Headway English 2:

The Construction of English J. Gray, 2010-09-29 This book takes the view that ELT global coursebooks in addition to being curriculum artefacts are also highly wrought cultural artefacts which seek to make English mean in highly selective ways and it argues that the textual construction and imaging of English parallels the processes of commodity promotion more generally

American Headway 2 John Soars, Liz Soars, 2001 **American Headway** John Soars, Liz Soars, 2002-01-17 Builds on the firm foundation laid in a href <http://www.oup.co.uk/elt/global> isbn 3580 American Headway 1 a *Global Englishes for Language Teaching* Heath Rose, Nicola Galloway, 2019-01-24 The spread of English as a global language has resulted in the emergence of a number of related fields of research within applied linguistics including English as an International Language English as a Lingua Franca and World Englishes Here Heath Rose and Nicola Galloway consolidate this work by exploring how the global spread of English has impacted TESOL uniting similar movements in second language acquisition such as translanguaging and the multilingual turn They build on a number of concrete proposals for change and innovation in English language teaching practice whilst offering a detailed examination of how to incorporate a Global Englishes perspective into the multiple faces of TESOL putting research informed practice at the forefront Global Englishes for Language Teaching is a ground breaking attempt to unite discussions on the pedagogical implications of the global spread of English into a single text for researchers and practicing teachers

Neoliberalism and Applied Linguistics David Block, John Gray, Marnie Holborow, 2013-03-01 This book explores neoliberalism a view of the world that puts the market at its centre from the perspective of applied linguistics Neoliberalism and Applied Linguistics argues that while applied linguistics has become more interdisciplinary in orientation it has ignored or downplayed the role of political economy namely the way in which social political and economic factors relate to one another within the context of a capitalist economy The authors take the view that engagement with political economy is central to any fully rounded analysis of language and language related issues in the world today and their collaboration in this volume represents an initial attempt to redress what they perceive to be an imbalance in the field The book begins with a discussion of neoliberalism and an analysis of the ways in which neoliberal ideology impacts on language This is followed by a discussion of how globalization and identity have been conceptualised in applied linguistics in ways which have ignored the political centrality of class a concept which the authors see as integral to their perspective The book concludes with an analysis of the ways in which neoliberal ideology plays out in two key areas of applied linguistics language teaching and language teacher education Neoliberalism and Applied Linguistics is essential reading for advanced undergraduates postgraduates and researchers in applied linguistics

Formation Alba E. Ruz, Cristina Fernández-Alcaina, Cristina Lara-Clares, 2022-09-15 The focus of Paradigms in Word Formation Theory and applications is on the relevance of paradigms for linguistic description Paradigmatic organization has traditionally been considered an inherent feature of inflectional morphology but research in the last decades clearly shows the existence of paradigms in word formation especially in affixal derivation often at the expense of other word formation processes This volume seeks to address the role that paradigms may play in the description of compounding conversion and participles This volume should be of interest to anyone specialized in the field of English morphology and word formation
