Williamson,2013-12-15 Today s critical establishment assumes that sentimentalism is an eighteenth and nineteenth century literary mode that all but disappeared by the twentieth century In this book Jennifer Williamson argues that sentimentalism is

alive and well in the modern era By examining working class literature that adopts the rhetoric of feeling right in order to promote a proletarian or humanist ideology as well as neo slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families she explores the ways contemporary authors engage with familiar sentimental clichés and ideals Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices considering the proletarian novels of Grace Lumpkin Josephine Johnson and John Steinbeck alongside neo slave narratives written by Margaret Walker Octavia Butler and Toni Morrison Through careful close readings Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo slave novels under discussion She contrasts appropriations that facilitate such cultural work with those that do not including Kathryn Stockett's novel and film *The Help* The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege Sentimentalism is not only alive in the twentieth century It is a flourishing rhetorical practice among a range of twentieth century authors who use sentimental tactics in order to appeal to their readers about a range of social justice issues This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation

**Alternative and Complementary Therapies for Cancer** Moulay Alaoui-Jamali, 2010-09-02 Cancer is a common disease with a devastating impact on the physical and psychological well being of patients The diagnosis of cancer brings upon many clinical challenges and questions for which clear and simple answers are not always provided by modern medicine To date only limited therapeutic options are available for patients with advanced cancer The recent shift toward targeted therapies has improved substantially patient's survival however relapses are frequent and cure remains rare This led patients and many health care managers to shift attention to the holistic approach of traditional medicine particularly preparations from herbal products to manage and alleviate the disease Typically herbal preparations contain single or multiple plant ingredients including a number of potential active components Yet they remain classified as food supplements and thus are exempt from regulations on quality control and proof of efficacy that govern standard pharmaceuticals Clinical evidence for many preparations is often based on non documented or anecdotal evidence In consequence several preparations with unproven efficacy are circulating in the market with the fear of interference with standard cancer therapies and or severe toxicity that some can generate in addition to the unjustified economical burden to patients Despite inconsistent and conflicting clinical results single molecules have been isolated from herbal preparations and many are exploited to develop potential novel agents This has fostered the need to organize a set of timely in depth and up to date review covering the latest developments in alternative cancer management from a scientific and clinical perspective dedicated to the medical community and health care providers as well as to patients and their families This book brings the latest comprehensive cancer information and practical recommendations on the best documented practice of alternative therapies for cancer
