negotiations State sovereignty Human rights and refugee rights Criminal offences and terrorism The law of the sea and international shipping law Environmental law and conservation International and domestic armed conflicts Disarmament and arms control Economic and trade law A valuable resource for law students civil servants and members of intergovernmental organizations An Outline of International Law is your inclusive guide to the international agreements customary international laws and judicial decisions governing the global community Heads of the Local State John Garrard,2017-11-28 In recent decades there has been increasing historical interest in various aspects of local urban politics resulting in a much better understanding of the recruitment and socio economic characteristics of municipal leadership and the exercise of power at a local level However much less is known about the highly important offices and office holders standing at the ceremonial political and executive head of towns and cities Through a comparative analysis of mayoralty since 1800 this volume explores the characteristics of the office in relation to such issues as the constitutional position of mayors their ceremonial and executive roles their representational status in relation to local regional and central authority and their public visibility which at various times has been used to highlight or blur issues of race gender politics or religion within a community Drawing on examples from contrasting national contexts in Eastern and Western Europe and North America and with contributions from both historians and political scientists this book will be welcomed as an important step in providing a much fuller international picture of the development and nature of urban governance *Integrated Space for African Society* Annette Froehlich,2019-09-18 This book provides an overview of the space sector in African countries from a legal and policy point of view analysing how the African Union's Space Policy and Strategy ASPS is implemented and highlighting the various space activities in each country Against this backdrop it investigates the ASPS identifying its policy goals identified and discussing its strategy Moreover it explores the on going regional cooperation programmes the continent's leading space actors and their roles and the space related regional fora and organizations reflecting on various initiatives including the African Leadership Conference on Space Science and Technology for Sustainable Development ALC the Regional African Satellite Communications Organisation RASCOM and the African Resource Management Satellite Constellation ARMS C As such it is a valuable source of information on space capacities in African countries
